Lancaster Farming

Serving The Central and Southeastern Pennsylvania Areas

Vol 21 No. 48 | Lancaster Farming, Saturday, October 30, 1976 | $4.00 Per Year

Ag policies scored

By JUDY MITCHELL
Berks County Reporter

LEESPORT, Pa. - Approximately 40 persons took advantage of an opportunity to meet USDA Assistant Secretary Richard L. Feltner in what was billed as a question and answer session on federal farm policy. The meeting was held at the Berks County Ag Center this past Thursday. It was the first of three such appearances in Pennsylvania which the Washington official was scheduled to make on Thursday to discuss matters pertaining to marketing and consumer services under the present administration.

Only about one-third of those attending the meeting were farmers, and media personnel dominated the first portion of the question and answer session which focused mainly on statements made by Feltner in his opening address.

Poultryman honored

STRASBURG, Pa. - After two years of service as president to the Lancaster County Poultry Association, Walter Shaub, Stevens, was the recipient of a special plaque of appreciation from the group on Thursday evening at their annual banquet held at Historic Strasburg, here. Over 300 members were in attendance.

Since Shaub was named president, several important programs have been implemented by the organization. One of these is a special education program for home economics teachers. The Association set up an in-service day where these teachers toured Cloisterdale and Victor Weaver, and then returned to the Farm and Home Center for a demonstration on eggs and poultry. They were also given promotion material to hand out to their students.

4-H awards presented

LANCASTER, Pa. - Lancaster County's 4-H'ers who excelled this past year with their dairy projects were rewarded for their efforts on Thursday night at the Farm and Home Center, here.

Capturing the biggest prize of the evening was Doug Hershberger from Quarryville. As top individual with his breed project book, he received special recognition from the gathering which numbered approximately 200. Pennfield Feeds Corporation gave the young Holstein dairyman from the Solanco area a handsome prize.

Also receiving recognition and prizes from Pennfield for their work with dairy breed projects were Lois Wanner, Brown Swiss; Warren Schmuck, Ayrshire; Connie Balmer, Guernseys; and Ellen Schmuck, Jerseys.

Honored for having had junior breed champions this

The corn harvest in southeastern Pa. still looks great, but some fields, such as this one, were smashed by raging storms in recent weeks.

Delmarva Poultry

Wednesday, Oct. 20

Ready to cook movement fair on whole birds and breasts, slower on legs and wings. Slaughter Schedules heavy and weights remained heavy. Todays LTL asking prices unchanged to 1 cent higher on plant grade while others unchanged. Advance light tough at unchanged prices as compared to Tuesday. Live supplies fully ample. Undertone steady. U.S. Grade A 37-38; Plant Grade 36-37.

Eastern Pa. & N.J. Poultry

Wednesday, Oct. 27

Prices generally unchanged on light type hens. Demand fairly good with plants operating at full capacity. Heavy hens are short and not enough to regulate prices. Interest is only fair on heavy type.

Prices paid at farm: light type hens 13-14, mostly 13½-14 in both Pa. and N.J. Heavy type hens TFEWR.

Philadelphia Eggs

Wednesday, Oct. 26, 1976

Market remained steady on large and extra large. Unchanged to 1 cent higher on mediums. Demand fair though not as good as anticipated. Carton interest centered on larger sizes. Supplies short on mediums, adequate on other sizes.

A Extra Large 73-75½; A Large 72-74½; Mediums 65-69.

CALVES 694. Vealers grading $4 to $8 lower; Standard & Good 90-110 lbs. about steady. Few Prime vealers 60.00-63.50, Choice 40.00-56.50, Good 35.00-45.00, Standard & Good 110-130 lbs. 33.50-37.00, 90-110 lbs. 31.00-35.00, Standard 70-85 lbs. 27.00-32.00, Utility 50-65 lbs. 23.00-27.00. Farm calves, holstein bulls 100-120 lbs. 32.00-38.00.

HOGS 78. Barrows & Gilts 25 cents to 75 cents higher. US No. 1-2 205-265 lbs. barrows & gilts 34.10-35.85, few lots No. 2-3 250-255 lbs. 33.50-34.50. US No. 1-3 300-550 lbs. sows 24.50-31.50. Few Boars 19.00-19.75.

FEEDER PIGS 40. US No. 1-3 20-40 lbs. feeder pigs 13.00-17.00 per head.

SHEEP 11. Few Choice 100-115 lbs. wooled slaughter lambs 36.00-40.25.

New Holland Horse

Monday, Oct. 25, 1976

Reported receipts of 426 horses, mules, and ponies. Market steady with last week's market.

Local work horses 450 - 850; Riding horses 140 - 225; Better riding horses 260 - 400; Lightweight killers 15 - 18; Heavyweight killers 22 - 24; Mares 15 - 40; Colts 10 - 25; Geldings 15 - 35; Larger ponies 55 - 90.

Oklahoma Cattle

Oklahoma City
Oct. 28, 1976

Estimated Receipts 11,500
Same day last week 13,454

Moderately active, Feeder Cattle and Calves generally steady except feeder heifers over 500 lb. steady to 50 cents lower, instances 1.00 lower on Choice grade. Majority receipts mixed good and choice and choice 400-750 lb. feeder steers and 350-650 lb. feeder heifers; fairly large attendance buyers.

FEEDER STEERS: Choice, few prime 300-400 lb. 38.25-41.60; 400-500 lb. 35.50-39.00; 500-600 lb. 35.25-38.00, part load 553 lb. at 38.70; 600-700 lb. 34.25-36.50; 700-800 lb. 34.75-35.40; 800-955 lb. 34.50-35.50; mixed good and choice 300-500 lb. 34.00-36.75; 500-700 lb. 33.75-35.00; 700-937 lb. 33.25-35.00; good 300-500 lb. 30.75-34.00; 500-830 lb. 30.75-33.75.

FEEDER HEIFERS: Choice, few prime 300-400 lb. 28.75-30.00, two loads and part load 315-365 lb. reputation heifer calves 32.25-33.90; 400-500 lb. 28.00-32.00; 500-700 lb. 29.50-30.50; mixed good and choice 300-500 lb. 26.75-28.75; 500-720 lb. 27.25-29.25; good 300-500 lb. 24.75-26.25; 500-550 lb. 25.50-27.50.

FOR THE WEEK: Compared to late last week, feeder steers over 600 lb. 50 cents to mostly 1.00 lower, steers under 600 lb. generally steady; feeder heifers over 500 lb. steady to 50 cents lower, some choice heifers 1.00 off; feeder heifers under 500 lb. generally steady; cows recovered the early loss to close near steady; bulls under extreme pressure and 2.50-3.50 lower; salable receipts near 29,300 head compared to 37,587 last week and 26,752 the comparable week a year ago. Cows comprised 14 per cent of the cattle receipts numbering near 4,100 head or 800 head less than the previous week; feeders made up 85 per cent of the total.

St. Louis

FEEDERS: Including around 3000 at Thursday auction. Feeder steers steady to 1.00 lower, feeder heifers firm to 2.00 higher. Supply mostly choice and mixed good and choice 400-800 lb. steers and 350-700 lb. heifers.

FEEDER STEERS: Choice 300-600 lbs. 35.50-38.00; 600-800 lbs. 35.00-37.50, few lots fleshy 800-950 lbs. 34.50-36.75. Mixed good and choice 300-700 lbs. 34.00-35.50. Few lots good 300-600 lbs. 30.00-31.50.

FEEDER HEIFERS: Choice 350-600 lbs. 29.50-32.50; 600-700 lbs. 30.50-34.00, load 709 lbs. 34.25. Mixed good and choice 350-500 lbs. 26.25-29.25; 500-700 lbs. 27.50-30.50. Good 375-500 lbs. 24.00-26.25.

Virginville Grange meets

VIRGINVILLE, Pa. - Senator Michael O'Pake attended the most recent meeting of the Virginville Grange and spoke briefly. The group also had its Halloween Party.

During the meeting, various dates were decided upon. Beginning November 1, there is a meeting at the Ag Center, Leesport, for masters, overseers, lecturers, and secretaries. On November 3 at 7:30 p.m. the pumpkin pie contest will be held. On November 5 the youth will have a hayride, and should be at the hall at 8 p.m. The group will visit the Centerport Grange on November 9, and on November 13 the National Grange will be held. Ten tickets still remain. Then, on November 15, a masters meeting will be held in the Grange hall at 8 p.m. The date for the Cooperative Extension banquet is November 19 at the Fleetwood Grange.

Committees were also named at the recent meeting.

Alfalfa processing feasible

WASHINGTON, D.C. - Processing fresh alfalfa into Pro-Xan, a USDA-developed experimental high-protein feed supplement, shows commercial possibilities, according to a report released by the U.S. Department of Agriculture's Economic Research Service. Pro-Xan is not commercially available under a trademark name. Investing in a Pro-Xan facility would be an alternative to building or expanding a conventional alfalfa dehydration plant.

Several methods have been developed for processing green-chop alfalfa into valuable high-protein Pro-Xan granules and a press cake with roughage value. Simulated initial investment costs for plant construction and harvesting and hauling equipment needed to produce Pro-Xan by these methods ranged from $2.4 million to $3.0 million.

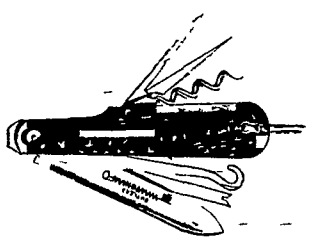
The annual rates of return on investment for the systems in operation also were evaluated. They ranged from 43 to 48 per cent, depending on how the alfalfa solubles were disposed, the method of handling the dehydrated press cake, the length of the operating season, and the size or capacity of the plant. These rates of return were somewhat higher when compared to the return that might be expected from an alfalfa dehydration plant operating for the same length of season. The higher dehydrated alfalfa prices of recent months would result in slightly higher rates of return to an investment in Pro-Xan since the study estimates used 1974 and 1975 prices.

THE OLD FARMER'S ALMANAC

NOV. 1-7, 1976

Typical fickle prospect we suspect.

Bank your cellars now . . Richard Cardinal Cushing died Nov 2, 1970 Full moon Nov 6 . . Election Day Nov 2 Average length of days for the week, 10 hours, 12 minutes Penumbral Eclipse of the moon Nov. 6, the end of which will be visible in North America except the northwestern part (eclipse ends at 8 17 PM, EST) . TV quiz scandals reach climax Nov 2, 1959 *A man shows his character by what he laughs at*



Ask the Old Farmer: In my grandfather's diary for September 16, 1872, he mentions an apple cut. He writes, "Mrs Mickens had an apple cut for the ladies in the afternoon, and the boys came at night and we had a dance." What was an apple cut? F S, Danbury, Conn

It was common practice then to core and slice apples and then dry the slices to store them through the winter Of course the work went faster with extra hands and a little music afterwards didn't detract from the appeal of the affair either

Home Hints: If you prefer onion flavor that "whispers" instead of shouts, chives are for you Grow them in pots on your window sill

OLD FARMER'S WEATHER FORECASTS

New England: Cool and showery through midweek, then clearing and mild for week's end

Greater New York-New Jersey: Mild and showery through Wednesday, then clear, sunny, warm for rest of the week

Middle Atlantic Coastal: Begins clear and cool with frosts inland, then sunny and warm at week's end

Piedmont & Southeast Coastal: Sunny through midweek, then turning cloudy and warm for remainder of week

Florida: Cloudy with showers all week, heavy rain in the south

Upstate N.Y.-Toronto & Montreal: Cold with flurries through Thursday, sunny and mild for week's end

Greater Ohio Valley: Cloudy and cold to start; turning clear and hot on Wednesday through the end of the week.

Deep South: Sunny and very warm at start, by Friday, seasonal rains on and off.

Chicago and Southern Great Lakes: Cold and flurries to start, then sunny and warmer starting Thursday; at week's end, colder and rainy

Northern Great Lakes: Early week light snow through Wednesday, sunny and warm for week's end.

Central Great Plains: Early week through Friday sunny and warm, Saturday brings cold, rain, sleet and snow

EDITORIAL COMMENTS

BY DIETER KRIEG, EDITOR

Defending what we've got

Earlier this year a dairyman turned to me to say. "Most farmers come to each other's aid in times of tragedy, but why can't they band together for the sake of higher prices?"

He was referring to a concept whereby all farmers join together in one bargaining organization which would see to it that all commodity prices would be so compatible to one another that every rancher and farmer would receive his "fair" share.

The answer to his question, to my way of thinking, is quite simple

First of all, American farmers are a people who believe in themselves and in free enterprise with the least amount of control as possible. Like most any person who is in business for himself, the farmer will think about his own situation first, then his own particular group, and finally farmers collectively. Apparently farmers as a whole have never felt strong enough about forming an all-inclusive marketing organization.

Most likely they also realize that such an organization isn't really fitting to the motivation of making a living (and a profit) in the way they choose.

Unilateral control by a gigantic farmer fraternity wouldn't be far off from the likes of unilateral governmental control. Farmers resent the latter, and I'm convinced they feel the same way about the former. It just wouldn't fit into our free enterprise way of doing business.

Furthermore, it's human nature to go for a few more cows if the price of milk is right, or an extra bunch of hogs if bacon is in demand. Farmers appreciate the freedom to have that choice.

Most farmers wouldn't want to wait for "the green light" from some organization or government agency to tell them whether or not they can expand. They want to determine that themselves. Besides, who knows better than the individual farmer himself how marketing and production trends best fit into his own operation?

In theory a proposal to band together for higher prices may sound good. And having prices inter-related so that none is favored even sounds ideal. But it would, in my opinion, be so complicated and complex that it just wouldn't work.

Specific marketing situations exist, such as export demands, and weather has always had an impact on prices. Who would want to figure these factors and many more in a formula which would set prices to **everyone's** satisfaction?

Frankly, I don't think it can be done - for a variety of reasons - the weakest of which is not the fact that we'll always have complainers, no matter what this group or that group does.

Evaluating farm situation

It's been reported that farm income has doubled in less than ten years and that U.S. farm exports stand at a record $22 billion for this past fiscal year That's about triple of what it was in the late 1960's.

Whether these figures are really significant to an individual farmer is debatable. It depends on what branch of agriculture you're in The majority of farmers in this part of the country, however, feel that they've been relatively well off for the past several years.

Two years ago busloads of dairymen went to Washington to protest about low milk prices and high production costs. Earlier that year the cattlemen were experiencing a squeeze the likes of which they hadn't seen before And things haven't improved all that much for the men who put the meat on our tables A year ago the grain farmers were hopping mad about the grain embargo Approximately two years ago Midwestern farmers were shooting calves to call attention to their financial plight

Such occurrences and others have been all but forgotten There's not much said anymore, and calves aren't being shot Possibly this is a fairly good yardstick for measuring the situation down on the farm.

I believe that the unrest among various groups of farmers in the past spoke for itself. Likewise, it's my opinion that the relative tranquility we've seen for two years or so speaks for itself.

Our agricultural economy will hopefully remain stable.

A number of concerns are being voiced, however, especially now just prior to the elections

It's remembered that AFL-CIO president George Meany had an awful lot to do with the grain embargo last year. Therefore it's important to consider what sort of relation there is between him and the candidates Do we want Meany and his labor unions to have even more say in agriculture than he has now? I would hope not.

One thing is certain. U.S. agriculture has the potential (and demonstrated proof of it) that it can easily produce enough food for its own people and millions more around the world. We've got everything it takes to produce.

Farmers should continue to be able to exercise their right to produce in the best way they know how with a minimum amount of restrictions. And they deserve to make a fair profit

THE BIBLE SPEAKS

International Uniform Sunday School Lessons

BY LAWRENCE W. ALTHOUSE

THE WINNER'S CIRCLE

Lesson for October 31, 1976

Background Scripture:
Romans 8:18-39
Devotional Reading:
Psalms 90:13-17.

During the past week I have been watching some of the Summer Olympics in Montreal. In event after event I have seen the first, second, and third-place winners stand in triumph in the winner's circle to receive the plaudits of the crowds.

From time to time the television announcer makes a passing reference to the athletes who held those distinctions four years ago, but it is quite apparent that, for the most part, the names are quickly forgotten except in official record books and those for whom the Olympics is not just a sport. Even by the time you read this column two months later many, if not most people will have forgotten those who were victorious in these games.

More than conquerers

Of course there are a few exceptions. There is hardly an Olympics that the name of Jessie Owens is not remembered, or Pavo Nurmi, or some other Olympics "immortal." These men and women not only won the events in some distant year, but for some special reason they are remembered and revered long after their performances have been eclipsed by new records. They not only were winners "once upon a time," they are still victors today in a sense, for that is how they are remembered.

This may help us to understand what Paul means in Romans when he speaks of being "more than conquerors" (8:37). At first it may seem that there is nothing higher than one who has been victorious. Yet, as I have indicated in athletics, many victors are not long remembered. The same is true in politics, in business, and other areas of human endeavor, particularly in warfare.

Thus, it is not enough to be a winner unless one can somehow remain a winner. To step into the winner's circle once in some contest may be very gratifying, but when it comes to the game of life itself we want to remain in that circle. Thus, we want to be "more than conquerors," we want to remain victors in this great contest.

Nothing can defeat us

Perhaps another analogy will help us: it is not enough to win a battle unless we also win the war. Too many people are satisfied with one victory, with one stage of growth and development toward the goal Christ has set for them.

A teenage boy was doing a nice piece of business mowing lawns in his neighborhood. One afternoon his mother noticed that he was taking his good old time about getting started. Explained the son: "I'm waiting for them to start themselves. I get most of my work from people who are halfway through."

Life's road is littered with the wrecks of people who quit halfway through, who were satisfied with one or two victories and did not strive to remain in the winner's circle, who, unlike Paul, were not determined to be "more than conquerors."

NOW IS THE TIME...

To Be Alert For Hunters

The small game hunting season opens this Saturday at 9:00 a.m. I would like to offer these suggestions to all hunters who will be hunting on farms. In the first place, ask the farmer permission if you want to hunt on his land. Most landowners permit reasonable hunting, when asked. This is a small courtesy in return for a pleasant day in the field, yet too few people follow this rule. Also, if you go through gates, be sure to close them, and , after lunch pick-up your paper and cans so you leave the area the way you found it. Another thing, stay out of corn fields not yet picked or soybean fields not harvested.

Keep a safe distance from buildings and livestock while hunting and be sure to respect the property of others as you would expect others to respect yours.

To Handle Soybeans Properly

With the soybean acreage that we now have, many farmers may use their own seed for 1977 planting. Just remember that soybean seed is a very perishable commodity and must be handled with care. No matter how you handle soybeans for seed, you should always handle them gently.

Some things to remember when handling soybeans. Do not heat dry soybean seed at air temperature above 110 degrees Fahrenheit (43 degrees Celcius). This will affect germination. Also, never drop soybean seed from heights that will break the seed coat. Soybeans dropped from 10 feet into a bin can cause as much as a

15 per cent loss in germination.

As to storage, soybean seed should be stored in a cool dry place. And finally, the soybean seed that you plan to seed next spring should be tested for germination. You can send a one pound sample to the Department of Agriculture Building in Harrisburg, Pa. for this test. There is a small service charge, but it's well worth the money.

To Be Thinking About Firewood

A lot of farmers will be attempting to burn wood this winter to help in conserving on expensive home heating fuels. This is the time to be cutting your winter wood supply. In order to obtain the highest efficiency from wood, it should be dried under natural conditions to a moisture content of 15 to 25 per cent.

A tree, when it's first cut, will have about equal parts of wood and water. If you attempt to burn this high moisture or green wood, a lot of the heat will be used to evaporate the moisture. This will result in slow burning and heavy deposits of wood tars (soot) on the chimney walls. This condition can lead to the danger of chimney fires.

The green wood should be cut to the length with which it will be used, normally 16 to 18 inches, and preferably split for quick drying. Pile the wood on raised supports so air can reach each end, and locate the pile so that it has maximum exposure to the sun.

To Protect Trees and Shrubs for Winter

Your trees and shrubs can get through the winter, but they can do it better with a little help from you. Here's what you can do to help save some of your valued trees and shrubs.

Thin-barked trees can be damaged by sunscald in the winter. That's why it's a good idea to wrap the trunks of such trees as sugar maple, tulip tree, American linden, flowering dogwood, and plum. You can wrap them now, but be sure to take the wrapping off late next spring.

It's best to use commercial tree wrapping, starting at ground level and working up the tree, overlapping every half-inch. Tie the wrap with twine but be careful not to tie it too tight.

Smaller ornamental plants can be mulched, but don't do this until there have been several hard freezes. Good clean wheat straw, leaves, shredded bark or peat moss are all good for mulching. Apply four to six inches over the root areas.

Deadline for purchasing tickets for the Lancaster County Holstein banquet, to be held Nov. 9 at Willow Valley Restaurant.

Tips on growing geraniums indoors

UNIVERSITY PARK, Pa. -Unfortunately, it is difficult to store geraniums through the winter in the warm, dry rooms of modern-day homes. The ideal cool, damp cellars with dirt floors exist no longer. If saving this summer's geraniums is a must, the best approach is to take cuttings. However, there is another approach that can be tried although it is not usually as successful. Dig the entire plant now. Prune the tops and roots to match and pot-up in a 6-8" diameter container with drainage holes in the bottom. For the next week or 10 days, sink the potted geranium partially into the ground under a high-pruned shade tree. This will help to condition the plant when it is moved indoors to reduced light intensity. Once brought inside, place the plants in a bright, sunny window (south, east, west) in a room having cool temperatures (50-55 F. at night) and apply liquid fertilizers at half strength every five to six weeks. When it comes time to put the geraniums out again next season, they can be used effectively in the garden or in outdoor containers.

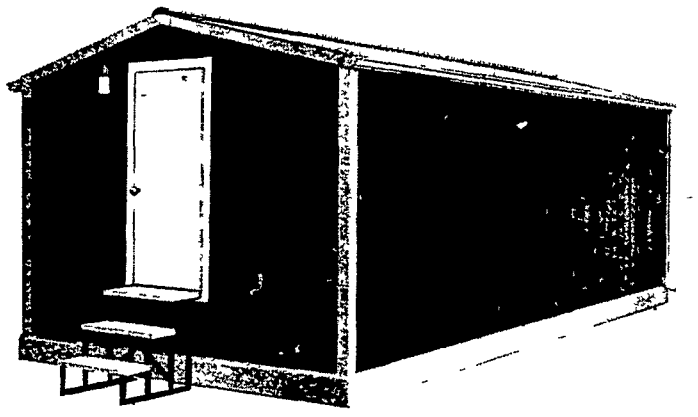
AGSTAR
CALF CASTLE


... the new, economical environment that can bring out your calves' bred-in potential
Now, at far less than you'd pay for an ordinary structure, you can give your calves *royal* treatment. The new AGSTAR Calf Castle nursery building gets your calves into the kind of comfortable living conditions they thrive on, the "tender loving care" they need to reach their full bred-in potential.
It's a controlled and completely protected environment — the one important tool for calf raising that lets you utilize your good management abilities to the fullest.
The AGSTAR Calf Castle is a factory-built and fully assembled building, including pens, waterers and all When it's delivered to you, it's ready to go to work. Just hook it up to electricity and water supply...then put in the calves.
Suddenly your job becomes a lot easier and a lot more rewarding
And, because of the efficiency of factory assembly and mass production, cost is surprisingly low. We'll be happy to have a representative call with prices and full details, or we'll mail you information.
(1) Building comes complete with ventilation system, (2) slotted floors (3) stalls, (4) glass-lined water heater, (5) sink and cabinet (6) electric or LP Gas Heater, (7) modulator to control fan speed, (8) fully insulated Fiberglas® covered walls, and other features

Deadline announced

November 6 is the deadline getting tickets for the Lancaster County Holstein banquet, to be held at the Willow Valley Restaurant, south of Lancaster, on Nov. 9.

Tickets may be purchased from any of the following: Elvin Hess, Jr; Robert Groff; Arthur Wenger; John Kreider; Clair Hershey; Clarence Stauffer; Richard Hess; Paul Welk; Curtis Akers; Maurice Welk; Robert Charles; Russel Adamire; Robert H. Kauffman;; Robert L. Kauffman, Jr.; Elam Bollinger; J. Mowery Frey, Jr.; Clyde Buchen; Kenneth Rutt;Loren Zimmerman; Robert Kindig; Shelley Shellenberger; Nathan Stoltzfus; Dale Peifer; Jay Landis; H. Richard Hershey; Clyde Martin; Galen Crouse; John Harnish; Veron Umble; Henry Kettering; Albert Fry; Glenn Hershey; Melvin Eby.

4-H awards

[Continued from Page 1]

past year were: Russell Wilson, Ayrshires; Lucinda Trimble, Brown Swiss; Jane McSparran, Guernseys; Joyce Stoltzfus, Holsteins; and Ellen Schmuck, Jerseys.

Breed grand champion awards went to: Rhonda Shope, Ayrshires; Robert Witmer, Brown Swiss; Rick Crider, Guernseys; Sandi Frey, Holsteins; and Matt Arrowsmith, Jerseys.

A district junior champion award was presented to Judy Witmer.

For junior showman awards, the following were cited Matt Arrowsmith, Jerseys; Connie Balmer, Guernseys; Judy Witmer, Brown Swiss; R. Kevin Eshleman, Ayrshires; Leonard Stoltzfus, Holsteins.

In the Senior showmanship division the honors went to. Linda Kauffman, Holsteins; Carol Balmer, Guernseys; Robert Witmer, Brown Swiss; Warren Schmuck, Ayrshires; and Ellen Schmuck, Jerseys.

Prizes were donated by the following companies: American Breeders Service; Atlantic Breeders Coop.; Curtis Breeding Service; John W. Eshelman & Sons: Farmers' Fertilizer Works; Goods' Feed Mill; Graybill Dairy, Inc.; Grumelli's Farm Service; Harrisburg Dairies; Hoober's Feed Mill; Hostetter's Hauling; Interstate Milk Producers; Kreider & Diller Auctioneers; Kreider Dairy Farms; Lancaster Bone Fertilizer; L.H. Brubaker; McMullen & Schmuck, Veterinarians; Oxford Hay and Grain; Penn Dairies; Pennfield Corporation; Penn Jersey Harvestore; Powl's Feed; Queen Dairy; Red Rose Feed and Farm Supply; Ross Rohrer & Sons; Earl Umble of Young's Inc; Wenger's Feed Mill; Wenger Implement.

Lancaster County 4-H'ers receiving dairy project awards Thursday night were, left to right, Warren Schmuck, Peach Bottom; Ellen Schmuck, Peach Bottom; Connie Balmer, Lititz; Lois Wanner, Narvon; and Doug Hershberger, Quarryville.

Lancaster County 4-H'ers who had grand champions this year in their respective breed shows were, left to right, Robert Witmer, Brown Swiss; Sandi Frey, Holsteins; and Rhonda Shope, Ayrshires. Not available for the picture were Rick Crider, Guernseys; and Matt Arrowsmith, Jerseys.

Recognized for having had junior champions in the Lancaster County 4-H program were, left to right, Ellen Schmuck, Judy Witmer, Joyce Stoltzfus, and Lucinda Trimble. Not available for the picture were Jane McSparran and Russell Wilson.

County FFA judging results from fairs released

MANHEIM, Pa. - Judging results from county FFA competition at the Manheim and Lampeter Farm Shows were recently made public. These Fall competitions are considered the first step in the process of going to state competition and then onto the national level.

In the ninth grade livestock judging contest held at the Manheim Farm Show the following were the results.

Livestock

Jerry Myer from Lampeter Strasburg was the first place ninth grade livestock judge with 466 points out of 500. Second place went to Chris Herr, New Holland; third to Tom Good, Manheim; fourth to Mary Boley, New Holland; fifth to Harold Messner, New Holland; sixth to Michael Wood, Solanco; seventh to Gerald Martin, New Holland; eighth to Betty Trimble, Solanco; ninth to Jeff Taylor, New Holland; and tenth to Tim Rice, Ephrata.

Dairy

Jay Shelley, Manheim, took the first place slot in the dairy competition with 286.2 points out of 300. Terry Hackman, New Holland, was second; Colleen Wise, New Holland, third, Troy Groff, Solanco, fourth; Jennifer Smith, New Holland, fifth; Sue Ewell, New Holland, sixth; Kenneth Long, E-town, seventh; Joe Good, New Holland, eighth; Dennis Baur, New Holland, ninth; Robin Dommet, E-town,

Total Contest

In the overall Junior High contest, Jerry Myer, Lampeter Strasburg, had the top amount of points with 686.5 out of 800 The other placing were: Tim Rice, Ephrata, second; Tom Good, Manheim, third; Chris Herr, New Holland, fourth; Randy Martin, New Holland, fifth; Mary Boley, New Holland, sixth; Bruce Benet, Pequea Valley, seventh; Jeff Tailor, New Holland, eighth; Betty Trimble, Solanco, ninth; and Eugene Deiter, Penn Manor, tenth.

School Averages

In overall Junior High School competition, Ephrata placed first; New Holland placed second; Penn Manor, third; E-town, fourth; Solanco, fifth; Manheim Central, sixth; Pequea Valley, seventh.

Rope Pull

In rope pull competition at the Manheim Fair, Ephrata Junior High placed first and Manheim Central placed second. Ephrata was also first in senior competition.

There was also a girls' rope pull at Manheim with the New Holland girls placing first

Senior High Livestock Competition

Tim Good, Manheim, had the top score with 454.2 out of 500 points. Skip Rice, Penn Manor, placed second; Phil Shertzer, Penn Manor, placed fourth; Dale Martin, Manheim, placed third; Lamar Groff, Ephrata, placed fifth; Scott Heidelbaugh, Solanco, placed sixth; Dean Weiler, New Holland, placed seventh; Linford Weaver, New Holland, placed eighth; Lin Frey, Ephrata, placed ninth; and Gerald Gruber, E-town, placed tenth.

Senior High Dairy Competition

In dairy competition, Mary Seward, E-town, was in the first place with 269 points. Following her were Dennis Kulp, Manheim, second place; Ron Frey, Ephrata, in third place; Rick Sweigart, Ephrata, in fourth place; Bill Chandler, Solanco, in fifth place; Sheryl Bollinger, Ephrata, in sixth place; Duane Weber, New Holland, in seventh place; David Martin, Ephrata, in eighth place; Robert Gutshall, Warwick, in ninth place; and Karen Fuller, Pequea Valley, in tenth place.

Total Contest for Sr. High

Tim Good was first in the total contest, followed by Dennis Kulp in second, Rich Sweigart in third, Mary Seward in fourth, Lin Frey in fifth, Gerald Gruber in sixth, Duane Hernely in seventh, Dwayne Peifer in eighth, Skip Rice in ninth, and Craig Harnish in tenth.

School Average for Sr. High

Ephrata was first in school placings followed by E-town in second. Penn Manor was third, New Holland was fourth, Manheim Central was fifth and Solanco was sixth.

General care preserves upholstery

UNIVERSITY PARK - Regular care will keep upholstered furniture looking its best while reducing wear if you follow these guidelines for general care and cleaning:

Vacuum cushions once a week. Be sure to clean armrests, back, and crevices. A soft bristled brush may also be used.

If cushions are reversible, turn them each week when cleaning to allow undersections to "breathe" and the fabric to wear evenly.

Use partial slip covers on arm and headrest areas which receive the most wear.

Keep upholstered furniture away from direct sunlight to prevent fabric fading and deterioration.

Treat spills quickly before they stain. Blot up excess liquids and scrape up excess solids as soon as possible.

Shampoo upholstery two to three times each year with an upholstery shampoo to remove greasy dirt, before the upholstery is severly soiled. Do not use a laundry detergent as they must be rinsed.

Before cleaning upholstery, read the instructions suggested by the manufacturer on hangtags and on the upholstery shampoo container.

Never remove zippered covers from cushions to clean. Zippers are used for better fit, not as an indication that covers should be removed or cleaned separately. In case of even slight shrinkage, covers may be difficult to replace.

Pretest cleaner on an inconspicuous area of the upholstery.

Apply the cleaner with a circular motion and work from the edges of the soiled area toward the center. Use as little moisture as possible to avoid wetting the cushioning and fiberfill.

Allow upholstery to dry thoroughly. A hair dryer set on "cool" is helpful for fast drying of spots. Lean damp cushions on paper toweling, not against another fabric of a different color which could result in color transfer. Drying time is usually about one hour.

Vacuum or brush lightly to remove residue of soil and dried shampoo.

Walter Loy, Farm Credit Service, presents awards to Betsy Nichols, (left), and Lucinda Yorlets, (right) for Outstanding 4-H Newsreporter and Secretary, respectively.

Awards presented

CARLISLE, Pa. - The American Youth Foundation presents "I Dare You" Awards to a 4-H Boy and Girl in each county in the United States. The award is in the form of a book, I Dare You, written by William H. Danforth, founder of the Ralston Purina Company. In Cumberland County these awards were presented to Gary Hornbaker, Shippensburg, a nine-year 4-H member; and Lucinda Yorlets, Carlisle, also a nine-year 4-H member.

Walter Loy of Farm Credit Service presented trophies to the Outstanding Cumberland County 4-H Secretary and Newsreporter. Lucinda Yorlets received the additional recognition of Outstanding 4-H Secretary. Betsy Nichols, a 4-H Horse and Pony member received the recognition as Outstanding 4-H News Reporter

Right off the bat, you re going to say oh, they re talking about early-maturing hybrids

Not necessarily so

Because our research people worked long and hard to make all Funk s G-Hybrids start drying down before the others Consequently, we ve gained a reputation for being drier at harvest

And remember, our stalks stay sturdy and strong, and stand right through the end

It s just that our hybrids don't come out of your fields all wet behind the ears

And that s going to save you headaches at harvest, moisture points at the elevator or fuel if you dry down in your own bin

So, if you re lookin for hybrids that dry down fast regardless of maturity, turn to the ones that turn the tap on early Funk s G-Hybrids

You won t get turned off by the results

FUNK'S G HYBRID

Ag policies scored

[Continued from Page 1]

Asked to be more specific about the changes he mentioned having taken place in recent years to benefit agriculture, Fetner stressed as he had in his opening remarks, the importance of the decrease in government control over agricultural production in the past few years. He pointed out that farmers are now being permitted to make the decisions on what to grow and where to grow it. He added that for the most part, the farmer's decision has been to increase production and that the larger amounts are moving into exports. As an example of the restraint being placed on government control, Feltner cited the recent increase of loan rates for wheat from $1.50 to $2.25. Mentioning that some people feel that the increase was too low considering the current price of wheat, Feltner said a higher rate "would price wheat so high under a loan program that it would wind up being owned by the government."

Another reference to Feltner's opening remarks was made in the form of a question concerning an earlier claim that farm income has risen considerably in the recent years while statistics indicate that farm income decreased between 1973 and 1975. In answer, Felton pointed out that there will always be some fluctuation but "what's important is the trend of it." The implication was that that trend is up and Feltner furthered that "the policy for producing for a world market" will assure that that trend continues.

One farmer present commented on the amounts of beef being imported considering the already low beef prices in this country Feltner stated that steps have already been taken to "impose import quotas" which he said, will reduce the amount of beef coming in from other countries; although he emphasized that there is "no legal way" to eliminate the imports altogether.

In reply to a question regarding grain embargos, Feltner commented that President Ford has made plain his objection to embargos but admitted that it is impossible for anyone to predict the "dire emergencies" that might arise to necessitate one. He later commented on the State Department's influence in the matter of embargos stating that it (the State Dept.) does justly have a role in the matter as it influences national defense, our Armed Forces based in foreign lands, or agreements we are in the process of formulating with other nations, but that the "degree" of influence is the issue. "It is really a matter of balance," he said.

Responding to a question as to whether or not he felt the Food Stamp Program should remain in USDA or be transferred to another agency such as HEW, Feltner said that his personal feeling was that it ought to be in HEW "but I would hasten to say that we have taken the position all along that as long as it is in agriculture, we're going to do the very best job that we can to administer it." The

Richard Feltner

idea of possibly transferring it to HEW as proposed three years ago, he added, has been on "the back burner" for the last couple of years, but he feels certain that it will be reconsidered sometime after the first of the year as new Food Stamp legislation is due in 1977.

Feltner was named Assistant Secretary in April 1974. He presently directs the USDA Animal and Plant Health Inspection Service, the Agricultural Marketing Service, the Food and Nutrition Service, and the Packers and Stockyards Administration.

Land-use meeting held

LANCASTER, Pa. - A land-use meeting held here this week took a turn for the better, according to Lancaster County Extension Agent, Jay Irwin.

Irwin told Lancaster Farming in an interview on Wednesday that "audience reactions were good and farmers as well as township supervisors contributed."

Held in the Farm and Home Center, here, the meeting was the largest yet held on land-use in Lancaster County. Approximately 70 persons were in attendance, compared to as few as 15 the week before. Land-use is concerned to be of uppermost importance by many legislators and farm leaders.

Details on the issues involved were presented in a page 1 sotry of last week's Lancaster Farming.

As was pointed out at meetings in other areas, the consensus of those attending was that final decisions regarding land-use should be left up to local authorities. State control is being opposed. Some individuals also noted, said Irwin, that the land-use problem would not have to be an issue if farmers had a large enough return on their investments to find the sale of their properties unnecessary.

The suggestion was made by one individual that stronger control should be exercised in deciding where industry may locate. More specifically, he suggested industry move to areas of high unemployment, reasoning that it would reduce the necessity of people having to move to where industry locates (should it move to an area where employment is already high).

"I was impressed with the comments," noted Irwin.

A farmer in the audience pointed out that some development had taken place around his farm and since then he has experienced several instances of flooding. He urged that greater consideration be given to a stream's capacity of handling run-off from paved over areas.

Bunk

Politics may make strange bedfellows but they soon get used to the bunk

Poultryman honored

(Continued from Page1)

This year, the topic of the program will be on cutting up and deboning turkey, however, Shaub is uncertain whether an actual demonstration will be presented or whether a slide show, only, will be shown.

Other programs the Association has been involved with since Shaub became president were food booths at the Ephrata and New Holland Fairs, and more recently, a display at the Park City Agriculture promotion. Shaub spent every day in the mall except for one evening.

Jay Irwin, County agent, lauded these group activities when he gave a committee report during the business meeting.

"This group has a really active board that has a lot of fun, but gets things done," said Irwin.

He noted that, among other things, the education committee has had meetings on poultry health, opportunities in poultry rearing, and broiler and turkey management.

Irwin also spoke about the public relations effort at Park City and the importance of poultry promotion to the industry. He noted that the 1976 poultry queen, Vicki Sherick, has done much for the group by her appearances in parades, at banquets, and in the Park City effort.

Walter Shaub, president of the Lancaster County Poultry Association, receives a plaque of appreciation for his efforts from Stanley Musselman, Quarryville, farm representative from National Central Bank and a member of the board of directors.

The business meeting was also the time to elect members to the board of directors. Each year, four new board members who will serve a three-year term are chosen. Those either reelected or chosen for the first time were Stanley Musselman, Quarryville, John R. Huber, Jr., Lititz, Harold S. Musselman, New Holland, and Martin K. Pflieger, Manheim.

The majority of the dinner meeting, however, was devoted to fellowship and entertainment. Faye Stoner, who stayed in Germany for six months as part of the International Four-H Yourhth Exchange (IFYE) presented her slide presentation to the group, who was one of her sponsors. The final entertainment for the evening was a barber shop quartet named the Lanco Lad's. Following their presentation, door prizes and centerpieces were given out.

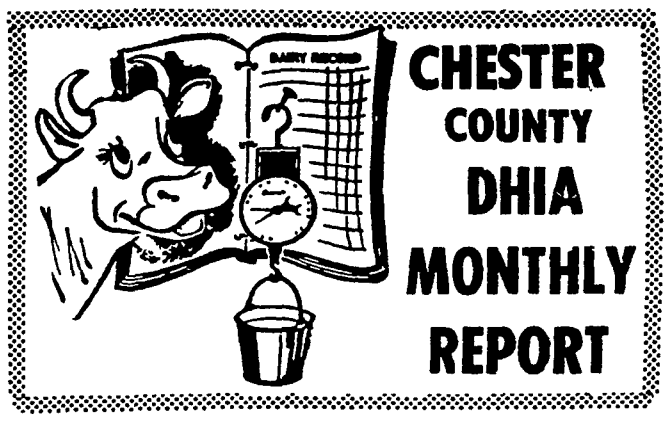
DEPENDABLE SERVICE on these and other materials at our East Linden Street location, Richland, PA



Donald Hostetter and William E. Parry and Son owned the champion butterfat and milk production champions, respectively, for last month's Chester County DHIA program. Hostetter's cow, a 4-year old registered Holstein named "Beautiful," checked in with 20,390 pounds of milk, a 4.7 per cent test, and 967 pounds of butterfat in 305 days. The Parrys' milk production leader was also a Holstein, Number 61, which produced 23,433 pounds in 305 days. She had a 3.3 per cent test and 770 pounds of butterfat.

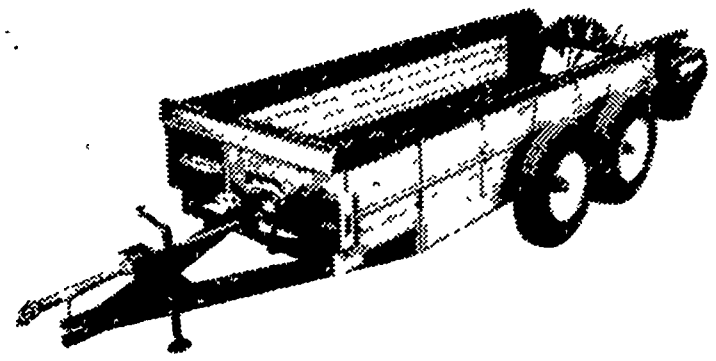
New Idea's Manure Spreaders

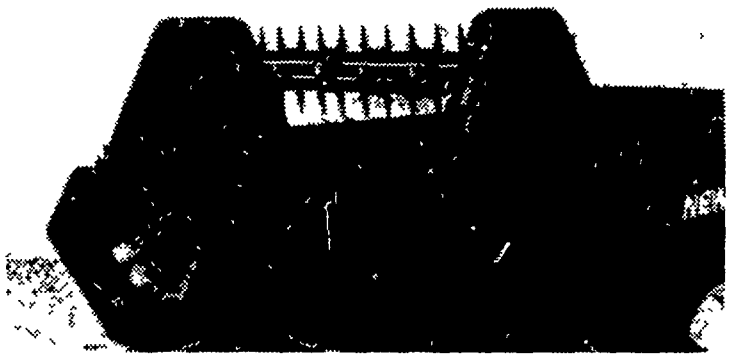
Spread less often. Spread 10 tons each load!



Want to spread less often? Then check out New Idea's BIG new 10-ton manure spreader. Built to save you time.
Everything about this new heavyweight is built for long, trouble-free service. The extra heavy-duty conveyor chain is backed by a 2-year warranty. The spreader itself is backed by New Idea's Full Year Factory Warranty, plus their famous Warranty on Wood. And, it not only has a Belleville spring-type slip clutch that protects the power train — it also features an exclusive "Conveyor Overload Protection System." Available in single or double beater models, with optional hydraulic endgate or pan attachment for handling sloppy manure.
Stop in and inspect New Idea's 10-ton spreader. Maybe now's the time to trade up to a bigger spreader. So you'll spread less often this year.

New Idea's Manure Spreaders

Upper cylinder optional on any new New Idea Single Beater Spreader.



Levels load... improves spread pattern.

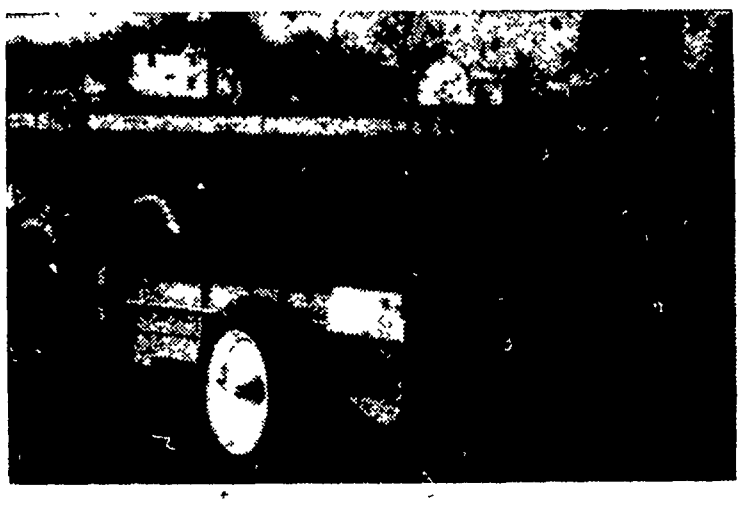
Thinking of a new spreader? Think about a New Idea Single Beater. With an optional upper cylinder, it's the very last word in leveling out heaped loads and gives you a better spread pattern. Available on any of the 5 sizes of New Idea Single Beaters—from 116 to 318 bushels. You can use the optional hydraulic endgate with the upper cylinder in place!

Come take a look.

AVCO NEW IDEA
75 YEARS SERVICE TO AGRICULTURE

We make your job a little easier.

New Idea's Manure Spreaders



Three easy ways to handle sloppy manure

Hydraulic Endgate. Fingertip control, uses standard 8" single or double acting cylinder. Hand crank available. Fits all New Idea PTO spreaders.

Pan Attachment. Fits any New Idea Single Beater spreader. Lowest cost way to handle semi-liquid manure.

Mechanical Endgate. Fits any New Idea Cylinder/Paddle or Flail spreader. Closes with hand crank, opens from tractor seat. Fits snug for loading and hauling.

All New Idea Spreaders are backed by the famous Warranty on Wood in addition to a Full Year Warranty.

PRE-SEASON SPECIALS

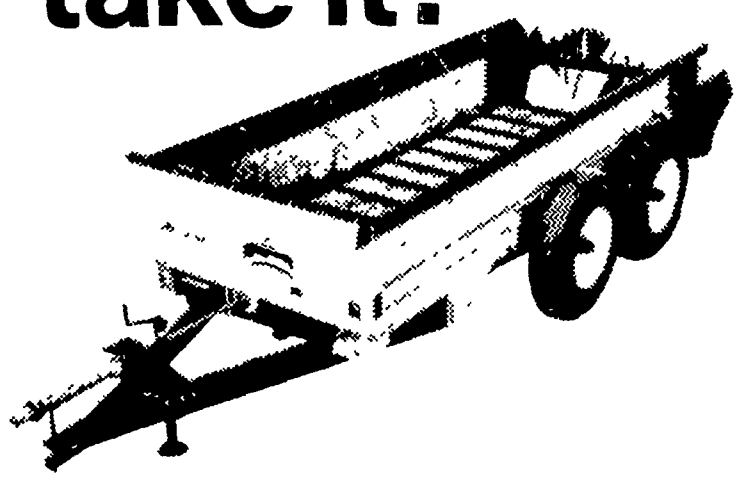
Take early delivery on an Avco New Idea Manure Spreader.

NO INTEREST OR FINANCE CHARGES UNTIL NOV. 1, 1976.

Terms Available.

New Idea's Manure Spreaders

Wood can take it!



That's why they use Penta treated clear yellow pine in every New Idea Spreader box.

Every New Idea spreader in the line has wood sides, bottom and end . . . because wood can take it. Wood battles against damage. Wood won't bend, can't rust . . . and fights corrosive acids better than any other spreader box material.
Warranty On Wood That's why only New Idea says, "In the unlikely event that any of the wood components in your New Idea Manure Spreader rot through, Avco New Idea will make replacement, no charge. Replacement will be made without cost to you, the original purchaser, at your nearby New Idea dealer . . . no charge for wood, no charge for labor or freight."

SEE DEALERS ON OPPOSITE PAGE.

Take them from 50 to 125 lbs. in a hurry ? with WAYNE Gro-Pork 280

To convert feed to pork efficiently, make sure your hogs have the right balance of proteins (amino acids), energy; vitamins and minerals.

Wayne Gro-Pork 280 is a 16% complete feed, that not only supplies this balance, but takes your hogs from 50 to 125 lbs. in a hurry. And besides promoting exceptionally fast growth, Gro-Pork 280 hogs are husky and meaty.

Use complete Wayne Gro-Pork 280 for:

- **better feed efficiency**
- **better performance**
- **better convenience**
- **better profits**

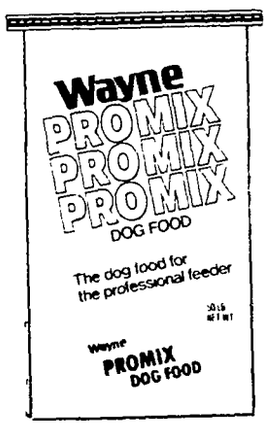
Isn't that what converting feed to pork is all about?

WAYNE FEEDS
WAYNE ANIMAL HEALTH AIDS

Hay or pasture can't go it alone. Wayne Front Runner Horse Krunch is the total balancer, high in taste appeal. This feed adds the extra energy that your horses don't get from hay or pasture alone. It's a clean, easy-to-handle feed. The grains are crimped or cracked.

Front Runner furnishes ample vitamins, minerals and protein. Pure cane molasses provide flavor that horses love.

WAYNE PRO–MIX



New, economical Wayne Pro-Mix fed wet or dry, provides complete and balanced nutrition for your dog.

The WAYNE Better-Bilt Gilt

Your decision to upgrade the gilts in your hog operation is a sound investment in maximizing your profitability.

- top quality
- genetically superior
- scientifically bred
- strict health standards
- higher conception
- large litters
- maximum performance & profit

The heritage of Wayne Better-Bilt Gilts is that of the finest purebred stock from some of the top foundation breeding herds in the country.

Animals selected must meet established standards of performance and confirmation to qualify as Better-Bilt Gilts. Selection criteria are health, growth rate, litter size, muscling, soundness of feet and legs, roominess, underline and mothering ability.

Ask the Wayne Feeds dealers listed below about the advantages of the Wayne Better-Bilt Gilt program:

Wayne D-Odor #II
Liquid Waste Control

Wayne D-Odor II contains high grade bacteria in a high concentration to

- remove odors
- digest and liquefy solids
- reduce BOD (Biochemical Oxygen Demand)

The organisms used in compounding Wayne D-Odor II are harmless to all living things — cannot harm humans, livestock or poultry. Safe to use anywhere — ponds, lagoons, even hog, cattle and poultry manure pits.

Wayne D-Odor II — at your Wayne Feed dealer's.

Tobacco compared to milk

ROSEMONT, Ill. - Scientists at the university of Maryland are extracting high-grade protein from tobacco leaves, according to a news dispatch from the Washington Post that circulated to other papers across the nation on Oct. 12. "It's as good for you as milk," Dr. Martin Schwartz, the university's Dean of Science, was quoted as saying. Called Fraction-1-Protein, the tiny, white protein crystals from the tobacco are tasteless and odorless, "stable, easy to store and (are) so-constructed that (they) can be manufactured in a gel-like form that looks much like soybean curd, a staple food in many countries.

Fraction-1-Protein, as it occurs in raw tobacco, would be hazardous if smoked. "When you burn it, it gives off products like cyanide and nitrogen that are not good for you," said Dr. T.C. Tso of USDA's Beltsville Research Center in the article. But as a product to eat, Dr. Tso said: "Its nutritional value is comparable to milk and surpasses that of soybeans."

The protein exists in all green plants but can only be extracted easily from tobacco. However, normal methods of tobacco curing destroy the protein. Thus, Dr. Tso has been working on a process known as "Homogenized Leaf Curing." In this process the tobacco leaf is chopped up and suspended in a liquid solution rather than being hung up to dry to cure. Removal of the protein crystals then is similar to the way sugar is crystallized from sugar cane and sugar beets.

Since the remaining material can be reconstituted for smoking or chewing tobacco, one wonders if this development may drastically change the economics of the tobacco industry, and have an effect on the food industry as well.

Safer spraying taught

UNIVERSITY PARK, Pa. - Over six thousand Pennsylvanians have been certified to use restricted-use pesticides through a correspondence course developed by Penn State's College of Agriculture. It is estimated by Dr. Fred C. Snyder, director of correspondence courses at the University, that over 25,000 pesticide applicators in the state remain to be certified. The certification deadline is October 1977.

The course, Pest Management and Environmental Quality, is designed to assist individuals in preparing for certification as private or commercial applicators of pesticides. It provides basic information on management of common insects or mites, weed control and herbicides, plant disease control, pesticide labeling, safety, etc.

Examinations for Pennsylvanians are administered through the State Department of Agriculture who estimate that only .031 per cent of those taking the exam have failed, attesting to the thoroughness of information presented in the course and specific category from county Extension agents.

Commercial applicators must also be certified. Information for certification study includes the correspondence course and category packets, covering such areas as fruit growing; plant, animal and aquatic pest control; forest pest control; public health pests; seed treatment; etc.

To order a copy of the course, write Pest Management, Box 5000, University Park, Pa. 16802. Make your check for $6.00 payable to Penn State. An application blank for education material packets is also available by writing to the same address.

Lamb Club meets

YORK, Pa. - The York County 4-H Lamb Club held their annual Halloween Party earlier this month at the home of Laurie and Lisa Dobrosky. That evening the election of club officers was held.

The new officers are as follows: Chris Waltersdorff, president; Charla Janney, vice-president; Lisa Dobrosky, secretary; Deb Lau, assistant secretary; Laurie Dobrosky, treasurer; Judy Waltersdorff, news reporter; Nancy Eisenhart, assistant news reporter; Linda Waltersdorff, assistant treasurer.

After the meeting, a hayride and hotdog roast was held.

Livestock association dinner set for middle of Expo event

HARRISBURG - The Pennsylvania Livestock Association will hold its annual banquet and meeting on Tuesday, Nov. 9, at the Host Inn, here. It is billed as one of the highlights of the Keystone International Livestock Exposition which gets underway here next Saturday at the Farm Show Complex, and lasts through the following Friday.

Featured at the livestock banquet will be an awards program and various presentations by agribusiness officials and outstanding farm youths.

This year's featured speaker is John Chohlis, manager of cattle chows marketing, sales promotion and public relations, Ralston Purina Co., St. Louis, Missouri. He has a masters in animal husbandry, has managed a feedlot, been a range conservationist for the U. S. Soil Conservation Service, an editor for a livestock journal, a manager for a ranching investment service, manager of a Cattlemen's Exposition and a student of the livestock industry in Hawaii, New Zealand, Australia, South America, Europe and Africa - before he affiliated with Ralston Purina.

His presentation will be "The Growing Power of American Agriculture" - a dynamic investigation of protein in the diet and the importance of meat.

Other features of the program will be recognition for the outstanding FFA and 4-H youths of Pennsylvania as well as the "Livestock Man of the Year".

Markets available from toll-free number

HARRISBURG, Pa. - Raymond J. Kerstetter, Secretary of the Pennsylvania Department of Agriculture, announced this week that the Department's Livestock Market News Service has been expanded to include a toll-free telephone number. Now, any individual, newspaper, radio or television station can use the service. The toll-free number is 800-692-7253.

In announcing the new telephone number and service, Kerstetter noted that the Livestock Market News Service has provided 24-hour-a-day market information by recorded phone messages for the past two years.

The toll-free telephone has been installed in order to increase availability of this valuable information to the public, and to eliminate the delay in mailed reports.

Information included in the service throughout the week includes: the Pennsylvania Grain and Hay Report; Western Hog and Cattle Markets; futures market for choice steers and hogs; daily Pennsylvania Livestock Auction Summary; individual auction reports; and the Pennsylvania Weekly Livestock Summary (from 4:30 p.m. Friday until 10:30 a.m. Monday).

RURAL PENNSYLVANIA NEEDS

CARTER MONDALE - GREEN

Jimmy Carter's Career is varied: farmer, businessman, nuclear engineer, U.S. Naval Academy graduate, planner, student of International Affairs and Former governor. A fine family man, his principal recreation is field sports. An avid hunter. He is the owner of a fine gun collection. His position AGAINST gun control is well known.

Jimmy Carter is a rural American. He understands the problems of rural America. He is committed to a reduction in inflationary costs, high interest rates, and high energy costs. Jimmy Carter believes that he can solve these problems because he has faith in you. Have faith in Jimmy! Help him to help you.

EIGHT YEARS OF INSTABILITY!

Ford promises stability in government. But during the last eight years we have seen a President and Vice-President forced to resign, 1 appointed President, 2 appointed Vice Presidents; 6 Attorney Generals, 5 Secretaries of Commerce, 4 Secretaries of Defense; 4 Secretaries of Treasury, 5 Secretaries of Labor; 4 Secretaries of Health, Education & Welfare, 4 Secretaries of Interior, 3 Secretaries of Agriculture, 3 Secretaries of HUD, 4 CIA Directors; 3 FBI Chiefs; 4 Directors of OMB and 4 Directors of Energy Policy - more than a total of 55 major changes. Had enough!

An FTC study estimates consumers have been overcharged more than $2 billion in 13 food lines This reflects how the Nixon-Ford-Butz team allowed corporate control of our food system. At the same time, John Heinz had his subcommittee study how to weaken the Capper-Volstead Act, which would strengthen corporate agri-business and destroy cooperatives.

When Bill Green gets to the United States Senate, he will seek a seat on the Senate Agriculture Committee where he will demand a fair share for Pennsylvania.

LANCASTER COUNTY COMMITTEE

Two at Sperry NH receive worldwide responsibilities

Jacob W. Wittmer

NEW HOLLAND, Pa. - William A. Kimball, 35 N. Plum St., and Jacob W. Wittmer, 1843 Northbrook Drive, both of Lancaster, have been named to new positions at Sperry New Holland effective November 1, it was announced by H. K. Luttringer, vice president for worldwide marketing and communications.

Kimball, presently marketing services research analyst, will become service parts marketing manager.

Wittmer, currently employee communications and community relations manager for North America, will become communications manager with worldwide responsibility.

Kimball is a native of Warren, Ohio, and a graduate of the University of Chicago with a degree in business administration.

Wittmer joined Sperry New Holland in 1959 as editor of the company's employee magazine and was named to his present position in 1965. A former head of the American Association of Industrial

William Kimball

Editors, he is executive vice president of the International Association of Business Communicators and will succeed to the presidency of that organization next year. He is a member of the Delaware Valley Association of Communicators.

Use a long, sharp knife in cutting cake. If cake is frosted, rinse knife in hot water before using.

xxx

Timbuktu, Mali's most famous city, is now a faded symbol of lost prosperity. Today the golden city of the 14th century, built at the edge of the Sahara on the northern bend of the Niger River, is a dusty town of 15,000 inhabitants and 20th century Malians are struggling to survive the ravages of drought, illiterancy, poverty and hunger. CARE, the international aid agency, is helping through a variety of food-for-work projects including construction of schools and irrigation systems.

xxx

Keep cake pans bright and shining. Dark, dull pans may cause cake to brown unevenly and too fast. Use steel wool to keep them bright.

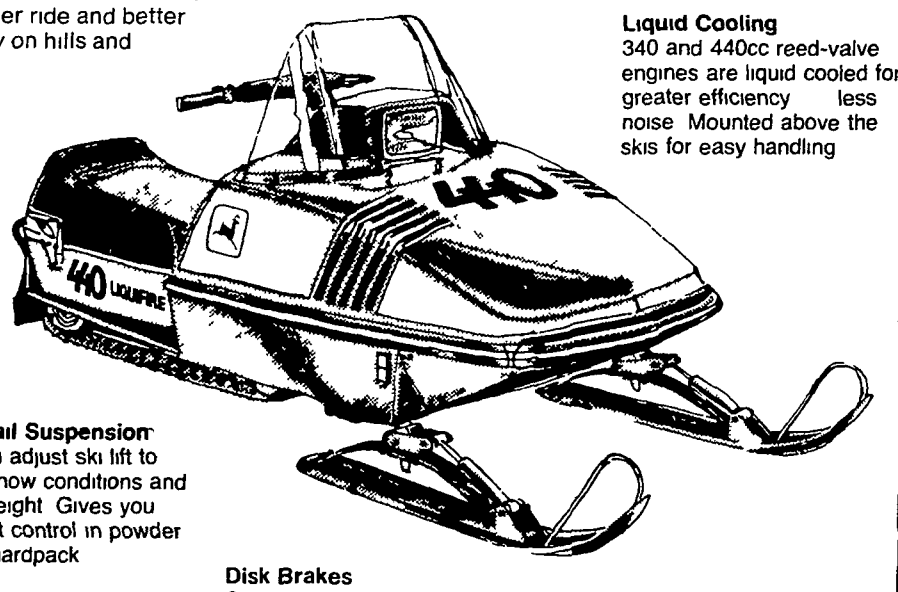
LIQUIFIRE® COOLS IT!

Liquid cooling takes the heat off high-performance snowmobiling

CD Ignition and Surface-Gap Spark Plugs
CD ignition packs a hotter spark for sure-fire starts Surface gap plugs work in cold or warm weather

72-Inch Wheelbase
The suspension system is set back in the tunnel for a smoother ride and better stability on hills and curves



Liquid Cooling
340 and 440cc reed-valve engines are liquid cooled for greater efficiency less noise Mounted above the skis for easy handling

Slide Rail Suspension
Lets you adjust ski lift to match snow conditions and driver weight Gives you excellent control in powder on hardpack

Disk Brakes
Grip tight on steep inclines Provide fast, fade-free stopping with less chance of heat buildup

Wide 32-Inch Ski Stance
Provides an extra measure of stability Reduces swaying on hills and switchbacks

Turn on the performance, hold down the heat John Deere Liquifire with liquid cooling improves efficiency by reducing heat buildup The water jacket on the engine muffles noise levels, too But Liquifire has **more** in it for you than just liquid cooling

There's **more comfort** because you ride on an energy-absorbing seat that's padded with two layers of polyurethane **More control** because Liquifire is "human engineered" with handgrips, throttle, and brake lever within easy reach **More performance** because 340 and 440cc engines have dual Mikuni carburetors, one for each cylinder, for maximum power *Combine all these features with those shown above, and you've got quite a machine The liquid-cooled Liquifire from John Deere*

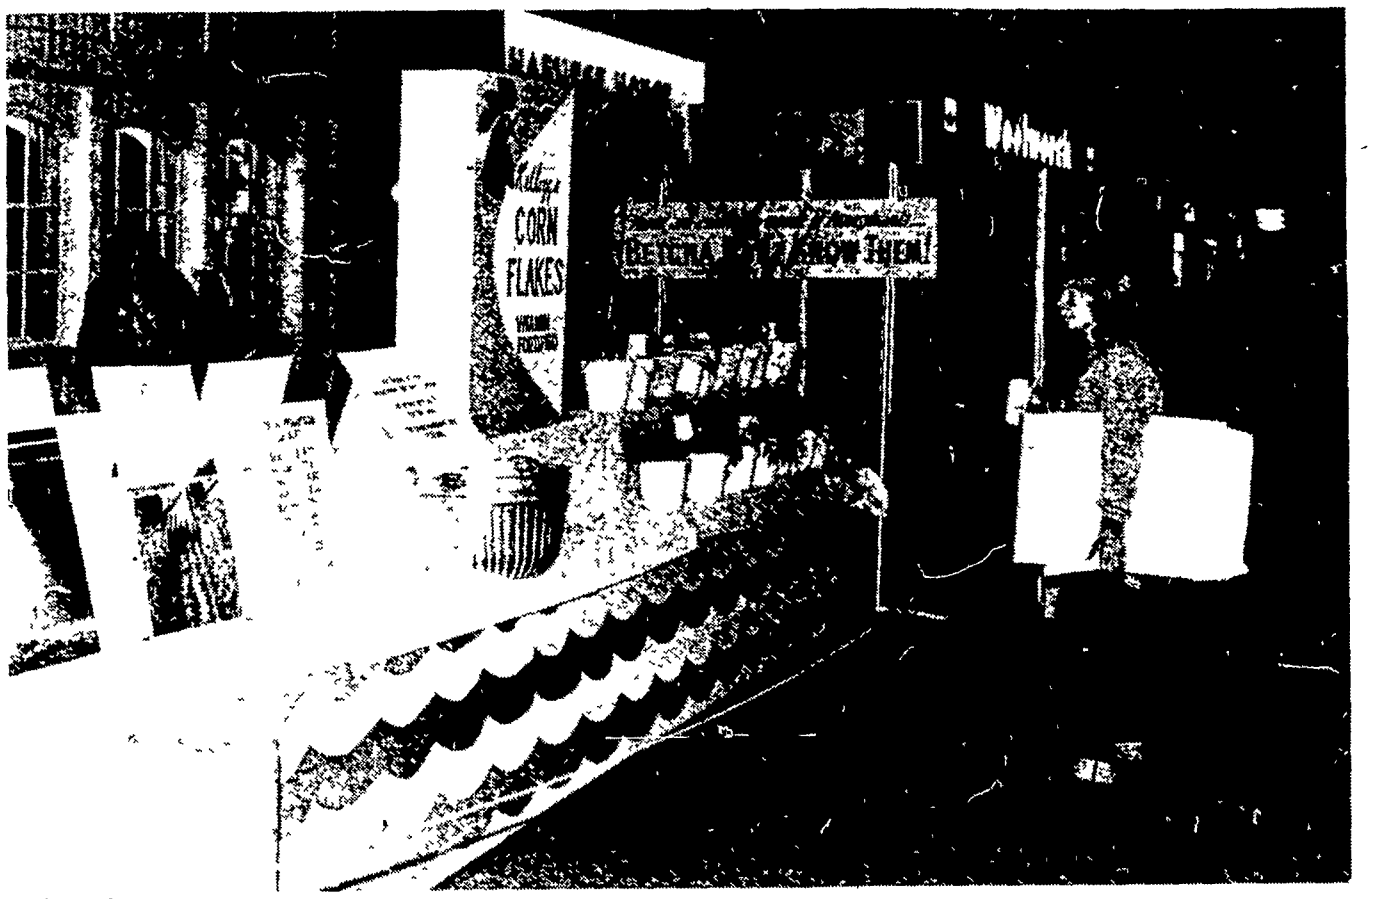
Agriculture promoted at Park City



Weeds, grain, and pictures of cultivating methods were a part of the farmers' display at Park City last week

Lancaster County's dairy princess, Debra Kreider, was active at promoting milk and agriculture in general.

"The Old Sheriff," Bobby Montgomery, radio personality with WGCB FM, broadcast his show from inside an International Harvester 186 for two days of the farm promotion at the Park City shopping mall.

Pa. grain stocks down

HARRISBURG, Pa. - Stocks of wheat, corn, barley and oats stored in Pennsylvania on Oct. 1 were 17 per cent below a year ago according to the Crop Reporting Service. Of a total near 35.8 million bushels, farm stocks of 26.1 million bushels were down 19 per cent while off-farm holdings of 9.6 million were 11 per cent below October 1, 1975.

Wheat stocks of 8.6 million bushels were one-fourth below a year ago. Off-farm stocks of 5.8 million were down 23 per cent while farm stocks at 2.8 million were down 27 per cent.

Total corn in storage of 8.3 million bushels was also nearly one-fourth below 1975. Although off-farm stocks of 2.1 million were up by nearly three-quarters this was more than offset by a one-third drop in farm holdings to 6.2 million bushels.

Barley holdings of 3.7 million bushels were 29 per cent below last October 1. Off-farm stocks were off nearly one-half to 438,000 bushels, while farm holdings fell 26 per cent ot 3.2 million bushels.

Oats in storage at 15.2 million showed the smallest change from last year at only one per cent down. Off-farm holdings of 1.3 million bushels were up eight per cent while farm stocks fell two per cent to 13.9 million bushels.

Total rye stocks of 254,000 bushels were 14 per cent lower than last year.

Nationally, stocks of the four feed grains (corn, oats, barley and sorghum) totaled 27 million metric tons, almost two per cent more than the stocks on hand October 1, 1975. Increases from a year earlier by commodity were 11 per cent for corn, two per cent for barley and 51 per cent for sorghum. Oats stocks declined 13 per cent from a year earlier.

Stocks of all wheat were up 14 per cent from a year earlier while durum stocks jumped 33 per cent. Rye stocks were two per cent below Oct. 1, 1975, and flaxseed stocks were down 34 per cent.

Old crop corn stored in all posititons on Oct. 1 totaled 399 million bushels, 11 per cent more than a year earlier. Corn stored on farms at 230 million bushels was up 20 per cent from last year. Stocks in off-farm facilities were up one per cent from last year.

Oats in storage Oct. 1, 1976 totaled nearly 543 million bushels, 13 per cent less than a year earlier and the lowest for the date since records were started in 1943.

Barley stored in all positions on Oct. 1 totaled 351 million bushels, two per cent above a year earlier. All wheat in storage totaled 2,163 million bushels, 14 per cent more than last year and 38 per cent greater than Oct. 1, 1974.

Rye stocks in all positions on Oct. 1 totaled 15.4 million bushels, two per cent less than last year and 26 per cent lower than 1974.

State park cabin applications taken

HARRISBURG, Pa. - The Department of Environmental Resources this month issued a reminder that applications for the use of a state park cabin during the Spring rental season will be accepted from November 1 through December 15.

The Spring rental season begins with the second Friday in April and ends on the first Saturday following Memorial Day. The rental period is from Monday to Monday or from Friday to Friday.

Reservations will be awarded by lottery shortly after the close of the acceptance date and successful applicants will be notified by a confirmation letter. Unsuccessful applicants will also be notified.

While applications may be submitted by out-of-state residents, the Department noted, Pennsylvania residents are given preference in reserving cabins for the Spring and Fall rental seasons.

There are available 146 family cabins at 11 state parks as follows: Black Moshannon, Philipsburg R1, 13 cabins; Clear Creek, Sigel R1, 22 cabins; Cook Forest, Box 120, Cooksburg, 23 cabins; Cowans Gap, Fort Loudon, 10 cabins; Kooser, Somerset R6, nine cabins.

Also, Linn Run, Box 527, Ligonier, 10 cabins; Parker Dam, Penfield, R.D., 16 cabins; Promised Land, Greentown R1, 12 cabins; Ralph Stover, Point Pleasant, six cabins; S.B. Elliott, Penfield R.D., six cabins; and Worlds End, Forksville, 19 cabins.

Dairy trophies honoring Maryland natives awarded

COLLEGE PARK, Md. - Two new perpetual award plaques honoring nationally prominent Maryland leaders on the rural youth and dairy cattle scene who died during 1976 have recently been awarded for the first time.

They are the J. Homer Remsberg memorial trophy and the Mylo S. Downey memorial award. Both men were College of Agriculture graduates from the University of Maryland at College Park.

First winner of the Remsberg trophy is Rebecca Stiles, 16, of Littlestown, Pa., a resident of Carroll county, Md. Her three-year-old Jersey cow, Stilesrite Merry Stranger, was named supreme champion over all breeds in the 4-H and FFA dairy show at this year's Maryland State Fair in Timonium.

Appropriately, the first winner of the Downey award is the Maryland team which won the national 4-H dairy cattle judging contest on Oct. 4 during the North American Dairy Show at Columbus, Ohio.

The plaque honors Mylo S. Downey, a former resident of the Calvert Hills area in College Park, who died after a lengthy illness.

The plaque honoring him was funded by memorial bequests from former professional associates, including persons currently working for the National 4-H Service Committee in Chicago, Ill., the National 4-H Foundation in Chevy Chase, Md., and the Extension Service of the U.S., Department of Agriculture in Washington, D.C.

It is to be awarded annually "to the (land-grant) university whose 4-H team ranks highest in judging all breeds of dairy cattle at the national 4-H dairy cattle judging contest."

The Remsberg memorial trophy is named for the late J. Homer Remsberg, fifth-generation owner of Locvale Farms near Middletown.

Remsberg served 15 years as president of the Maryland Holstein-Friesian Association and two years as national president of the Holstein-Friesian Association of America.

Other presidency terms included the Federal Farm Credit Board, Farm Credit Banks of Baltimore, Purebred Dairy Cattle Association of America, the Atlantic Dairy Association, the Northeastern Dairy Conference, the Dairy Council of Greater Metropolitan Washington, and the Maryland and Virginia Milk Producers Association, Inc.

Energy savings possible by poultry and egg firms

WASHINGTON, Pa. - In 1974, the poultry industry used more than 146 trillion Btu's, costing almost $550 million, according to a report released recently by the U.S. Department of Agriculture's Economic Research Service. Although energy for producing and marketing poultry products is being used a little more efficiently than during the midsixties, the report finds that the potential for further savings is substantial with wider use of existing energy-conserving practices.

Energy used in poultry and egg production cost nearly $126 million in 1974. Brooding required about 70 per cent of this amount, waste handling and operating feeders nearly 20 per cent, and lighting and ventilating over 10 per cent. Individual producers may be able to lower their consumption 20 to 50 per cent with such practices as using partial house brooding, installing winterized side curtains, reducing light intensity and lighting schedules, using intermittent feeding and lighting, improving maintenance practices, and using more energy-efficient equipment.

Marketers may also be able to reduce energy use through improved equipment and management practices. About $421 million was spent on energy used in marketing poultry products in 1974. Processing and packing accounted for the largest share of the cost, and retailing, long-distance transportation, wholesaling, assembly, and further processing and delivery accounted for the balance.

The USDA report notes that use of alternative forms of energy, modification of present practices, and research in areas such as rail and combined-mode transportation, simplified packaging, irradiation preservation, decentralized distribution, onsite power generation, and energy parks offer potential for reducing energy use in the future.

A copy of "Energy Use and Conservation in the Poultry and Egg Industry," AER-354, is available free on postcard request (please include your zipcode) from Publications Services, Economic Research Service, U.S. Department of Agriculture, Room 0054-South Building, Washington, D.C. 20250, or by telephone request (202-447-7255).

Grading fees raised

NEW YORK, N.Y. - The U. S. Department of Agriculture announced a new schedule of fees for the voluntary Federal meat grading service based on current cost of performing the work.

The Agricultural Marketing Act of 1946 requires collection of fees approximately equal to the cost of the service rendered. Therefore, effective Oct. 24, the fee will be $17 per hour for work performed between 6 a.m. and 6 p.m. Monday through Friday; $20 per hour for work on Saturday and Sunday and between 6 p.m. and 6 a.m. Monday through Friday; and $34 per hour for work on national holidays. The current fees, respectively, are $16.20 per hour, $19.20 per hour, and $32.40 per hour.

According to USDA's Agricultural Marketing Service (AMS), which administers the grading service, the changes are necessary to reflect salary increases effective Oct. 10 and significant increases in associated costs of providing and administering the program.

Also effective Oct. 24, per diem charges to meat grading applicants will be increased from $33 per day to $35 per day and mileage charges increased from 13 cents per mile to 14 cents per mile. These changes are needed to offset increased per diem and mileage rates paid to Federal employees effective Oct. 3, under Public Law 94-22.

Regulations governing the meat grading service are being amended to provide for the new hourly fees. The amendment was published in the Federal Register Oct. 14.

Only 6.5 per cent of farmers are certified

UNIVERSITY PARK, Pa. - In spite of the concentrated efforts to alert farmers and commercial operators who will need a State Certificate for use of restricted pesticides during the winter of 1975-76, there is a severe lag in interest, training and testing, according to the Extension Service.

In Lehigh County, for example, 104 have passed the private certificate exam and 55 have passed the commercial exam.

In Northampton County 53 have passed the private certification exam and 32 passed the commercial exam.

On a state-wide basis, only 4,736 have passed the private certification and 2,295 the commercial exam. In the State Crop and Livestock Report, the estimated total farms listed are 73,000. Only 6.5 per cent of the farms presently have certification.

Farmers can enroll, use the lesson material and take the exams in the privacy of their homes. Application forms are available from the Cooperative Extension Office.

Chianina win in national shows

YORK, Pa. - This year as last year, Chianina crossbred steers are taking the Midwest show circuit by storm. Last year alone, Chianina steers captured championships at five of the nation's top seven steer shows. At the Eastern National, the Grand Champion and Reserve Grand Champion steers on hoof, both Chianina, had yield grades of 1.4 and 2.4 respectively and both graded choice. At the 1975 American Royal, Chianina steers took overall Grand Champion, Reserve Champion in the 4-H division, and Reserve Champion crossbred of the FFA division. The 1974 American Royal Reserve Grand Champion on foot was also Reserve Champion Carcass and was Chianina. And, the 1976 National Western Champion, which graded choice and had a yield grade of 2.6, was a Chianina cross.

This year, the successes are just as impressive. At the Ohio State Fair, Judge Herman Purdy from Alexandria, Pa., chose a black Chianina brought to the Buckeye State's show by Kent Kuck, Brookville, Ohio. Tipping the scales at 1180, the halfblood eclipsed all records previously set for a champion steer when it brought $27 per pound for a total of $31,860. Kuck immediately donated $1000 to the Ohio 4-H fund. The bidder who purchased the animal was Wendy's Franchises International of Columbus, Ohio, who had also won the bidding last year thje fair when they paid $23 per pound for the champion at a total of $26,680.

The first big win of the season for Chianina breeders, however, came with the Missouri State Fair Junior Show competition where a Chianina X Angus-Hereford steer took the Reserve 4-H and Reserve Grand Champions of the show. That calf sold for 80 cents a pound or $980.

The Chianina momentum really got into full swing at the Iowa State Fair in Des Moines, Iowa. A probable record number of steers, 826, was paraded before the junior show steer judge with the ultimate winner of the championship going to a quarter blood Chianina. Sired by a Chianina X Angus bull and out of an Angus cow, the 1180 pound calf brought $3.25 per pound. This animal produced a yield grade 1 carcass with a rib-eye measuring 16.5 inches with only .4 of an inch of fat cover. The quality grade was average choice.

The Reserve Champion at that show was a Chianina X Angus steer which also was the Reserve Champion of the Iowa show's World Steer Show.

The Indiana State Fair, Indianapolis, Indiana, was another success for Chianina animals, for both overall champions were of this breed. This makes the second consecutive year that Chianina have captured the Indiana State Fair open steer show.

Chianina animals, known as the largest breed of cattle in the world, originated in Italy and are probably one of the oldest breed of cattle as well, dating back before the Roman Empire. Only recently, in 1971, has Chianina semen been introduced to American breeding stock. In 1972, the first half Chianina was born on U. S. soil, and, now, to date, quarter blood and half blood calves have been born to virtually every breed of cattle in the U.S.

One of the biggest selling points for the Chianina cattle is that they afford more potential for growth in one Cross than can be acquired with conventional cattle in a lifetime, and because of a unique cylindrical shape of Chianina calves with long, flat muscle, slim heads, and torsos with fine shoulders and hips, the calves pass easily through the pelvic canal at birth. So, there are very few calving problems.

Kent Kuck, Brookville, Ohio, can't suppress the excitement of having the grand champion steer of the Ohio State Fair. The steer sold for a record price of $31,860 and was a Chianina half blood.

Junior Grangers cited

SHARON, Pa. - More than 200 junior Grangers, whose ages range from five to 14 years, attended the first Junior Day at a Pennsylvania State Grange convention Monday. A ritual team of young people from Mercer County exemplified the junior degree.

Mrs. Annetta Merkel, Kutztown R3, Berks County, State Junior Grange director, announced that Pleasant Hill Junior Grange of Cambria County had won the Junior Community Service Award, with second and third places going to Kutztown Junior Grange of Berks County and Mill Run Junior Grange of Fayette County. Bernville Junior Grange of Berks County was selected as the winner of the Junior Achievement Award. The Pleasant Hill and Bernville entries will be eligible for judging in the National Grange contest next month.

Mrs. James R. Ross, Ohio Junior Grange director, commended the Pennsylvania group for its wide range of programs, and as "a very active state group."

More than 2,000 persons attended the four-day session which closed Thursday.

New butterfat record set

BRATTLEBORO, Vt. - A new national butterfat production record has been established for registered Holstein-Friesian cows.

Breezewood Patsy Bar Pontiac, 6174402, produced 2,230 pounds of butterfat and 47,500 pounds of 4.7 per cent milk in 365 days, milked twice a day. Proud owners of this outstanding cow are the Gelbke brothers, Henry and Herman, of Vienna, Ohio.

"Pontiac" not only set a new record but had to break her old record to do it. She was the national milk and fat record holder in May, 1974, and has been the top butterfat producer since then.

Officially, "Pontiac's" record stands at 41,420 pounds of milk, 4.6 percent butterfat, 1,905 pounds of butterfat in 305 days; 47,500 pounds of milk, 4.8 percent butterfat and 2,230 pounds of fat in 365 days, twice daily milking. This record was started at 10 years, 10 months of age. Her lifetime production total for 2,949 days is 251,729 pounds of 4.5 per cent milk and 11,222 pounds of butterfat.

During this record-breaking lactation, "Pontiac" was surprise-tested five times in addition to her regular monthly tests. Her last test for the 365-day record showed she was milking 93.3 pounds of milk testing 5.9 per cent butterfat.

"Pontiac" is classified Excellent 93-3E. She is sired by Zeldenrust Royal Pontiac, 1397752, EX-90 and a Silver Medal bull for type. "Pontiac's" dam, Breezewood Champion Barbara, 4291697, GP-83, is also one of the top-producing cows of all times. She was second on the National Leaders List for butterfat for senior three-year-olds milked twice a day and one of very few cows to produce six records over 1,000 pounds of butterfat. "Pontiac's" maternal grandam, Princess Breezewood R A Patsy, 3816059, VG-85, was also a national fat leader but was replaced by her granddaughter "Pontiac."

Breezewood Patsy Bar Pontiac has four classified daughters scored at 88 points, 79 points and two at 86 points. All produce high-testing milk like thier dam. One daughter, "Milly", just completed a junior three-year-old record which ranks her third for fat in the nation.

With this record-breaking lactation, "Pontiac" takes over several positions on the National Production Leaders list. She has the first three places for butterfat in the mature cow, 2X division, both 305 days and 365 days; she takes the third and fourth places for milk in the mature cow, 2X division; both 305 and 365 days; she becomes one of 30 cows with five lactations over 1,000 pounds of butterfat and she becomes one of 19 cows with three lactations over 30,000 pounds of milk.

The Gelbke brothers are planning a party November 6, at their farm, to celebrate "Pontiac's" achievements.

Safety stressed

COLLEGE PARK, Md. - There's a new sign making its way onto farm machinery, and it's designed to call attention to dangerous areas. Officials at the Maryland Cooperative Extension Service, division of Farm and Home Safety, tell Lancaster Farming readers about the sign and its meaning:

The triangle with the exclamation mark in the center is the new Safety-Alert symbol for agricultural equipment developed by the American Society of Agricultural Engineers. This symbol will be used on all agricultural equipment to point out hazardous areas on the equipment - Attention! Become Alert! Your Safety is Involved.

The symbol will be used in conjunction with warning statements and signs, in instruction manuals, in connection with agricultural equipment safety standards, and on other communications which concern agricultural equipment safety. We added the Be Alert - Be Safe - Be Alive, slogan in hopes that when you see this symbol in the future you will recognize it and its importance.

Some of the women who gathered for the 10th anniversary of the Berks County Farm Women Group 7 were: (left to right) Mrs. Clarence A. Klahr, Bethel R1, county president in 1966; Mrs. Thomas Ebling, 503 Martin Ave., Reading, present county president; Mrs. Arthur Kissling, Bernville; Mrs. Francis J. Graeff, Sinking Spring R5; and Mrs. Wilbur M. Stricker, Robesonia R1, anniversary program chairlady.

Area farmers attend Agway annual meeting

SYRACUSE, N.Y. - Local farmers were among the 5000 persons who gathered in the Onondaga County War Memorial at Syracuse, N. Y. on October 28 - 29 for the 12th annual meeting of Agway, Inc.

Agway, Inc., a farm supply and food marketing cooperative owned by 118,000 stockholders, serves agriculture in 12 northeastern states. Its headquarters are in Syracuse.

Representing the Garden Spot Agway store at the two-day session were 45 farmers and their wives from the Lancaster area.

They heard reports on the past year's operation from Chairman of the Board George Steele of Pocopson, Pa., and General Manager Ronald N. Goddard.

One of the largest indoor farm shows in the Northeast occupied the entire lower level of the auditorium to show current developments in Agway products and services. Besides exhibition booths, several farm animals were on display, including "Dairmost Mirage," the grand champion Guernsey cow at the All-American Dairy Show at Harrisburg, Pa.

Agway members also elected six directors to the 18-member board of directors.

Guest speakers from two Agway affiliates discussed their operations, and mini-seminars were scheduled to provide the latest information in dairy feeding, farm financing, fertilization, and new Agway practices and products.

Farm Women celebrates anniversary

Berks County Farm Women Group 7 celebrated their 10th anniversary in the cafeteria of the Conrad Weiser Junior-Senior High School, Robesonia.

Mrs. Scot Rowe welcomed those in attendance and opened the meeting with a Bible reading.

Mrs. Wilbur Stricker, program chairlady, introduced "The Relatives" led by Mrs. Arthur Kissling of Bernville.

Mrs. Francis J. Graeff presented floral arrangements.

Attending the anniversary get-together were the following charter members: Mrs. Stricker, Mrs. Elias Manbeck, Mrs. Charles Kissling, Mrs. Richard Grajewski, and Mrs. Robert Manbeck.

Mrs. Clarence A. Klahr, county president in 1966, was introduced along with former county presidents Mrs. Joseph Bartholomew, Mrs. Roland Feeg, Mrs. Joseph Yanos, Mrs. Eliot Ziegler, Mrs. Daniel Harnish, Mrs. John Snyder, and Mrs. Thomas Ebling, the current county president.

Several county groups presented Group 7 with individual tokens made from tin in honor of their anniversary.

Mrs. George Seidel was recognized and thanked for her part in designing an album quilt which the group quilted this past spring.

The winner of the quilt was Mrs. Melvin Kissling of Bernville R1.

Also awarded were two pillows made by Mrs. Seidel and Mrs. Norman Bare. The winners were Irvin Evans, Robesonia, and Mrs. Kowalski, Wernersville.

Awards of centerpieces and door prizes were made and refreshments were served by the host group.

'Yes' vote urged to save rails

ANNAPOLIS, Md. - Voters in at least nine Maryland counties have their vital interests on the ballot in the form of Question 16 which would allow the state to step in and save nine rural rail lines.

The Maryland Agricultural Commission has unanimously gone on record urging all Marylanders to vote "Yes" on Question 16 which appears on the November 2nd ballot. The proposal would ammend the Maryland Constitution to allow the state to spend funds on railroad improvements.

But, as Commission Chairman William Kleinwachter of Preston says, "The question, as worded on the ballot, does not make it clear what is at stake. The legal wording refers to "internal improvements" and does not mention railroads.

"What is involved," Kleinwachter said, "is authority for the Maryland Department of Transportation to spend funds for desperately needed repair work on the nine rail lines involved. At present, the Maryland Constitution forbids the state or its agencies from spending money for such proposes.

"The lines, eight on the Eastern Shore and one that comes from the Pennsylvania State Line through Carroll County to Frederick, are presently so badly deteriorated that it is impossible to provide adequate service over them, much less think about providing more service.

"If they can not be quickly repaired they will die from not being able to do the amount of business needed to keep them viable. The state has contracted with the new Federal rail operation, Con-Rail, to operate them and to help subsidize the operation on a day to day basis, but no provision has yet been made to do vitally needed repair work. Con-Rail doesn't have the funds to do it and unless Question 16 is approved by Maryland voters, the state won't be able to do the repairs.

"The state money involved would not come from bonds but would come from the regular transportation trust fund which is administered by the Maryland Department of Transportation. The long range goal is to get the lines upgraded so that they can be operated at a profit and then turned over to solvent, private rail firms.

"Loss of these lines would pose a great threat to agriculture and many related agri-businesses in Frederick, Carroll, Kent, Queen Anne's, Caroline, Talbot, Dorchester, Wicomico and Worcester Counties which now depend on these lines for heavy movement of bulk goods such as fertilizer, feedstuffs, chemicals, equipment and packaging materials. There are other, non-agricultural businesses which now use these lines and would prefer to use them more if they can provide adequate service at reasonable speed. Condition of much of the trackage of these lines now is so poor that a bare minimum speed and service can be provided.

"It is a question of spending a reasonable amount of money now on the part of the state in a gamble to save a vital service that would cost much more through higher transportation costs, in the future to replace.

"Consumers have a stake also. Loss of agricultural production in the areas served by these lines, or high unit costs for food produced in these key Maryland agricultural counties brought on by higher transportation costs, will hurt everyone," Kleinwachter concluded.

NEW AND BETTER FEATURES ON THE 62 H.P. and 72 H.P. LEYLAND

New improved power take off, all new engine, many attractive features which will give far better service, and still an approximate 20 per cent less cost than other brand tractors of the same horse power rating.

Join the LEYLAND OWNERS who praise its economy and worth! Come talk Trade Today - Take 10 per cent Tax Credit, too!

Chester County Extension staffers attend PSU seminar

WEST CHESTER, Pa. - Virginia Bush, chairman of Home Economics Advisory Committee, and Katherine Smiley, member, Executive Board of Directors and Home Economics Advisory Committee, were among nearly 300 volunteer and professional leaders all across Pennsylvania who were invited guests of the Cooperative Extension Service of The Pennsylvania State University at "Seminar on The Family - 1976".

The conference, held at the University Park Campus of Penn State October 13 and 14, included leaders from the Cooperative Extension Service staff, civic groups and governmental agencies interested in improving the welfare of Pennsylvania families.

Katherine Smiley participated in a panel discussion on her function as an advisory committee member in "Designing Programs for the Future."

Trudy Dougherty, Chester County Extension home economist, presented a slide presentation on "Learning to Live With Inflation, It's Here to Stay." The slides described the many workshops, newsletters, and multi-county efforts to help families evaluate their financial security.

Featured speakers at the seminar included James M. Beattie, Dean of the College of Agriculture and director of the Cooperative Extension Service at Penn State; Thomas B. King, associate Extension director; Helen E. Bell, coordinator of Extension family living programs; Emory J. Brown, assistant director for Extension programming; Mary Allen Jolley, director of public affairs, American Home Economics Association; and Richard C. Hyde, senior vice president of Hill and Knowlton, Inc.

Cattlemen lock horns for unity

KANSAS CITY, Mo. - Preliminary plans for a consolidated new beef cattle organization were announced recently by the American National Cattlemen's Association and the National Livestock Feeders Association.

If the final plans are accepted by the boards and by the members of the two existing associations, the nation's beef cattle industry will have a single national spokesman - the National Cattlemen's Assn. (NCA) - of September, 1977.

Details on the proposed new trade association were released at a news conference held here by the presidents of ANCA and NLFA and the chairmen of a Joint Study Committee which was named early in 1976 to develop a plan of consolidation.

The news conference followed joint and separate ANCA and NLFA board meetings at which the details of the plan were presented and discussed. The directors of the two groups did not formally approve the preliminary consolidation plan at these meetings, but it appeared that reaction to the over-all proposal was generally favorable.

"If the ANCA and NLFA are consolidated into one new national trade association," the news announcement said, "the new commodity group will represent approximately 275,000 professional cattlemen in all segments and areas of the beef cattle industry - the largest single part of American agriculture. The beef cattle industry alone accounts for about one fifth of cash receipts from all farm marketings."

The ANCA has individual members plus 46 affiliated state cattle and 14 national breed associations. The group wa founded in 1898 with a largely western membership. Subsequent industry developments - including more cattle in other regions, development of a feeding industry, and integration of production and feeding - brought increases in membership; and ANCA now represents all parts of the industry nationally. The association has a headquarters office in Denver and a government affairs office in Washington, D.C.

The NLFA, formed in 1946, represents livestock producers and feeders in 20 states, with primary concentration in the north central region - an area which feeds 55 per cent of the fed cattle marketed annually in the U. S. and has one-third of the nation's beef cows. In addition to individual members, nine state organizations are affiliated with the Omaha-based association.

There is a slight overlapping among ANCA and NLFA state affiliates. The new group would have a total of 52 affiliated state associations as well as 14 national breed organizations.

The 10-man study committee recommended that, in the beginning, the NCA headquarters office be located in Denver. Offices also would be maintained in Omaha and Washington, D.C. These recommendations, the committee said, were made in recognition of existing facilities as well as extra expenditures and inconveniences if the present NLFA and ANCA headquarters offices were moved to a new location.

The president and first vice president of the new group would continue to be working cattlemen - elected from the membership and by the membership. The proposal also calls for continuation of the present executive vice presidents - two each from ANCA and NLFA - in vice presidential positions at the staff level.

The basic purposes of the new organization will be to represent and speak for all cattlemen nationally in public and economic affairs; to create and maintain the economic and political climate that will give individual members the opportunity to earn optimum returns on their investments within the free enterprise system; and to provide members with economic information and other services that can help improve their management decisions.

Berks ladies at seminar

LEESPORT, Pa. - Mrs. Gail Malsbury, Rehrersburg; Mrs. Helen Readinger, Fleetwood; Mrs. Helen Mengel, Kenhorst and Mrs. Fay B. Strickler, Reading, were among nearly 300 volunteer and professional leaders all across Pennsylvania who were invited guests of the Cooperative Extension Service of The Pennsylvania State University at "Seminar on The Family - 1976."

The conference, held at the University Park Campus of Penn State October 13 and 14, included leaders from the Cooperative Extension Service staff, civic groups and governmental agencies interested in improving the welfare of Pennsylvania families.

Mrs. Mary Rieck, Extension nutrition assistant, discussed 4-H Youth Development on Berks Cable TV.

Featured speakers at the seminar included James M. Beattie, Dean of the College of Agriculture and Director of the Cooperative Extension Service at Penn State; Thomas B. King, associate Extension Director; Helen E. Bell, coordinator of Extension family living programs; Emory J. Brown, assistant director for Extension programming; Mary Allen Jolley, director of public affairs, American Home Economics Association; and Richard C. Hyde, senior vice president of Hill and Knowlton, Inc.

Pennsylvania Governor Milton Shapp, seated center, signs a proclamation designating the week of November 1-7 as Pennsylvania Young Farmers Week. Seated with the Governor are PYF President Paul King, left, and James Waybright, PYF secretary. Standing are, left to right: Russell Weller, area consultant; Leroy Geeseman, Richard Hoppes, Myron Shuck, Caleb Williams, Terry Martin, Sr., George Musser, Stephen Martin, Nelson Stoltzfus, and James Fink, Penna. Dept. of Education.

A proclamation

Agriculture is a basic and vital part of the economy of our Commonwealth. Capable and well-educated leadership, however, is needed to maintain and improve the efficiency of American agricultural production for the benefit of both producers and consumers

The Pennsylvania Young Farmers Association is organized through the Vocational Agricultrue Programs in public schools for the purpose of providing continued educational opportunities for young farm families and agriculturists.

The Pennsylvania Young Farmers Association enables young farm families and agriculturists throughout the State to associate together at frequent planned meetings, whereby they gain new ideas, create new friendships and acquire valuable experiences.

Therefore, I, Milton J. Shapp, Governor of the Commonwealth of Pennsylvania, do hereby proclaim the week of November 1-7, 1976, as PENNSYLVANIA YOUNG FARMERS WEEK in Pennsylvania, and urge all our citizens to assist in according this observance the attention and importance which it fully merits for its community, county and State-wide service.

Given under my hand and the Great Seal of the State, at the City of Harrisburg, this twenty-ninth day of September, in the year of our Lord one thousand nine hundred and seventy-six, and of the Commonwealth the two hundred first.

Milton J. Shapp
Governor

Kjelgaard of Penn State. This converter can be placed on top of nearly any piece of equipment. The liquid ammonia flows down the plastic tubes at zero pressure.

Linn Hoffman, manager of Penn State Rock Springs Research Farm, points out the Cold Flo Anhydrous Ammonia Converter recently developed by Professor Paul Anderson and Professor William

"Cold Flo" application demonstrated

COCHRANVILLE, Pa. - The "Cold-Flo" Ammonia Application System, a recently developed method of applying ammonia to the soil, was demonstrated last week at the Aaron Kauffman Farm, here, by the Organic Plant Food Company, Lancaster.

Using a recently developed Cold Flo Anhydrous Ammonia Converter developed by Professor Paul Anderson and Professor William Kjelgaard through a grant in aid to the Penn State University from U. S. Steel, liquid ammonia flows with zero pressure to the ground instead of being applied in a more volatile, gaseous state.

The advantages to this system are that the ammonia can be applied with a field cultivator or disc harrow, thus saving a trip across the field. And, there is a total savings of $3 to $4 per acre.

The system has been used extensively in the Mid-west and, recently, in Penn sylvania.

The process has patent pending by Penn State University and U.S.S. Agri-Chemicals, division of U.S. Steel Corporation.

For more information or the system, contact Organic Plant Food at 717-397-5152

DON'T FIGHT MASTITIS
PREVENT IT!

TEAT DIP

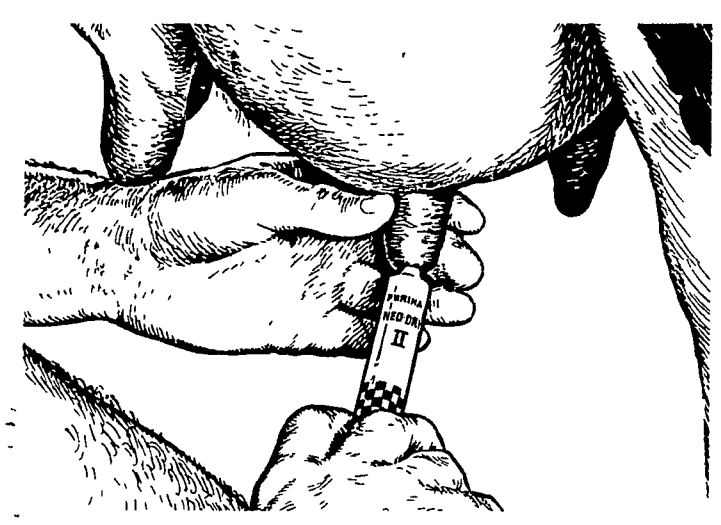
PURINA BOVADINE *

Ready-to-use "Tamed Iodine" teat dip. Use after every milking, it aids in reducing the spread of organisms which may cause mastitis before they enter the teat canal. In Pa. test herds, a good mastitis program including washing udders and using teat dip reduced mastitis cases to only 2-3 percent.

* Reg. Trademark of West Chemical Products, Inc.

TREATMENTS

NEO-DRY II (Dry Cows)
NOVO-MAST III (Lactating)



UDDER WASH

PURINA i-o DAIRY

A combination of detergents acid and iodine that cleans and sanitizes milking equipment and prevents build-up of milkstone. Also a non-irritating wash for flanks and udders with cold or lukewarm water.

PURINA HEALTH PRODUCTS

PURINA'S RULES FOR GOOD MILKING

1. Wash the udder with a warm sanitizing solution made with Purina i-O Dairy, then dry with a single service paper towel.
2. Take 2 or 3 streams from each quarter and examine for problems
3. Attach the teat cups when teats are full of milk.
4. Adjust teat cup during milking to insure that all quarters milk out properly.
5. Machine strip when milk flow slows to a minimum (strip quickly). IMPORTANT-DO NOT OVERMILK.
6. Dip teats in Purina Bovadine immediately after the teat cups are removed.
7. Treat all cases of clinical mastitis with Purina's Novo-Mast III. Follow label instructions.
8. Treat all quarters at drying off with Purina's Neo-Dry II. Follow label instructions.
9. Conduct cowside screening tests at least once a month. Record the results for future reference.
10. Have your milking machine service representative check your entire system at least twice a year.

PURINA'S MASTITIS PREVENTION PROGRAM IS APPROVED BY THE NATIONAL MASTITIS COUNCIL AND IS USED DAILY BY PURINA'S 1500 COW HERD AT ARKAVALLEY, ARKANSAS AND THE 140 COW RESEARCH HERD AT GRAY SUMMIT, MISSOURI.

Open house and auction held

MORGANTOWN, Pa. - The third annual auction sale and open house of the Conestoga Christian School will be held on Saturday November 6 starting at 9:30 a.m. on the school grounds. The school which has been a service to the surrounding communities for over 20 years is located one mile West of Morgantown on Route 23.

Everyone is welcome to come, see the facilities and meet the teachers and many dedicated patrons. Many food bargains will be available. Groups of mothers have made large quantities of pear butter, preserves and canned goods. There will be hundreds of tasty home-made breads, cakes, pies and cookies, and shoofly-pies. Quarters of beef will be sold and will come dressed and frozen at the choice of the buyer. All proceeds will go to the school.

One of the highlights of the sale is the quilt auction at 12:00 p.m. Grandmothers have been busy making a variety of quilts. Other church sewing groups are donating quilts and handiwork. One quilt of special interest is the "Red School House Quilt" quite appropriate to be sold at a school sale.

Pictured are award winners in the Berks County Conservation District's public speaking contest. Tim Struck, left, from Oley Valley High School, is the son of Mr. and Mrs. Raymond Strunk of Fleetwood, R2. On the right is Daryl Kunkel, of Kutztown Are High School, son of Mr. and Mrs. Kenneth Kunkel of Kutztown R2. Also awarded at the District's annual meeting on October 27 were George Carles and David Rudy who tied for first place in the land judging contest, and Harvey Bitler of Twin Valley, first place speaker in the public speaking contest.

Bicycles recycled as spinning wheels in Lesotho are a vital part of a CARE project in the tiny mountainous country in southern Africa. In addition to the spinning wheels, the international aid and development agency provides training and other needed equipment for village women to spin and refine mohair, their country's major natural resource. The sale of the mohair helps women support their families since most of the men leave Lesotho to work in the gold mines of South Africa.

NEPPCO board sets new priorities

FAIRLESS HILLS, Pa. - "To make NEPPCO the kind of organization that is needed here in the Northeast and to be able to offer our members the range of services they expect from it will require an annual budget of $100,000 or more. "That," reports President Dick Stark, "is the No. 1 priority and goal set by the board at its recent meeting in Philadelphia."

"We expect to achieve our goal within three years," Stark said. "Most, if not all, of the money must come from membership dues. Today, many members are receiving far more value from NEPPCO than they are paying in dues. We hope to encourage them to pay their full share. Also, we plan to recruit a large number of new members. There is no reason at all why any person or firm in the 14 Northeastern states with a commercial interest in the poultry industry should not be a dues paying member of NEPPCO. We plan to see to it that all these people are invited to join."

"NEPPCO has achieved some notable successes in recent years - particularly in the field of Federal legislation and regulations. These achievements saved the industry many thousands of dollars. They benefited everyone in the industry, not just those whose dues made these achievements possible. We think it's time to tell this story to both members and non-members alike and to point out what can be accomplished if everyone will give this organization the support it deserves," Stark concluded.

The Board's action resulted from a report by a special committee on Priorities and Objective chaired by V.P. Frank Baber. Appointed at the annual meeting in Springfield, Mass. in August, this Special Committee made an in-depth study of NEPPCO and its programs, including a telephone survey of people who attended the Springfield convention and some who did not. Its report to the board included these specific recommendations:

1. In order to utilize the time of our staff to the best advantage of NEPPCO and its memers, it is recommended that the Board establish a goal of $100,000 in gross annual dues income; that an assistant executive director be employed as soon as practical whose chief responsibility will be member relations; and that until such person is employed, the board collectively and individually assist the executive director in making as many contacts as possible to obtain more dues from current members and enroll new members.

2. That the following program of acitivities be given priority in the year ahead:

a) An expanded public affairs committee to represent, express and further NEPPCO members' interests in Federal legislation and Federal regulatory activities.

b) An active rail and truck transportation committee.

c) An educational committee whose job it will be to survey the educational and training needs of our members and their employees in order to improve and-or expand NEPPCO's current program of schools and conferences.

d) A research committee to monitor research of potential value to the poultry industry; to assist our Northeastern research facilities in whatever way practical or needed; and to co-operate with other organizations interested in providing our industry with a better research capability.

e) Closer co-ordination, co-operation and communication with affiliated state poultry associations.

f) Improving our Member Assistance Service by promoting and encouraging greater use of this service by members.

3. That the board establish as NEPPCO policy a rule that at all activities sponsored by NEPPCO at which a registration, enrollment or admission fee is charged, that the fee for non-members be substantially greater than that charged to members, but that within a fixed time period, a non-member could join NEPPCO and apply this difference in fees to his first-year dues.

4. That the 1977 NEPPCO convention and exposition be held in the central Pennsylvania area in the Fall of the year.

All of these recommendations were adopted by the board after which, in an unprecedented move, each director personally committed himself to working to achieve these goals.

Serving on the special committee on Priorities and Objective with Frank Baber were Henk Wentink, Bill Robinson, John Ricca, Henry Saglio, Dick Stark and Dick Ammon.

The next regular meeting of the Board will be held in New York City on Dec. 2 and 3, 1976.

Poultry declines

HARRISBURG, Pa. - Pennsylvania's poultry production during the week ending Oct. 16, continued above 1975 levels, while declining slightly from the previous week, according to the Pennsylvania Crop Reporting Service.

Placements of broiler chicks were 1,534,000. The placements were seven per cent above the same week a year ago, but six per cent below the previous week.

Average placements during the past 10 weeks were 19 per cent above a year earlier.

In the 21 key poultry producing states, placements were 61,616,000. This figure is seven per cent above the previous week and seven per cent above the corresponding week in 1975.

Average placements during the past 10 weeks in the 21 states were nine per cent above a year ago.

Dairy seminar focuses on nutrition, minerals and effects on herd health

CENTREVILLE, Pa. - Feeding standards and disease prevention were the primary topics presented at the dairy seminar held here this week. Sponsored by the Penn State Extension Service, the event is held annually to update interested feed programmers and veterinarians on the latest in dairy research.

Extension dairy scientist Don Ace was on hand to list specific feeding standards, especially regarding trace minerals.

Ace pointed out that studies are pointing to a selenium deficiency in southeastern Pennsylvania, and that providing proper amounts of this trace mineral could eliminate some health problems in dairy animals. Good results have been obtained by incorporating the substance with injections of vitamin E. The practice is thought to be good preventive medicine.

According to Lancaster County Agent Alan Bair, who co-chaired the meeting along with York County Agent David Norman, selenium has been incorporated into feeds at Atlantic Breeders Cooperative for several years. Results have been good and there is speculation that the famous "Ivanhoe" bull could have lived longer if this present feeding knowledge had been known 13 years ago.

There are reported to be a significant number of "downer" cows in the state of Pennsylvania. A remedy which might be considered for curing such animals is Epsom salt mixed in water, the veterinarians and feedmen were informed. Proper mineral balances are considered to be very important in feeding and "preventive medication."

Ace also looked at the dairy industry's economic picture for a moment, commenting that present milk production compared to a year ago is up about 10 per cent. Milk prices have declined somewhat and are expected to level off sometime between the first of the year and March 1.

Also featured on the evening program was Extension veterinarian Lawrence Hutchinson. He now holds the post formerly held by Dr. Sam Guss, who retired late last year. Guss was the main speaker at last year's dairy seminar, here.

The new Extension veterinarian centered most of his remarks on diseases in relation to nutrition of youngstock.

The people attending were cautioned against using more than one source of premedicated feed supplements due to the possibility of leaving meat and milk residues.

Each medicated feed additive is officially aproved and fine if it is used by itself. But a combination of two such supplements fed to the same group of cows could lead to complications.

At the present time there is no medicated dairy feed on the market, just supplements.

Hutchinson also pointed out that zinc is short in the rations of many Pennsylvania dairy herds. Trace-mineralized salts are not considered to be an adequate source of zinc in this area.

Another point brought up by Hutchinson is that cows generally have a hard time maintaining proper rumen PH if they're on all fermented feeds. Bicarbonate of soda mixed into such feeds could be a solution to the problem.

It has also been recommended that mineral feeding be incorporated through the ration itself, while at the same time maintaining a free-choice program.

If a cow eats more than a tenth of a pound of free-choice minerals per day, something might be wrong with her. A properly balanced mineral feeding program has much to do with having a healthy and productive dairy herd.

PURE ART

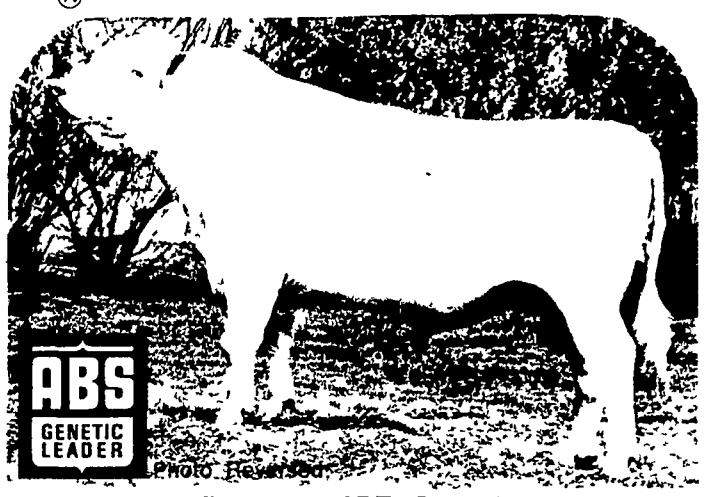

Photo Retouched

2-H2317 UK Fond Matt ART 1563679 PQ
USDA Predicted Difference 10/74
+927 Milk +36 Butterfat +$92

You don't need to be an art lover to appreciate the influence of UK Fond Matt ART.

ART is one of the highest proven sons of "Fond Matt" and is heavily recommended in ABS' Genetic Mating program. ART sires cattle with outstanding leg set plus good feet and legs. He also improves height & width of rear udder, stature, levelness of rump, strengthens loins, and improves teat shape. ART daughters tend to milk out faster and have a good disposition

ART is potentially a "triple plus" bull. A "triple plus" bull is one plus proven in milk, test, and type.

To put a finer line in your herd . . use ART.

What's New

PLATELESS PLANTER BULLETIN

BLOOMINGTON, Ill. - Eighty-five per cent of the new corn planters purchased in the Corn Belt this year were plateless. Roughly 50 per cent of the total corn acreage was planted with plateless planters this past season.

To discuss some of the advantages of the new plateless planter technology, the producers of Funk's G-Hybrids have prepared a new management bulletin entitled: "Plateless Planting with Funk's E-Z Drop." The eight-page bulletin is produced in full color.

The bulletin discusses four major manufacturer's air or finger pickup plateless planters and provides suggestions for the successful use of Funk's E-Z Drop seed, which is packaged especially for use in plateless planters.

For a free copy write "Plateless Planting with Funk's E-Z Drop" Number C6-43, Funk Seeds International, Department CC, Bloomington, IL 61701.

Conference held

POCONO, Pa. - The Southeast Area FFA Leadership Conference was held at the Pocono Environmental Education Center on October 15, 16 and 17, 1976. One hundred forty five members and 11 advisors, representing the chapters of Lehigh, Upper Bucks, Middle Bucks, Western Montgomery, Eastern Montgomery, Bethlehem, and Walter Biddle Saul, were in attendance. Eight Pennsylvania state officers were also present.

The activities included a volley ball tournament, FFA quiz bowl, and action socialization experiences, which was a test of teamwork plus mental and physical coordination. These events were set up with teams consisting of one or two members from each chapter. There were also various trails ranging from one to seven miles long. An indoor pool for swimming was also available.

The state officers and advisors headed the leadership workshops, at which many ideas were exchanged. The workshops were broken down into the various offices and members were invited to attend the workshop of their interest.

xxx

After a jar of peanut butter has been opened it should be kept in the refrigerator. Remove it from the refrigerator a short time before using to allow it to soften

xxx

Personal care appliances are also energy savers. Less energy is required to shave with an electric shaver four minutes a day all year than is required to heat two gallons of water from 60 to 140 degrees. Two gallons of water probably would not last the average wet shaver a week, much less a whole year.

Bees captured a lot of attention at Park City last week

JOHN J. KLEINFELTER ESTATE

REAL ESTATE ANTIQUES FARM EQUIPMENT
BUTCHER EQUIPMENT

SATURDAY NOVEMBER 13, 1976

9:30 A.M.

Located on the premises at route 5, Lebanon, North Cornwall Twp., Penna. Turn west off 12th street in Lebanon onto Oak Street and continue appx. 1 mile to farm lane on left.

REAL ESTATE

Tract 1: Being a lot of appx. 75' x 160' in size thereon located a 2 story 3 bedroom brick home located at 305 S. 22nd Street in Lebanon. This home features a kitchen with lots of cupboard space, linoleum floors and plastered walls, 2 living rooms with hardwood floors, front entrance hallway with closet, and many more lovely features. Open stairway to second floor finds a full bath and 3 comfortable bedrooms on second floor. The basement has a concrete floor, with the home being heated by an oil hot air furnace, 220 electric service and city water. This home is very structurally sound, has a shingle roof; and many other extras. Plenty of off-street parking and a large yard are a few more extras with this very desirable property.

Adjacent to this property is a lot of appx. 100' x 160' which will be selling with the above property. Property can be inspected by calling for an appointment at 717-273-6201.

Tract 2: Being a tract of land appx. 25 acres in size with an adjoining 1 acre plot to be offered as 1 unit. This is located in Swatara Township, Southwest of Jonestown. Take Route 72 north from Lebanon to road known as old Jonestown Road past what is known as the Ark and turn right and continue appx. 1 mile to land on left. This land is presently being used as pasture land and has a never failing stream and some shade trees. For inspection of this property call 717-273-6201.

Both of these tracts will be sold from the sale location on west Oak street at 1:00 on Nov. 13 with the terms being 10 per cent down and the balance in 90 days with other conditions on sale day to be given by Attorney Sam Weiss Sr.

FARM EQUIPMENT	BUTCHER EQUIPMENT

... time to be thankful

HARVESTORE OWNERS AND FRIENDS:

Penn-Jersey HARVESTORE announces a celebration to close out the Bicentennial Year of 1976.

We have selected two days for your choice, Thursday, November 11 at a Lancaster County Restaurant and Friday, November 12, at a Lehigh County Restaurant.

As a special treat, we have Ken Pendall, Ithaca, Michigan. Ken is a HARVESTORE Owner with a large, successful Dairy Operation and he keeps you laughing as he describes "life on his Michigan Farm" .

Dinner will be a real Harvest delight, ladies, prepared so that you will get a day off from your kitchen. No need to cook again on this day !

In the afternoon, we have reserved for your entertainment "The Singing Sheriff" of Anderson, Indiana. Richard Dennison, Manager, Penna. Farm Management & Business Analysis service, will discuss two very important subjects: Tax Credit Advantages and Estate Planning. .

Come early -- Program starts at 10:30 A.M. and you will be out by 2:30 P.M.

Now, here's how you can help us and do your neighbor a good turn. Please invite a neighbor or relative who is in the business of Dairy or Livestock Farming (no city slickers, please). Let's show your guests how much fun it is to go to a HARVESTORE Family Celebration.

We will be looking for you Thursday or Friday so be sure to phone us at (717) 354-4051 so we know how many to expect at our dinner table. Ask for Vanessa.

Please note there is no charge for your reservation. Come as our Guest. Call --

PENN-JERSEY HARVESTORE SYSTEMS, INC.
Box #91
New Holland, Penna.

(717) 354-4051

Now, from Beacon--
Super-Pels*
--the proven feed with more usable protein.

*available in pellets or mash

Cows need protein for milk production. Agreed. But all protein is not usable protein.

The amount of soluble protein a cow can use is definitely limited. Many cows today may get too much soluble protein and the excess may be wasted. That's expensive!

The current trend is to feed more fermented roughage and high moisture grains and less dry hay, dry grains and commercial formula feeds. The combination of fermented roughages and fermented grains may have a higher level of soluble protein than the cow can use. This decreases efficiency and lowers milk production.

To balance roughage programs high in soluble protein, Beacon has formulated Super-Pels, a high-quality grain ration low in soluble protein levels, to compensate for the highly soluble roughage. The Super-Pels formulation is constant. It will never change, and it's one of the most palatable feeds ever produced.

Super-Pels have been tested for two years on farms in two states. The result? Significantly higher production.

WHO NEEDS SUPER-PELS?

Super-Pels is only for the herd that meets all of these qualifications:

- A well-managed herd of 15,000 pounds or more production average.
- Fed a diet which, in large part, is high in fermented roughage.
- The farm is on a roughage analysis program.

Beacon Super-Pels, fed properly, is just one more example of why so many dairymen look to Beacon for **"No-Nonsense Feeding."**

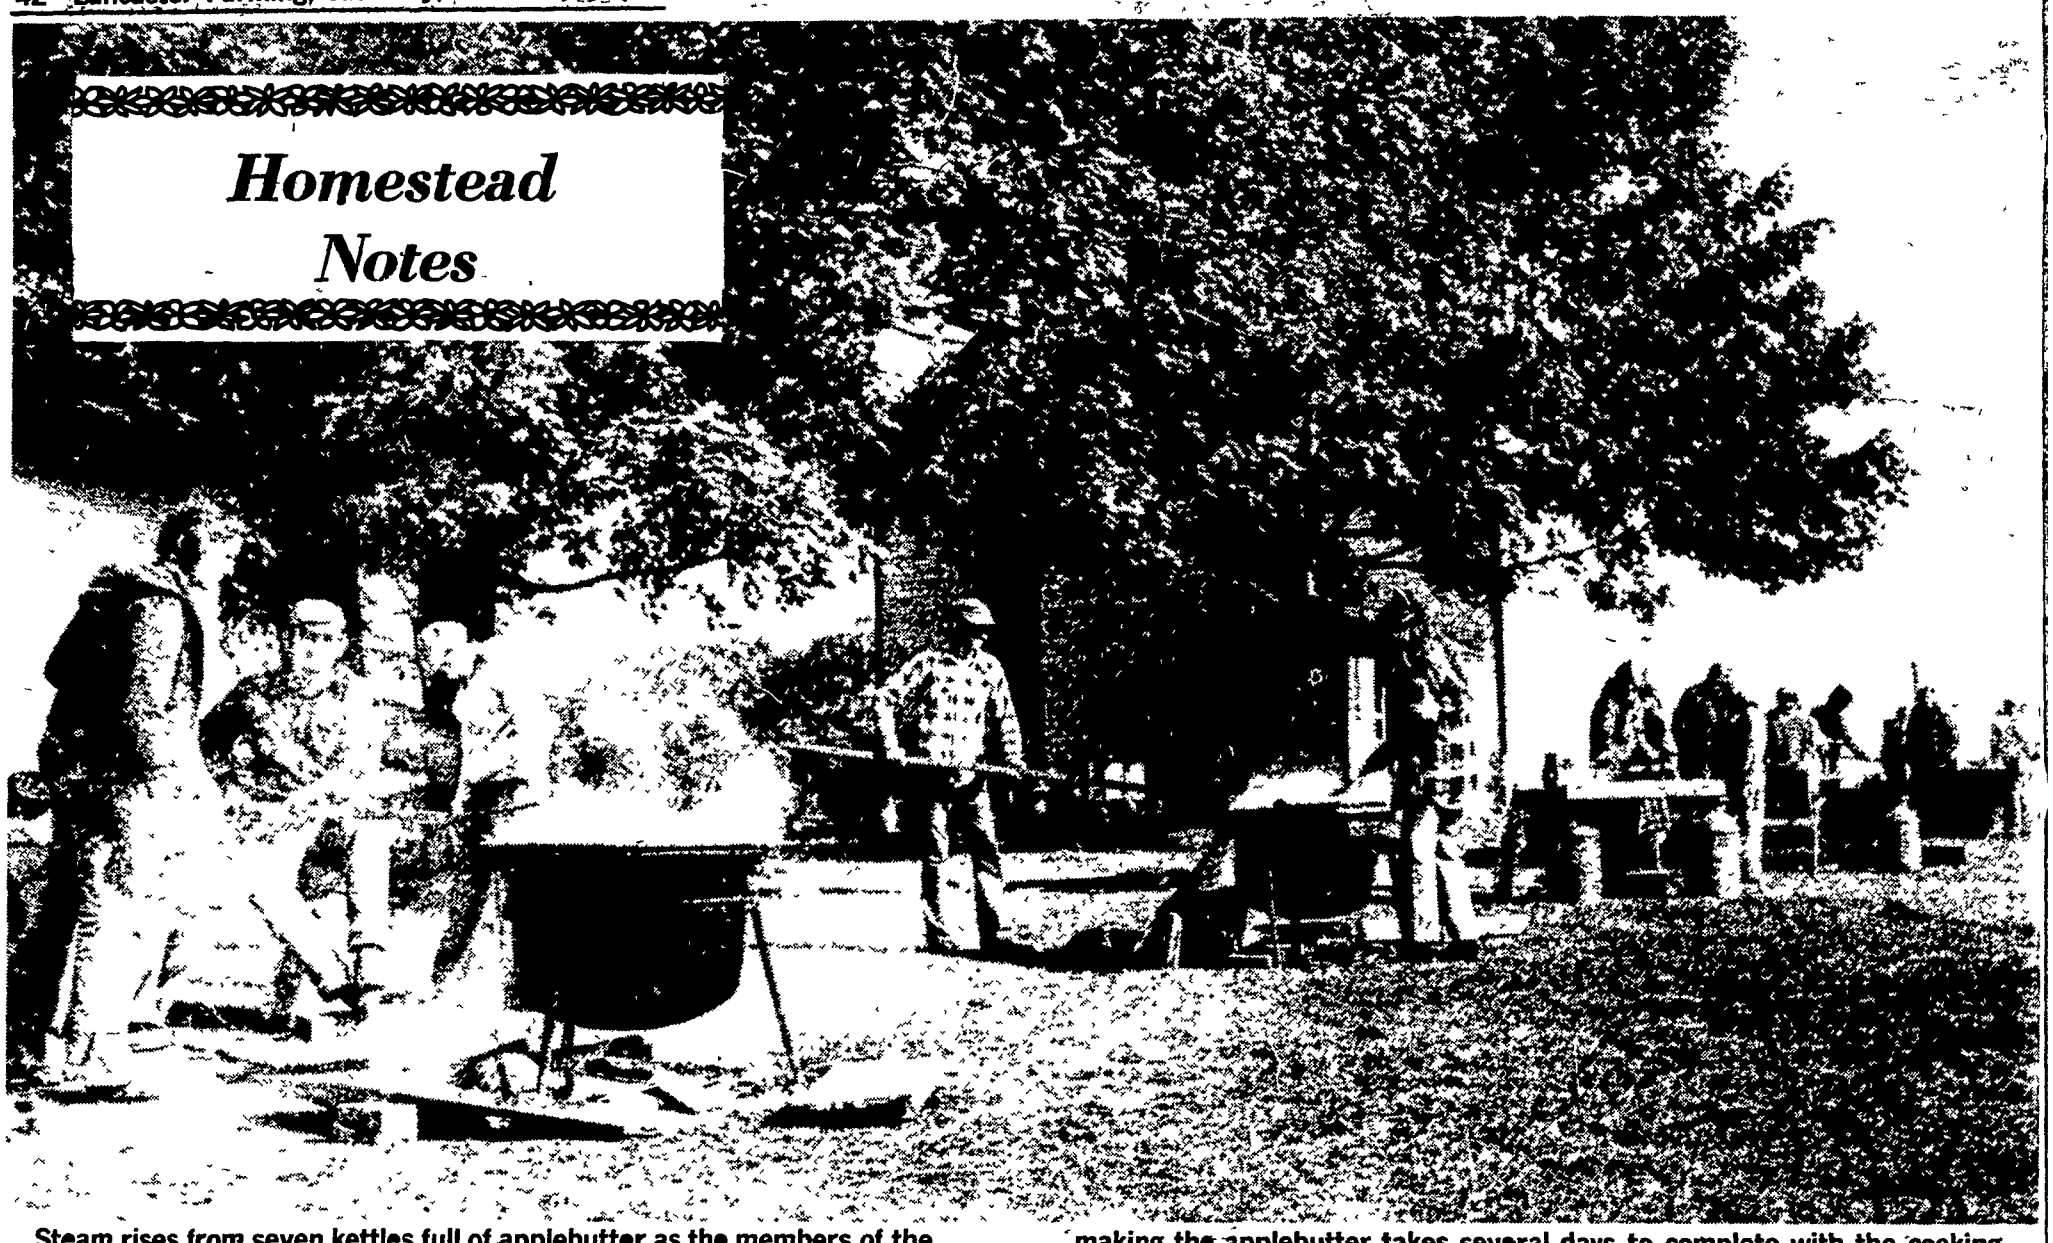
Homestead Notes



Steam rises from seven kettles full of applebutter as the members of the Mt. Nebo United Methodist Church and members of the community of Delta, Pa. gather for their annual applebutter making day. The process of making the applebutter takes several days to complete with the cooking process, alone, taking approximately 12 hours.

Applebutter making: a return to the old times

By JOANNE SPAHR

DELTA, Pa. - The winds whip over the hills, flapping the loose ends of worker's neck scarves in the onrush, and it's the kind of cold, brittle-feeling day that makes you seek out a protected spot in the sun to lie warming like a partially-hibernating turtle. And, yet, there is something in the smell and feel of the October day that is envigorating - something that makes you feel a surge of life.

Beside a quaint, picture post card church roam about 40 people of all ages, chatting and laughing and taking turns at manning the eight-foot antique, or at least antique-looking, wooden stirrers which are employed in keeping the ingredients in the 20-gallon copper kettles from sticking to the bottom and burning. From the open wood fires beneath the kettles, smoke wafts forth, and steam rises from the mixture as it bubbles, boiling away all the water.

The community of Delta has assembled for its annual apple-butter making day.

Actually, the youth group and other members of the Mt. Nebo United Methodist Church have gathered to make applebutter, but after a 50 year tradition in the neighborhood, it can no longer be termed a strictly church function. Now everyone and anyone comes out to help. And, it would be hard to keep people away, for there's an almost inexplainable feeling of good will that comes from taking part in this ritual.

"It takes me back to the old times, explains Mrs. Mary Smith, Cardiff, Md., who stands slowly stirring the third in a line of seven copper pots of applebutter. "Only recently have I become interested in the things my mother and grandmother used to do," she continues, adding that she now makes jams, jellies, and does pickles.

She also has gotten so interested in applebutter making that she went to a sale recently and purchased her own copper pot.

"There was an antique dealer bidding against me," she explains, so she feels fortunate that she got the kettle for the price she did. On the average, these kettles sell for anywhere from $150 to $200. The Mt. Nebo Church has about three or four of its own and the rest of the kettles are borrowed for this special day.

Actually, there's quite a procedure that goes into this process. This year's "cook-out" began about two weeks prior to the designated applebutter making day. At that time, about 16 youth members from the church went to a nearby orchard and picked the necessary 56 bushels for the seven kettles of apples. Then, the day before the applebutter was to be made, another group of church youth got together from 5 a.m. to 3 p.m. and peeled, cored, and slices every single apple for the next day's event.

The next step was to prepare the kettles to be cooked in. This came the day the applebutter was to be made - only at about 2 or 3 o'clock in the morning. Since they are made from copper, the kettles take a special solution to clean and shine them up from year to year.

"It takes a hot mixture of salt, vinegar, and wood ashes," states Kenneth Ruff, Delta, who went out in the wee hours of the morning to help set up everything. "This makes the copper real shiny," he adds. Ruff also explained that the 20 gallon copper kettles had basically only one purpose - to make applebutter. It is important that only copper be used for applebutter beacuse other metals will cause the mixture to stick.

After the kettles were shined up, the fires had to be started.

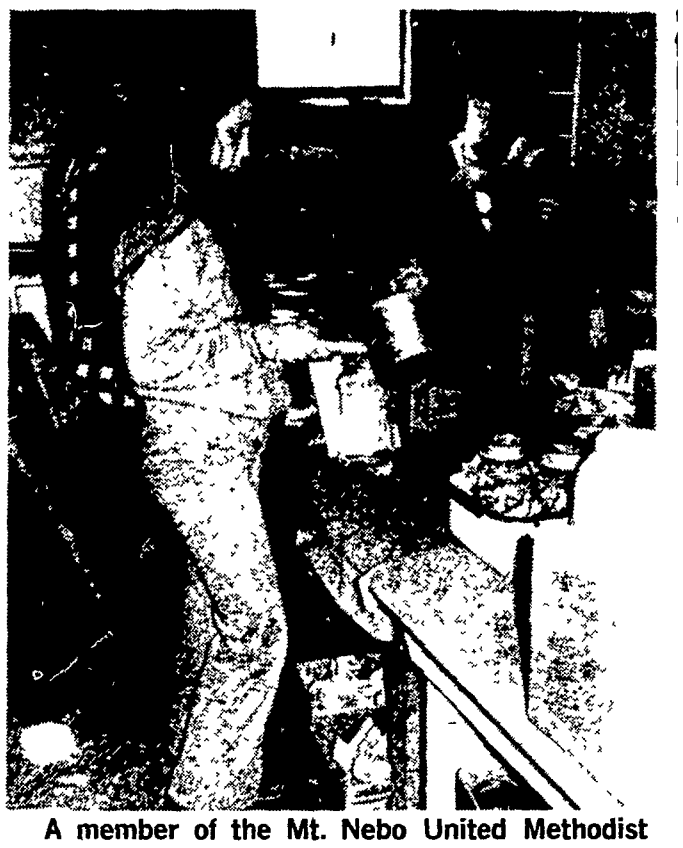
"Oh, you have to have an open fire," jokes Leona Smith, Delta. But, even though she is joking, it is evident that the applebutter just wouldn't be as good without it, and the feel of being in touch with an age gone by wouldn't be as genuine.

By the time all these procedures are completed, it may be as late as 3 a.m. and by then it's time to get the apples cooking. For every eight bushels of apples that go into each kettle, 10 gallons of water must be added. And, from the start, the apples must be stirred constantly, or else they will stick.

"There are several ways to stir," explains Dale

[Continued on Page 43]

No matter how enthusiastic you are about making applebutter, the time does come when your enthusiasm isn't enough to keep you awake, especially if you've gotten up at 2 o'clock in the morning to join in the festivities.



A member of the Mt. Nebo United Methodist youth group demonstrates how the applebutter is packaged after it is made. Everyone who has put in an order brings his or her own jars and has them filled to take home.

Applebutter

[Continued from Page 42]

Stewert, church member from Delta, "you can make a couple of circles around the kettle and then bring the stirrer straight down the middle, or you can make a figure eight," he says with a grin. Then, he adds with a laugh, "Believe me, you come up with all kinds of ways when you stand here stirring for 12 hours."

Believe it or not, 12 hours is the usual amount of time it takes to get a good batch of applebutter. And, nearly 100 per cent of that time is spent standing by the fire, constantly stirring the mixture so that it doesn't stick. There are a few other key processes, but stirring is the main part. That's why having a whole community turn out for an applebutter making day is not only fun, but easier for everyone involved.

In the beginning stages, the apples and water are hard to stir, but as the apples break down and turn to liquid it becomes an easier task.

When the apples do liquify, the mixture fills the kettles to the brim and must be cooked for about four or five hours until "most the water boils out," as the experts say. Then, when the water is out, and the mixture "looks right", sugar is added. Ninety pounds of sugar go into one kettle of applebutter. This is a very key process of the applebutter making, and one that takes as long as an hour for seven pots.

"If you put too much in at one time, the kettle will spill," explained Ben Burk, Delta R1, who was the chief cook for this year's batch of applebutter, and who, along with his sister and other brother, Ramsey, is known as one of the main applebutter authorities in the neighborhood. So, Ben spends at least and hour or more going around to each kettle with a dishpan of

Ben Burk, Delta, the chief coordinator of this year's applebutter making day, pours a dishpan full of sugar into the kettle of applebutter. It takes nearly an hour to put the necessary 90 pounds of sugar into each of the seven kettles.

Applebutter

[Continued from Page 43]

sugar at a time, adding it when the applebutter is ready.

"You have to just know by looking - when the applebutter is ready," Burk stated when asked how long it takes before the sugar can be added.

"I can tell just by the way it bubbles," says Inez Maglaughlin, Delta, who is Burk's sister and one of the original applebutter makers from 50 years back. "I can tell just by looking when I make preserves, too," notes the pro.

From all that could be gotten from the "old timers: who know when to add the various ingredients, there is no set time before adding the sugar and spices. The point is mostly to cook out the proper amount of water form the liquid before adding the sugar, and this knowledge can only come by standing beside the experts and learning by experience.

After the sugar has been added, the apple butter has to cook about two and a half hours until it "looks right," and then spices must be added. Four ounces of cinnamon go into a kettle.

"If you use cloves or allspice, you don't use as much cinnamon," advises Ben Burk.

Once the spice is added, the mixture should cook only about 10 or so minutes and then be taken from the fire - completely finished.

By this time it has changed from the off-white color of pared apples to the deep, rich, familiar brown of applebutter. This darkening occurs slowly during the 12 hours of cooking, but really speeds up after the sugar has been added and a chemical reaction has taken place. The four ounces of cinnamon also help to change the color.

Once the long process of making the apple butter is completed, the majority of the work changes hands from the stirrers to the women who bottle the applebutter.

Mrs. Margaret Harrington, Delta R1, was responsible for taking this year's orders. After 50 years, the applebutter has become a part of the area's way of life so orders come in until they have to be turned away. As has been the case for the past several years, only enough orders were taken to fill 160 gallons of the applebutter. Usually, there is a little more than 160 gallons made in the seven kettles, but to insure that everyone's orders are filled, Mrs. Harrington curtails them after 160 gallons have been accounted for.

"This year there were 115 different orders," she relates, "and the largest order was for 12-¼ gallons." In this case, the buyer probably stocked up for a year or more. Everyone involved assures that applebutter can be kept for at least two or three years without spoiling.

This year the youth group of the Mt. Nebo Methodist Church, who sponsored the event and who will receive the proceeds from the sale, charged $6 per gallon for their applebutter.

"Some churches charge $10, so we're really reasonable," Mrs. Harrington remarked. While it may sound as though the Mt. Nebo applebutter makers have a lot of competition, this is really not the case. There are very few churches around the area that have an annual applebutter making day. So, the Mt. Nebo group sometimes has to get together several times in a year to fill all the orders and ease the demand of those wanting some of the delicious condiment. This year the community will be having another applebutter making day in the beginning of November.

HISTORY

The history of the Mt. Nebo applebutter making day goes back as far as possibly 50 years, or at least as long as the old timers can remember. At that time, the women of the Mt. Nebo Church decided they needed to have a fund raising event, and applebutter making was suggested and decided upon.

"That first year we only had one kettle," says Inez Maglaughlin, whose mother was the women to suggest this particular project. "The next year we had two kettles and we kept increasing until we finally had seven," she continued.

There were a few years out of the 50 that applebutter wasn't made, however.

"During the depression, you couldn't get sugar unless you had sugar stamps," says Ramsey Burk, brother to Inez.

And, then, to the opposite extreme, there were years that the group had to get together as many as four

Applebutter

[Continued from Page 44]

times to fill all the orders. "There were some years, also, when we just couldn't get many people out to help," explained another knowledgeable person. "Those times there may have only been two people to each kettle."

Now, however, interest has really picked up. At 5 o'clock last Saturday morning there were more than 40 individuals out getting ready to make the applebutter. Some poeple even stayed all night.

One of the members of the youth group who did stay all night said he did it for "something to do." After spending an afternoon with Mt. Nebo group, it becomes evident that this is the key to the success of the project. Making applebutter is a good, wholesome, entertaining way to spend a day and enjoy the warm friendship and hospitality of neighbors.

Ladies Have You Heard?

Tips For Discount Shopping

Now, more than ever, discount shopping seems to be taking the country by storm. In fact, the word discount seems to have a magic ring, leading consumers to believe they are getting a fantastic bargain.

It is true you can save a great deal of your fashion budget by shopping discount houses or factory outlets, but you can also get stung. You need to be an especially perceptive shopper with a knowledge of fabric and fiber, plus a firm goal in mind.

It's very easy to get carried away by the excitement of a half-the-original-price tag and buy twice as much as you need. You can go broke saving money on such bargains. What's more, many discount houses and factory outlets don't have rooms to try on garments. If you can't try on an item or can't return it, the purchase is a real gamble as far as fit is concerned. Even packaged goods such as hosiery and undergarments may have the wrong size on the outside of the package.

Sometimes you'll find that the reason for a markdown is mislabeling of size, fiber content or care directions. If you know fabrics, you can determine if the care labeling is wrong, but not always. Again it is a gamble and you usually have no alternatives if the garment is ruined.

A needle and thread can sometimes easily repair minor damage. Other times the reason for the markdown is poor matching or fabric design placement. Here you'll have to decide if it is worth the extra time and energy needed to correct the mistake - if it is correctable.

Keeping these drawbacks in mind, discount buying at the factory still makes it easy to save dollars if you shop with a few guidelines in mind. Go with a firm idea of your needs - don't be swayed by that half-price tag. Buy only if you find what you need and want. A bargain is no bargain if it won't add to your present wardrobe.

Keep in mind that driving long distances to shop at an outlet to save a few dollars may not really be a saving, considering the cost of gasoline, time and possibly a meal away from home.

Imaginative Homemade Halloween Costumes

When the children in your family start thinking ghosts and goblins, it may be time to rummage through your attic and basement to find the things you'll need to make up imaginative costumes for Halloween.

Children will probably be enthusiastic about designing their own costumes. For inspiration, they might think of favorite cartoon characters. Or look at coloring or story books.

Boxes with holes for arms can be painted or colored. Smaller children can decorate large paper sacks, then cut holes for head and arms.

Or look into an old clothes bag for garments that, with a little pinning or quick sewing, will create a young witch or fairy princess. Think of unusual ways to use old clothes for costumes. Pajama bottoms with feet can be stuffed, then used for an unusual hat. An old skirt can be worn around the neck with holes cut out for arms. Fabric scraps, old sheets and towels come in handy, too.

Sports equipment also makes interesting and fun Halloween costumes.

Instead of masks, let children decorate their faces. Old or inexpensive make-up and colored chalk can be used. Even water-color paints will work if a good base of hand lotion is first applied to the face. To create a ghostly effect, apply flour over a hand lotion base.

NEMA has new manager

DECATUR, Ga. - The Northeast Egg Marketing Association has a new General Manager.

William S. Rent of Kingston, N.H., succeeds Paul M. Fischer who resigned to enter private business. Paul had managed the egg cooperative for 18 assistant to former manager Ray Delano.
Delano.

According to Don Horn, NEMA President, "Bill" Rent brings with him a broad range of experience built through many years of close association with the New England hatchery and egg industry. His business career has included key assignments in sales and management with major hatcheries in both New England and the Mid-Atlantic areas, Horn said. He has also owned and operated a sizeable egg marketing service in New England.

Pa. consumers prefer Pennsylvania apples

HARRISBURG, Pa. - Pennsylvania consumers respond to promotions identifying apples as grown in Pennsylvania and actually show a taste preference for them, Dean Carey, chairman of the Pennsylvania Apple Marketing Board, announced this month.

Apples originating in Pennsylvania and Washington State were involved in a two-week study conducted at two supermarkets last spring in the Allentown-Bethlehem area under the direction of the Department of Agricultural Economics at Penn State.

When apples of similar quality, grade and price were identified as to state of origin, consumers bought more of the Pennsylvania apples - 58 per cent to 42 per cent.

More importantly, according to Carey, was the fact that Pennsylvania won out decisively in taste tests. Pennsylvania apples won by decided margins in such categories as crispness juiciness, firmness, and tanginess.

To test the impact of the state of origin, large signs "Pennsylvania Grown" and "Washington Grown" were featured on bulk displays of apples, all of which were U. S. Extra Fancy, size 100, and identically priced. In one store, the Pennsylvania apples outsold the others by 60 per cent to 40 per cent. In the other store, the difference was 54 per cent to 46 per cent. Out of a total of 5315 apples, Pennsylvania apples outsold the others by a margin of 16 per cent or 8-½ boxes.

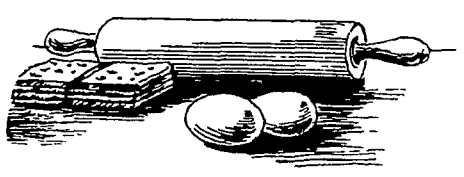
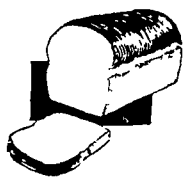
Home on The Range





Today, may only be the 30th of October, but, believe it or not, Thanksgiving is just around the corner. So, there are the old favorite recipes to be gotten out and used for the annual holiday meal.

Because of this, Lancaster Farming will also be featuring special holiday themes on different weeks so you can try some new versions of your favorite foods. For instance, the 20th of November will be the week for "Holiday Recipes." These can be anything from main course foods to appetisers to desserts. But, the week of November 13 will be set aside for two special areas of holiday recipes - punches and finger foods. How many times during the holiday season do you have guests stop in for a visit and find you have very little in the line of snacks to offer them? There are, of course, always the packaged snacks you can buy in the grocery store, but holidays are special and so are holiday guests. So, why not have something homemade to offer them?

If you do know some tantelizing finger foods that would be good for the holiday season, and you would like to contribute them to this column, send your recipe ideas to Lancaster Farming Newspaper "Home on the Range," Box 266, Lititz, Pa. 17543. And, mark on the front of the envelope "finger foods and punches," or "Holiday recipes."

This week is the beginning of "easy suppers." The response was just terrific for this theme. "So, "Home on the Range" will run another column of "Easy Suppers" next week.

If you have any requests for a food recipe which you would like the contributors of "Home on the Range" to help you wout with, send those requests to the same address as the recipes.

EASY STROGANOFF SKILLET

1 pound ground beef
1 medium onion, chopped
1 can cream of mushroom soup
1 cup sour cream
1 can beef broth
½ cup water
3 cups uncooked egg noodles

In skillet, brown beef and cook onion until tender. Pour off fat. Blend in mushroom soup and sour cream. Add remaining ingredients. Bring to a boil. Cover, cook over low heat 10 minutes or until noodles are done. Stir often. Makes five one-cup servings.

Harriet Greenawalt
Lancaster, Pa.

xxx

RICEBURGER SKILLET

1 pound ground beef
1 medium onion, chopped
2 teaspoons basil leaves, crushed
1 can (1)-¾ ounces) tomato soup
1 can beef broth
1 cup water
⅔ cups quick cooking rice (uncooked)

In skillet brown beef and cook onion with basil. Pour off fat. Add remaining ingredients. Bring to boil. Cover. Cook over low heat 10 minutes or until rice is done. Stir often. Makes six one-cup servings.

Harriet Greenawalt
Lancaster, Pa.

xxx

MACARONI & CHEESE CASSEROLE

8 ounces elbow macaroni
1 cup bread crumbs
½ pound white American cheese
¼ cup butter crumbs and paprika
2 cups medium white sauce
1 (4 ounce) can mushrooms
Medium White sauce:
2 tablespoons flour
2 tablespoons fat
1 cup milk
¼ teaspoon salt
Dash pepper.

Cook macaroni about 30 minutes in boiling salted water. Drain and rinse with hot water. Place half of cooked macaroni in a buttered pan. Sprinkle with chopped mushrooms and cover. Melt grated cheese in white sauce in double boiler and pour over macaroni mixture. Cover with bread crumbs and dot with butter and sprinkle with paprika. Bake 40-45 minutes at 325 degrees F. Serves 6.

Mrs. Charles Biehl
Mertztown, Pa.

xxx

TUNA CASSEROLE

½ cup chopped onion
¼ teaspoon oregano
2 tablespoons butter
1 can cream of mushroom soup
2 cups cooked elbow macaroni
½ cup chopped canned tomatoes
1 can (6-½ ounces) tuna, drained and flaked

In saucepan, cook onion with oregano in butter until tender. Blend in soup, add remaining ingredients. Heat, stirring occasionally. Serve with grated Parmesan cheese. Serves three.

Mrs. Linnie Person
Allentown, Pa.

xxx

BASQUE POTATOES

½ cup finely chopped onion
½ cup chopped celery
½ cup shredded carrot
1 clove garlic, minced
2 tablespoons butter
10-½ oz. chicken broth
Water
2 pounds potatoes, pared and cut into one-inch cubes
1-2 teaspoon salt
one-eighth teaspoon pepper
Chopped parsley
2-½ to 3 pounds chicken parts (thigh, drumsticks, breast, or combination)

Saute onion, celery, carrot, and garlic in melted butter in a 10 inch skillet until tender. Combine chicken broth with enough water to make two cups or use all chicken broth.

Add chicken broth and cooked chicken parts, potatoes, salt, and pepper to sauted vegetables. Cover; simmer for 10 minutes. Remove cover. Simmer, stirring occasionally for 20 minutes or until broth is thickened. Sprinkle with parsley. Makes four servings.

Mrs. Sylvia J. Quesenberry
Blain, [illegible]

xxx

CHICKEN CASSEROLE

4 cups diced chicken
4 cups chicken broth
1 cup diced onion
2 teaspoons each salt and pepper
4 cups cracker crumbs
2 eggs beaten
1-½ cup diced celery
1-½ cups cheese

Home On The Range

[Continued from Page 46]

Save one cup cracker crumbs for top. Mix rest of ingredients together. Put in greased casserole top with one cup crumbs. Bake at 350 degrees F. for 45 to 50 minutes.

Mrs. John K. Stoltzfus
Narvon, Pa.

xxx

SPANISH RICE

1 onion, minced
1 green pepper, minced
¼ cup diced celery
2 cups cooked tomatoes
2 teaspoons salt
one-eighth teaspoon pepper
4 tablespoons hot butter
1 cup uncooked rice

Cook onion, green pepper, and celery until yellow in four tablespoons hot butter. Then add and cook slowly; tomatoes, salt, and pepper. Gently stir in hot drained rice (one cup when uncooked) and cook for five minutes longer. Serve hot - sprinkle with grated cheese or crumbled crisp bacon. Makes four servings.

Mrs. Ruth Ruoss
Blain, Pa.

xxx

HAMBURGER
CARROT CASSEROLE

1 pound hamburger
1 teaspoon salt
Dash pepper
1 onion, thinly sliced
1 carrot, peeled and sliced
1 potato, peeled and thinly sliced
Salt and pepper
1 can cream of mushroom soup
¼ cup water

Preheat oven to 350 degrees F. Combine hamburger, salt, and pepper. Mix until well blended. Pat meat in bottom of a lightly greased 1-1-2 quart casserole. Top with a layer of onions, then a layer of carrots, ending with a layer of potatoes. Sprinkle salt and pepper. Combine soup and water. Mix until smooth. Pour evenly over vegetables and meat. Bake 1-½ hours. Yield: six servings.

Mrs. Donns Hess
Alburtis, Pa.

xxx

TUNA NOODLE
CASSEROLE

2 cups cooked noodles
1 (7 oz.) can tuna fish
1 (20 oz.) can cream of mushroom soup
2 cups canned peas
¼ cup bread crumbs

Grease casserole. Mix cream of mushroom soup and milk in separate bowl. Arrange half of tuna, noodles, half of peas, half of mushroom soup in layers in casserole. Then add remaining noodles, tuna, peas, and mushroom soup. Sprinkle bread crumbs on top. Bake 35 minutes at 350 degrees F. Serves eight.

Mrs. Donna Hess
Alburtis, Pa.

xxx

HAMBURGER
RUNAROUND

Brown onions and hamburger in skillet. Pour brown gravy mix over and simmer. Cook your favorite rice and spoon above on the top. Delicious.

Mrs. Carole D. Ovelman
Unityville, Pa.

xxx

DRIED BEEF DINNER

Cook one four-ounce package sliced dried beef (if quite salty, rinse with boiling water and drain), snipped, in two tablespoons butter or margarine for four or five minutes. Blend together two tablespoons all purpose flour, dash pepper, and 1-¼ cups milk. Add to beef. Cook and stir till mixture thickens and bubbles. Add ½ teaspoon Worcestershire sauce. Serve meat sauce over baked potatoes or toast. Serves four.

Mrs. Charles Biehl
Mertztown, Pa.

xxx

SKILLET BEANS
AND FRANKS

1 cup diced tomato
½ teaspoon crushed oregano
¼ teaspoon garlic powder
2 tablespoons butter or margarine
2 (1-pound) cans beans and franks in tomato sauce

In skillet, cook tomato, oregano, and garlic powder in butter briefly to blend flavors. Add beans and franks. Heat over slow heat, stirring often, till piping hot. Garnish with parsley if desired. Makes six servings. Ready in five to 10 minutes.

Mrs. Charle Biehl
Mertztown, Pa.

Dauphin Co. Society 1

The Dauphin County Society of Farm Women Group 1 held its October meeting at the home of Dolly Pickel. Hostess for the evening was Dolly Pickel and co-hostess was Joann Pickel. All members were to come hungry since Dolly and Joann provided the group with a Hot Dog Roast.

Roll call was taken with 16 members and one guest answering.

Several items of business were discussed and decided upon at the business meeting. Members were asked to attend the State Hospital 125th anniversary on October 19, at 1:30 p.m. It was also decided to donate $25 to the State Hospital's Sunshine Fund.

Plans were made for the Group's Christmas Party to be held on December 14th at the Dutch Diner in Palmyra.

Details were discussed about the State Convention to be held on January 10. Members were encouraged to attend. The delegates were selected by the group's president. The delegates will be Barbara Fisher and Kathy Moffatt.

The Group's safety poster was on display at the meeting for all members to see. Group's safety poster was on display at the meeting for all members to see. Group 1's poster was selected as second place winner in the poster contest at the County Convention at Chambers Hill on October 9. The Table Decorating Committee was congratulated by the Group's president for a job well done at the County Convention. The tables were beautiful.

The next meeting of the group will be held on November 9 at 7:30 p.m. at the Hornerstown Church, with Daisy Cassel as hostess.

Junior Cooking Edition

This week's first five recipes are Halloween candy recipes. They all sound so good, and so much better than store bought candy! And, any trick-or-treater would be glad to find his basket full of good cookies like the sugar cookies and whoopie pies that follow the candy recipes. Of course, the pumpkin pies will have to be eaten at home.

Hope everyone has a good Halloween and that your bags get full to the brim with good tasting candy like today's recipes will make.

EASY FUDGE BARS

1 (3 ounce) pack instant chocolate pudding
2 tablespoons butter
¼ cup milk
2 cups confectioners sugar
¼ cup chopped nuts

Combine pudding mix, butter, and milk. Bring just to a boil. Stirring occasionally, remove from heat quickly. Stir in the confectioners sugar and nuts. Pour in greased loaf pan.

Dorothy Sauder
East Earl, Pa.
Age 14

xxx

SPECIAL K CANDY BARS

½ cups corn syrup
½ cup brown sugar
½ cup peanut butter
3 cups Special K cereal
1 cup coconut

Cook syrup and sugar over medium heat until it boils. Remove from heat and add peanut butter. Add cereal and coconut. Press into a buttered pan.

Doris Sauder
East Earl, Pa.
Age 14

PEANUT BUTTER CANDY

1 cup corn syrup
½ cup sugar
1 cup peanut butter
4 cups corn flakes (measure, then crush)
1 cup puffed wheat
1 cup Rice Krispies

Heat corn syrup, sugar, and butter until sugar is dissolved. Then, stir in one cup peanut butter. Pour this over mixture corn flakes, puffed wheat and Rice Krispies. Press in pan.

Lydia Beiler
New Providence, Pa.
Age 12

HALLOWEEN RECIPE

2 cups granulated sugar
2 tablespoons honey or white molasses
1 cup cold water

Mix together, then put on stove, but do not stir. Boil until mixture forms a soft ball in cold water. This takes from eight to 11 minutes after it starts to boil. Pour onto large platter. Let stand until slightly warm, then stir. Knead until it turns white and becomes creamy. Flavoring can be added. Cover and keep until ready to form into candy. Coat with unsweetened chocolate.

Miriam Beiler
New Providence, Pa.
Age 14

xxx

CRISPY CARMEL CORN

7 quarts popped corn
1 cup peanuts
2 cups brown sugar
1 cup margarine
½ cup white corn syrup
2 cups brown sugar
1 teaspoon salt
1 teaspoon vanilla
½ teaspoon soda

Measure into a sauce pan: brown sugar, margarine, corn syrup, and salt. Bring to a boil and boil five minutes. Remove from heat and stir in vanilla and soda. Pour over popped corn and peanuts which have been measured into a large container. Mix well and turn into two large cake pans. Put in the oven at 250 degrees F. for one hour. Stir occasionally. When corn is taken from oven, remove from pans onto sheets until it is cool enough to make into fine pieces. Store in tupperware bowl.

Sylvia Zimmerman
Myerstown, Pa.
Age 15

xxx

WHOOPIE PIES

2 eggs
1 cup lard
2 cups granulated sugar
½ teaspoon salt
4 cups flour
¾ cup cocoa
2 teaspoons baking soda
1 cup buttermilk of sour milk
¾ cup hot water

Mary Ann Beiler
Gap, Pa.
Age 12

xxx

DELICIOUS SUGAR COOKIES

8 eggs
3 pounds brown sugar
9 cups flour
1 teaspoon cream of tartar
3 teaspoons soda
1 quart buttermilk
1 teaspoon salt
1 pound margarine

Mix sugar and margarine, add eggs; mix the buttermilk well with dry ingredients. Spread carmel icing on top.

Mary Peachey
Newmanstown, Pa.

CHOCOLATE CAKE

2 cups cake flour
Two-thirds cup cocoa
1 two-thirds cups white sugar
½ teaspoon salt
1¼ teaspoon baking soda
1¼ teaspoon baking powder

Sift all above ingredients into bowl. Add:
1 one-third cups water
Two-thirds cup shortening

Beat till well mixed. Add:
1 teaspoon vanilla
3 eggs

Beat till well mixed. Bake at 350 degrees F.

Emma Glick
Quarryville, Pa.
Age 10

xxx

PUMPKIN CUSTARD PIE PUMPKIN PIE

2 cups cooked pumpkin
1 cup brown sugar
1 cup granulated sugar
8 eggs, separated
Cinnamon
6 tablespoons molasses
1 teaspoon vanilla
1 tablespoon flour
Egg whites, beaten (goes in last)

Mix all ingredients: sugar, pumpkin, egg yolks, molasses, flour. Beat egg whites until stiff. Mix above together. Stir in two cups milk, fill unbaked pie shells. Fill up with milk if not full enough. Makes a nice custard layer. Bake at 400 degrees for 10 minutes, 350 degrees F. for 45 minutes.

Annie Stoltzfus
Leola, Pa.
Age: 15

xxx

Pumpkin Pie

3 cups cooked pumpkin
3 cups granulated sugar
2 cups molasses
4 cups milk
6 eggs, separated
6 tablespoons flour
Sprinkle cinnamon over top

Cook pumpkin and put through a sieve. Add beaten egg yolks and sugar. Gradually add one cup of scalded milk to molasses. Add remaining milk to the sugar and eggs and mix together. Fold in stiffly beaten egg whites. Pour mixture into an unbaked crust. Makes four 9" pies. Bake at 425 degrees F. for 10 minutes. Reduce to 375 degrees F. for 30 minutes.

Delaware Co. Extension Holiday Festival Set

HAVERTOWN, Pa. - The Home Economice Advisory Committee of the Penn State Extension Service is holding its annual Holiday Festival on November 9th at the Ebenezer United Methodist Church, Eagle and Steel Roads, Havertown. The theme of the event, according to Maryetta Duffner, Extension home economist, is, "Sewing for the Holidays."

Exhibited and demonstrated will be all kinds of items which you can make. There will be gift items, holiday clothing, decorations for your home and household articles. In the afternoon each participant will make an ornament, which can be used to decorate a tree, lapel, or window.

Cost of the day is $3.50 which includes a luncheon, served by the ladies of the church, and the ornament.

Registration begins at 9:30 a.m. The program will end at 2:00 p.m. Parking is available at the church. To register, send a check for $3.50 made payable to DCES to Maryetta Duffner, Extension Home Economist, Toal Building, 2nd and Orange Sts., Media, Pa. 19063. The public is invited to attend.

Farm Women Societies

Lancaster Co. Society 14

Lancaster County Farm Women Society 14 met recently at the home of Mrs. Ellis Esbenshade, Leola. Mrs. Petters from LARC, program speaker, told about some of the needs of the mentally retarded.

During the business meeting, plans were made for the next meeting on November 10. Husbands and guests are invited to a Thanksgiving banquet at the Bird-in-Hand Restaurant. Dues were paid and the following donations made: Lancaster Co. Mental Health - $10.00; American Cancer Society - $10.00; United Way - $25.00; Goodwill Industries - $10.00; Multiple Sclorosis - $15.00.

The president reported on the Lanc. County Board Meeting. She reminded the group about the county convention on November 6 at the Farm and Home Center. Notice was given from Doris Thomas about the Annual Homemakers Christmas Program on November 8. Group 14 will have a display table. The history of Farm Women is being revised and names of charter members were corrected.

After the meeting a food sale was held. Refreshments were served.

Lancaster Co. Society 15

The monthly meeting of Lancaster County Farm Women Society 15 was held on October 21 at 7:30 p.m. at the Union Church social room. Hostesses were Dorothy Harvey, Martha Herr, Dorothy Johnson, Mary Boyce, and Nancy Boyce. Seasonal refreshments were served preceding the meeting.

Original, creative paper bag masks were worn by each, and were judged by Nancy Ambler, Mary Thompson, and Helen Bushong.

Ida Rinehart reported that a group, meeting with her each Wednesday for sewing, needed articles for the cancer society and patients. There is a special need for washcloth bedroom slippers and volunteers to help on November 17 in Lancaster from 9 a.m. to 4 p.m.

Kathryn Horner, president, announced the county convention will be held November 6 and that contributions are needed for the annual bazaar table in Lancaster. The prices should be marked on the items. Baked goods are preferred. The state convention will be held in Harrisburg on January 10 and 11.

Three new members were welcomed into the society. They are Barbara Herr, Rhea Haverstick, and Charlotte Stoner. A craft exhibition and sale will be held at the November 18 meeting.

The nominating committee chairman, Elma Mark, reported the following nominees - Mrs. Dorothy Johnson, president; Mrs. Kathryn Wagner, vice-president; and Emily Reath, corresponding secretary. All were elected to be installed in January of the coming year.

who finances tons?

We do. The Farm Credit System. Millions of tons of meat, grain, fruits, melons, berries, other crops that move from the farm, ranch, or orchard into storage, processing and marketing by farmer cooperatives. We're the Production Credit Associations, and Federal Land Banks. Owned by and operated for the benefit of farmers and growers.

Working mothers can meet children's mealtime needs

SOUTHAMPTON, Pa. - Mealtime planning is a problem in many households where mother plays the dual role of homemaker and breadwinner. According to the latest Census Bureau report, 58 percent of working women are married. That means that more than 21 million women work two full-time jobs. Of these, nearly half have children under the age of 18 at home.

Unfortunately, with both parents working, preparing balanced meals each day is a demanding challenge for mothers. Overlapping working hours may prevent parents from being home at mealtimes. And children are often involved in school or community activities that complicate their schedules, too.

Because of this, nutritionists suggest that you evaluate your home situation to see how well your mealtime patterns fit the needs of all members of the family.

For instance, some people cope by planning meals a week at a time. Much of the preparation can be done on weekends or during the evenings. Then, a note on the refrigerator door can let everyone know what is on the menu.

Working mothers can get the day started right by preparing a hot breakfast. Bacon and eggs or cooked cereal topped with milk are worth the extra minutes they take to prepare. Even if mother is counting her calories, she still needs an adequate breakfast. A small serving of what the kids are having helps even the dieters. It reduces the temptation to splurge on empty-calorie snacks during morning breaks.

If your children "brown bag" it, see that they have a protein-rich sandwich or two. Lunchmeat and cheese are good separately or together. Crisp vegetables and a fruit dessert help to provide many of the vitamins and minerals growing kids need. Encourage them to have a carton of milk to provide the calcium so essential for teeth and growing bones.

The after-school rush to the refrigerator meets a very real need. A look at a chart of recommended daily dietary allowances shows, for example, that a 14-year-old boy needs 3,000 calories a day - compared to mother's 1,850. The kids will like milkshakes from the blender. Vegetable strips with a sour cream dip and a variety of fresh fruits also make nourishing snacks.

And if you're not going to be home during the dinner hour, jot a brief schedule on the note you've put on the refrigerator. "Main dish in 350 degrees oven - 5:30. While it heats, get out a package of frozen vegetables. Follow package directions. Take the molded fruit salad from the refrigerator. Main dish ready at 6:00. Dessert - brownies and ice cream."

Such a meal may not offer the togetherness of a family gathering, but it covers the nutritional bases. Try to regain personal closeness with a family chat during the evening. That way you won't be short-changing your family while earning your dairy bread.

National Grange convention

Women's activities slated

ATLANTIC CITY, N.J. - Women of the Grange will be honored at a Women's Activities Banquet, Thurs., Nov. 11 at the Sheraton-Deauville Hotel in Atlantic City, New Jersey. The national farm organization is holding its annual convention here, Nov. 8-15.

Mrs. Jenny Grobusky, director of Women's Activities, said approximately 250,000 women belong to the Grange and "they are all actively engaged in numerous projects to benefit the home, Grange and community." One of their primary projects this year was the publication of a National Grange Bicentennial Year Cookbook. Through their sales efforts they earned approximately $300,000 for the National Grange and $175,000 for local Granges. The profit for the National Grange will retire the remaining mortgage on the Grange's headquarters building in Washington, D.C.

The women will also be recognized for their volunteer work and fund-raising efforts for charitable organizations, sponsorship of the National Grange Health Project for the Deaf, promotion of sewing, needlework and quilt contests and planning of conferences and workshops.

Hundreds of needlework items will be on display and judged during the annual session. National winners and their sponsoring Granges will receive thousands of dollars in cash prizes from Coats & Clark, Inc., co-sponsor of the annual National Grange Needlework Contest.

The items on display are first place state Grange winners in three categories: crocheting, knitting and embroidery. A panel of professional needlework judges will select the national winners and the official announcement will be made at the Women's Activities Banquet.

In addition, the National Grange and Fairfield Processing Corp. (makers of Poly-fil) co-sponsored a Quilt Contest from Sept. 1, 1975 to May 30, 1976. Quilts winning first place in each state will be on display at the convention. Three national winners will be selected and awarded $1,000 and $500 U.S. Savings Bonds.

The Grand Award Winner of the country's largest general sewing contest will be announced.

The winner will be selected from the four first place national winners announced earlier this year. They are Mrs. Virgil Raggow, Garber, Okla., Miss Diane Detering, Harrisburg, Ore., Mrs. Claude Vaillancourt, Clinton, Mass. and Mrs. Edna Couture, Morrisville, Vermont. All four national winners will model their winning entries at the Women's Activities Banquet, Nov. 11 at the Sheraton-Deauville Hotel.

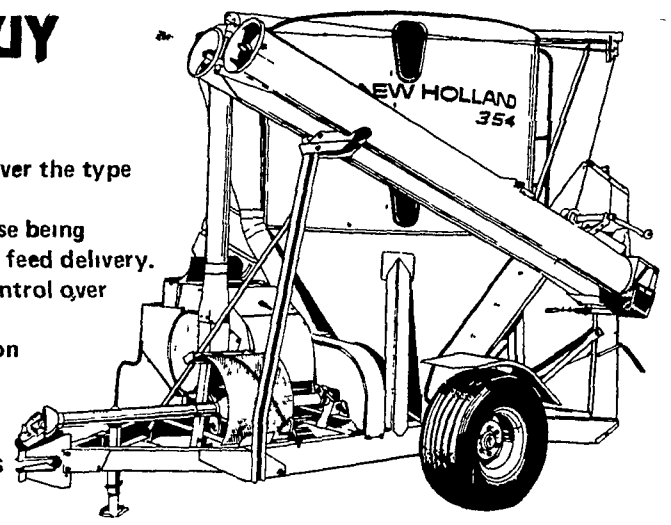
SPERRY NEW HOLLAND WANTS YOU TO KNOW
WHY YOU SHOULD BUY A GRINDER-MIXER!

1. Convenience — You have complete control over the type of ration you desire!
2. Disease prevention — No worry about disease being brought to your farm by a custom operator or bulk feed delivery.
3. Good quality feed — You have complete control over ingredient quality and quantity!
4. High return on investment — Save money on labor, feed costs, and transportation charges. Save on supplements by buying in larger quantities.



Stop in and we'll show you why more farmers choose Sperry New Holland Grinder-Mixers.

Ida's Notebook

Ida Risser

Halloween is a time for fun. From the time of my youth, I remember it as an opportunity to get away from my parents stern discipline and have one night out with the other children of our small village. It was also an opportunity to meet some of our neighbors as we went into their homes for refreshments.

The costumes weren't important as you could throw corn grains on the porches and then run and scream in any old outfit. But this year our children agonized over what to wear to two different parties. As a starter they tore up two sheets into narrow strips to be wound around as a Mummy costume.

However, at the last minute it was discarded in favor of an old tramp's outfit and a fat farmer get-up. As I may have mentioned before, one year my two older boys made a frame, covered with a spotted sheet, and went as a Holstein cow. It was the hit of the party.

xxx

Recently I traveled with a big busload of eighth graders to the Hagley Museum and Eleutherian Mills in Delaware. The museum has many exhibits showing early American industrial history and tracing it through manufacturing in the early 20th Century.

The mills constructed by the DuPonts in 1802 manufactured black powder used in explosives. The heavy granite walls on three sides of the buildings with a fourth side and roof lightly built in order to vent the blast force of accidental explosions toward the Brandywine Creek, were very interesting. Many lives were lost in this dangerous business but it is said that DuPont provided for the surviving families.

New education program for nutrition set

ROSEMONT, Ill. - Participants in the 50th Anniversary Convention of the American School Health Association were told of a new consecutive, sequential nutrition education program which will bring nutrition into the classroom from kindergarten through 12th grade. Mary Hughes, PH.D., of the National Dairy Council, described the K-12 Project to the ASHA audience in New Orleans on October 8.

Dr. Hughes, NDC's K-12 project coordinator, said that the program reflects the thinking of the nation's top education experts, studies done by the Society for Nutrition Education and Dairy Council, reports from the Senate Select Committee on Nutrition, the White House Conference, and input from representatives of affiliated Dairy Council units nationwide. The program offers the latitude to satisfy the teacher's various needs, and can be integrated with other subjects in the curriculum.

The K-12 Program is aimed to bring nutrition out of the realm of memorizing nutrients and deficiency states and into the personal lifestyles of students. Dr. Hughes promised it would be authoritative, interesting, and relevant.

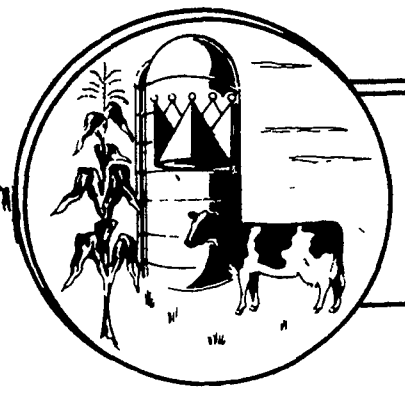
The first phase of the program, K-6, is now being tested in 19 sites across the country, and will be available for general use next fall.

Fretz wins certificate

Sarah H. Fretz, 14-year-old member of the Lehigh County beef and heifer club was recently awarded the certificate of achievement offered by the National Angus Auxiliary.

This program was started to honor outstanding young ladies in the area of breeding fitting, and showing Angus cattle. The achievement must be the result of competitiion in the catagories of steer or breeding cattle, showmanship, judging, scholarship finalists or winners in any other competition relative to Angus cattle.

Sarah has a herd of five purebred Angus cows. In 1975 she entered a bull calf bred and owned by her in the Pa. State Bull Test Station. The bull went on to test first of all Angus bulls on test for that year. He was sold that March at the annual Bull Sale for $700.



AGRI-KING

KEY TO PROFIT

Dr. Warren Bonhoff
Director of Nutrition - Veterinary Consultant

Why The Agri King Program?

The following quotation was written by a concerned supervisor in the March-April Edition of "The Northeast Improver". "Why will some dairymen have forage samples analyzed, and then not do anything about the results? I just heard from a neighbor about one of my dairymen who had several cases of acetonemia. I had checked out his minerals, he was high in calcium, low in phosphorus, and very low in magnesium. Believe it or not, now he's looking at his reports and doing something about them"! This story could have been written by many, and in all sections of the United States. To help prevent metabolic diseases, obtain increased production, and utilize feeds most efficiently, does require laboratory analyses, then formulating rations based on these facts. When this is done, it doesn't mean it's right for two years, or two months, or even two weeks. Oft times, roughages are changed in short periods of time and to utilize test results correctly requires the formulation of a balanced ration whenever these changes are made.

The following hay samples are indicative to illustrate the significance of test variations and their affect on a balanced ration.

Test Results Of Four Hay Samples

	No 3113	No. 3110	No. 3098	No 3079
Protein	10 73	12 52	15 68	20 75
Calcium	45	1 11	1 79	1 77
Phosphorus	27	21	25	30
Magnesium	11	12	38	35

Based on these analysis and hay being the only roughage fed, the following rations were recommended, based on Holstein cows averaging 1400 lbs. and producing 50 lbs of milk

	No. 3113	No. 3110	No. 3098	No 3079
Hay	26 0 lbs	26 7 lbs.	26 6 lbs.	29.0 lbs
Grain Ration	20.0 lbs	19 3 lbs.	19 4 lbs	17 0 lbs

Grain Ration Formulas With Hay Sample Numbers

	No. 3113	No. 3110	No.3098	No. 307
Shell Corn	1625 5	1763	1916	1932
44% Soybean Meal	265	165	20	
Monosodium (26% Ph)		12	43	42
Di Cal (18 5%ph-21% CA)	24	19 5		
Calcium (38%)	43			
Salt	13	10 5	3	5
Key-Min-R	13 5	13 5	1 5	2 5
Dairy Multi-Factors	16	16 5	16 5	18 5
	2000	2000	2000	2000

These hay analyses are of common occurrence and actually occur on the same farm within the same year. Is it any wonder that serious problems exist on many dairy farms today, especially considering the increase in production per cow, yet still feeding similar to what was done in previous decades?

If one had the previous hay samples, wouldn't it be difficult to choose a protein, calcium, phosphorus, and magnesium level to possibly "balance a grain ration." The odds would be astronomical, in fact it couldn't be done. Yet it's being attempted every day. So we go on accepting the hypocalcemias (milk fever), ketosis, retained placentas, mastitis, foot problems, breeding problems, grass tetany (magnesium deficiency), etc.; as partners for being in the profession of dairying.

No, providing good balanced nutrition will not prevent all metabolic diseases but they certainly can be reduced. Dairy specialists state that eighty to ninety percent of all diseases are directly related to nutrition. This statement certainly appears valid, yet today what percentage of livestock producers or others related to the subject of nutrition are sufficiently devoted to do the best possible.

Now, and in the future laboratory analyses of roughages and grain are going to increase. Don't stop there; the results are interesting but of very little value unless these analyses are used honestly and diligently in the formulation of a complete balanced feeding program.

Agri King is unique in the fact that we have an excellent computerized program that does put together the roughage analyses and information to accomplish the results a dairyman is seeking —

Bensing, Rittle outstanding Lebanon 4-H'ers

The planning committee, who helped coordinate the Lebanon County 4-H Achievement banquet last Sunday evening, get together for a brief discussion. From left to right they are Maxine Noll, Robert Bensing, Jr., Bruce Hellerick, and Ken Hoke. With them is Patricia Krall, Lebanon County 4-H agent.

LEBANON, Pa. - Over 150 4-H members, leaders, and parents were present last Sunday evening to honor the achievements of county 4-H youth. The 4-H awards program was held at the Zoar's Lutheran Church in Mt. Zion.

Certificates, pins, ribbons and premium checks were awarded by Patricia A. Krall, Extension 4-H agent and Cheryl A. Reitz, Extension home economist. Also assisting with the program were Maxine Noll, Robert Bensing, Kenneth Hoke, and Bruce Hellerick.

Named as Outstanding 4-H Boy was Robert Bensing. Karen Rittle was named the Outstanding 4-H girl.

Robert Bensing, Jr.

Bensing, who is the 18-year-old son of Mr. and Mrs. Robert Bensing, Sr., 701 Klein Avenue, Lebanon, has quite a record of 4-H achievements. He has been a member of the Happy Trail Riders 4-H horse club for four years and has held the office of news reporter in the club. He has also belonged to the Norsolebco Community Club for six years in which he has held the offices of president, news reporter, historian, and treasurer. His projects in the club have dealt with leadership, outdoor flowers, forestry, design with line, plant propagation and dried arrangements, and vegetables.

Bob's other involvement in Lebanon County 4-H is through the Lebanon County Teen Council of which he is president. This year, the teen council was responsible for planning County Olympic Day, and the multi-county picnic. The council also tried for an exchange trip to Ohio, which unfortunately, was unable to be worked out. Bensing worked for three years in this group.

Bob's record is the most impressive, however, when it comes to state and national competition. He began winning his laurels at State Achievement Days in 1974 and has done it consecutively since. Back two years, his flower judging team won first place in State Achievement Days and he was tie for second highest individual. Then, in 1975 he was a member of the horticulture judging team at Penn State which took second place, while he, himself, was the first place high individual. That year he also went to national competition in Biloxi, Mississippi, where he was a national winner, taking fifth place out of 98 contestants in the open division.

And, this year, his performance hasn't let up. Bob was a part of the newly created vegetable judging team at Achievement Days where he placed second high individual, and his team placed third.

With those past successes, one might think Bob had "done it all" but he is intending to stay in 4-H one more year. And, at present, he has another competition on which he has set his sights. This week, the National Junior Horticulture Association is holding their annual convention in King of Prussia, and Bob will compete.

At present, Bob is a freshman at Penn State University, Berks Campus, where he has an ag-business major. After he completes this associate degree, he hopes to go on for a degree in agriculture education.

Other Awards

Receiving Teen Leadership certificates and pins for the Unit 1 leadership project were: Brett Eberly, Susan Heilinger, and Scott Morgan from the Fort Zellers 4-H Club; Scott Morgan from the Fredericksburg 4-H Club; David Noll, Mike Noll, and Sandra Shank from the Happy Variety 4-H Club; Holly Kneasel, Kevin Hoke, and Beth Troutman from the Norsolebco 4-H Club; Sue Bomberger, Lisa Kauffman, Linda Sellers, and Brian Wenger from the South

Mountain 4-H Club; Sharon Brubaker from the Elcoettes 4-H Club; Sheila Callaway, Scott Duffy, Cindy Morton Scott Daubert, and Debra Dubble from the Annville Little Dutchmen 4-H Club; Amy Balsbaugh from the Myerstown Raiders 4-H Club; Brenda Parks, Paul Miller, and Andrea Emerich from the North Cornwall Trail Blazers 4-H Club; Ken Arnold, Patrick Arnold, Vincent Arnold, and Eugene Hoffman, Jr. from the Elco Dairy Club; Kelly Sue Dechert, Lori Rothgaber, William Kelinfelter, and Harry Kelinfelter from the Southwest Playground 4-H Club.

The leadership Unit 11 project award winner was Debra Kreider from the South Mountain 4-H Club.

Leadership Unit 111 project award winners were: Maxine Noll from the Happy Variety 4-H Club; Keith Guindon, Kathy Hoke, Robert Bensing, and Jim Connor from the Norsolebco 4-H Club; Connie Horst from the Elcoettes 4-H Club; Karen Rittle from the Avon-East Lebanon 4-H Club; and Julia Woods, and Cynthia Woods from the Annville Little Dutchman 4-H Club.

Recognized as Keystone Award Winners at the state level were: Connie Horst, dairy foods and foods and nutrition; Kathy Hoke, dog care and training; Karen Rittle, home environment; Robert Bensing, forestry, and Richard Krall, dairy and petroleum power.

County Medal winners in the national awards program were: achievement - Richard Krall, Cedar Crest Dairy; agricultural - Patricia Roof, Michael Noll, and David Noll, Happy Variety; and also Robert Bensing, Norsolebco Club; automotive - Michael Noll, Happy Variety Club; clothing - Karen Rittle, Avon East; Norma Zuck, Falcons, and Michelle Hall, 4-H Palms; conservation of natural resources - Patricia Roof and Maxine Noll, Happy Variety Club; Kenneth Hoke, Norsolebco and David Guindon, Norsolebco; consumer education - Dyan Hale, Falcons Club; dairy - Richard Krall, Cedar Crest Dairy and M. Jane Bomgardner, NoSoAnn Dairy Club; dairy foods - Connie Horst Elcoettes Club; dog care and training - Kathy Hoke, Norsolebco Club.

Other county national awards winners were: electric energy - Michael Noll, Happy Variety; entomology - Bruce Hellerick, Happy Variety; food nutrition - Connie Horst, Elcoettes; Karen Rittle, Avon East Lebanon; and Norma Zuck, Falcons Club; forestry - Robert Bensing and Kenneth Hoke, Norsolebco Club and Patricia Roof, Happy Variety Club; gardening - Robert Bensing and Kenneth Hoke, Norsolebco Club, and Patricia Roof and Maxine Noll, Happy Variety Club; health - Thea Guindon, Norsolebco Club; home environment - Karen Rittle, Avon East Lebanon Club; Dyan Hale, Falcons Club, and Thea Guindon, Norsolebco Club; home management - Dyan Hale and Norma Zuck, Falcons Club and Thea Guindon, Norsolebco Club; leadership - Ken Hoke, Norsolebco; Maxine Noll, Happy Variety; Richard Krall, Cedar Crest Dairy and Karen Rittle, Avon East Lebanon Club; petroleum power - Richard Krall, Cedar Crest Dairy Club, and Michael Noll, Happy Variety Club; Photography - Maxine Noll and Elizabeth Arnold, Happy Variety Club; Woodworking - Michael Noll and David Noll, Happy Variety Club; and David Guindon, Norsolebco Club.

County Dress Revue winners were also recognized. Those in the senior division were: Lenore Kreiser, Beth Troutman, Dorothy Bemesderfer, Lisa Yordy, Jane Bomgardner, Debbie Dubble, Beverly Hale, and Cynthia Woods.

County dress revue winners in the junior division were: Wendy Bowman, Norma Zuck and Rosella Krall.

Receiving premium checks for their participation in the Pennsylvania 4-H Junior Dairy Show were: Brenda, Elaine, and Diane Maulfair, Patti Heilinger, Gary Mase, Dale Smith, William Hoffman, Connie Horst, Deborah Lentz, Dale Weaver, Richard Krall, Gary Reist, Rick Horst, Eric Blauch, Dean Moyer and Carl Weaver.

Awards were also presented to 4-H dairy members that recently participated in a state-wide dairy judging contest. Receiving awards were: Vincent Arnold - 5th high individual, Jane Bomgardner - 8th individual. Others participating were Patrick and Kenneth Arnold, Kirby Horst, Ray and Dean Moyer.

Present to be recognized for their participation in the district horse show were: Colleen Carvalho, Susan Englebright, Kathryn, Ann, and Donna Lansberry, David and Margot Leroy, Lori and Karen Yingst, Dawn Graby, Peggy Stoudt, Kim Musheno, Grace Morrissey, Jennifer Wunderlich.

Receiving premium awards for their participation at state achievement days were: demonstrations - Melissa Weaver, Tammy Smith, Sharon Brubaker, Cynthia Woods, Dave Guindon, Scott Morgan, and Bev Hale; flower judging - Jim Connor, Bruce Hellerick, and Lenore Kreiser; horticulture judging - Jim Egnor, Maxine and Michael Noll; vegetable judging - Bob Bensing, Ken and Karl Hoke; clothing judging - Wendy Bowman, Dyan Hale, Dorothy Bemesderfer; consumerama - Amy Balsbaugh, Kathy Hoke, Debra Gingrich, Thea Guindon; consumer presentation - Connie Horst and Kim Balsbaugh.

The physical fitness team received certificates, and achievement award rosettes. Receiving awards were Tom Minnich, Jessie Heilman, Jackie Wilson, Gail Stoudt, Albert Maya, Carol Cadwallader, Rodney Weddington, Kelly Lauer, Daryl and Kevin Boltz.

The regional junior demonstrators who were awarded 4-H bronze pins were: Megan Connor, Shirl Kneasel, Karen Hoke, Richard Paine, and Michelle Noll.

Richard Paine of the South Mountain 4-H Club presented his demonstration "The Fantastic Four."

Table decorations were done by Melissa Weaver, Happy Mountaineers; Amy Balsbaugh, Myerstown 4-H Raiders, Bruce Hellerick, Happy Variety; and Sarah Smith, Ebenezer Friendly 4-Her's.

Hearts tested

LANCASTER, Pa. - There will be a heart screening program conducted at the Greek Orthodox Church, 64 Hershey Avenue, here, on November 16 and 17.

Anyone between the ages of 18 and 65 with no previous knowledge of heart disease is eleigible to be tested. The screening includes a brief family history recording height and weight, a blood pressure reading, a blood sample test and an electrocardioanalyzer test which detects any irregular heart pattern or rhythm. The entire screening will take about 15 minutes.

Cost is $2.00 per person which covers the fee for processing the blood samples at a local hospital laboratory.

Interested persons must make appointments. Taking the appointments for this screening will be Rosie Bertz from the East Petersburg Women's Club. She should be contacted between 9 a.m. and 4 p.m. on Thursday and Friday, November 4 and 5 by calling 569-5045 to set up your appointment.

What makes hot dogs doggier and chocolate chips chippier? Milk does, says American Dairy Association in its new pool of three TV commercials for milk. The 30-second animated spots focus on milk used as a natural complement to favorite foods and urge mothers to serve more milk to their families. These scenes from two of the new commercials, "Milk does" and "Berrier" show kids enjoying milk with the foods they like best. The commercials are scheduled to run from October 1976 through April of 1977.

Inspection fees raised

NEW YORK, N.Y. - The U. S. Department of Agriculture announced increased fees for voluntary grading and inspection services for fresh and processed fruits, vegetables, nuts, and related products. The new fee schedules became effective Oct. 24.

Officials of USDA's Agricultural Marketing Service, which administers the inspection and grading services, said the higher fees are necessary to offset additional operating costs, including salary increases authorized by Congress.

Under the new fee schedule, all regular commercial inspection fees for fresh fruits and vegetables will be increased by $2 per lot and the hourly rate will be increased from $13 to $14. Inspection fees for processed fruits and vegetables will include an increase in the regular hourly rate from $17.40 to $18.45. Commensurate changes have been made in other fees involved. Inspection is authorized under the Agricultural Marketing Act of 1946. Inspection and grading services are voluntary and made available upon request of financially interested parties. The Act requires fees for service to be reasonable and, as nearly as possible, to equal the cost of rendering the service.

Brighten home with dried flowers

UNIVERSITY PARK - To brighten a home during dreary winter days, try decorating with dried flower and plant arrangements.

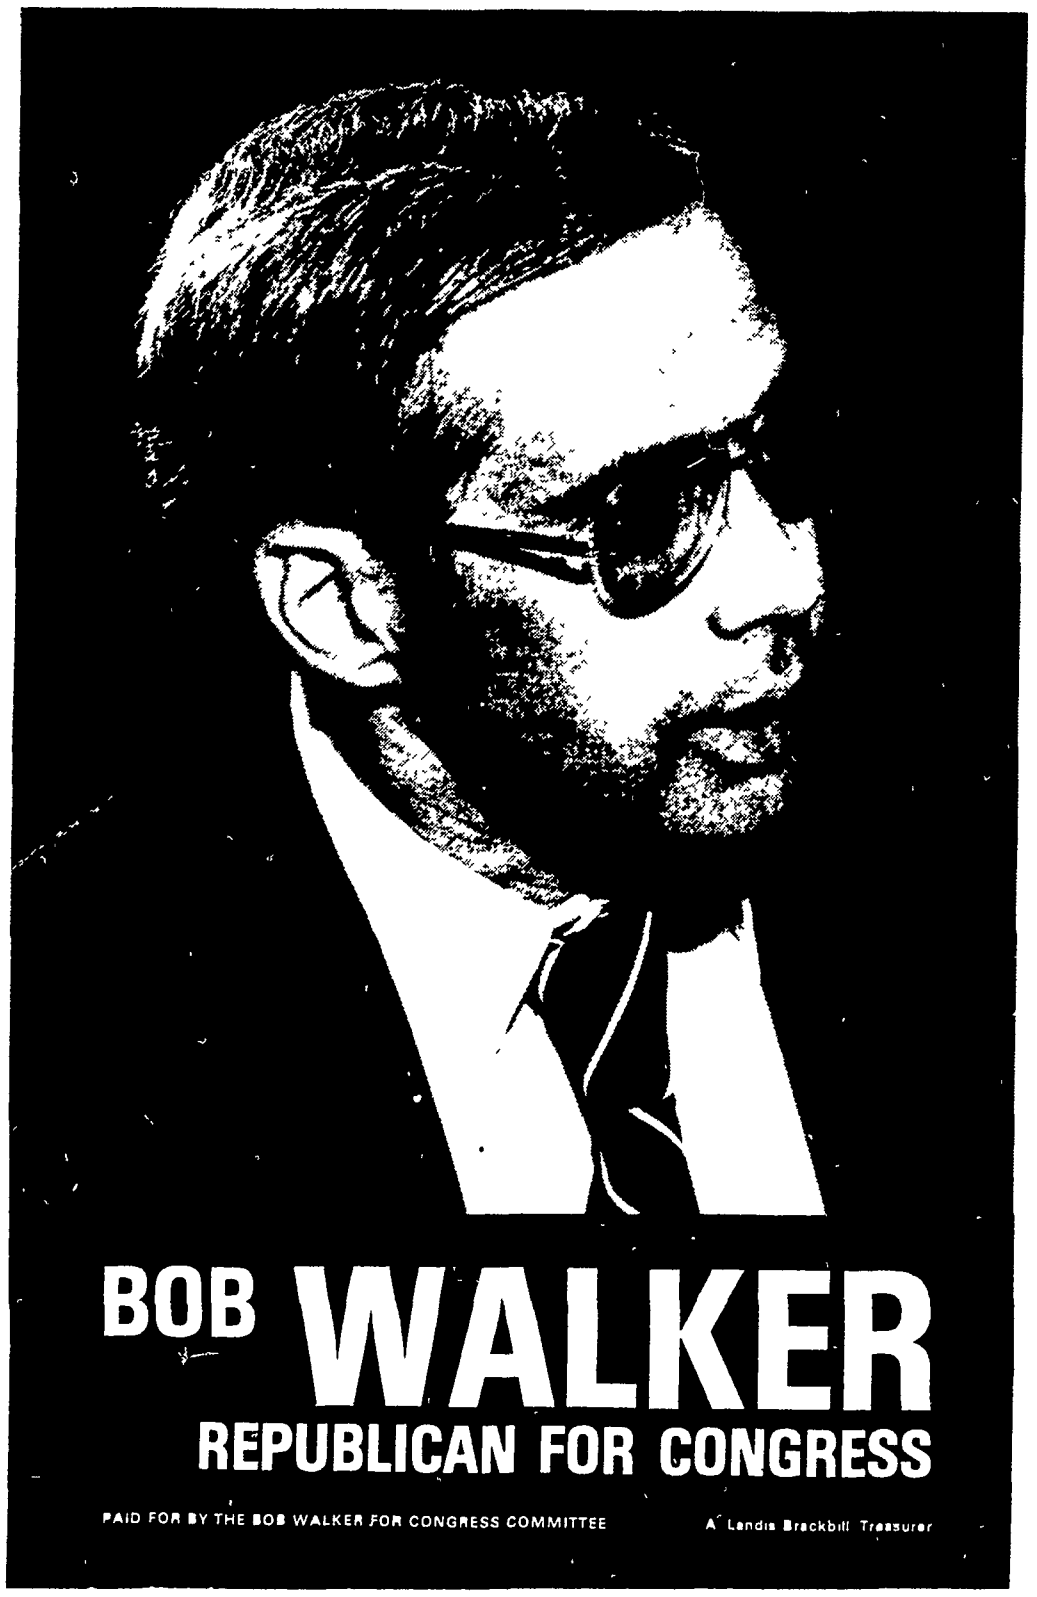
The size, pattern, and color of the container are important when making such arrangements. The container should never overshadow the plants - the plants should be the center of attention.

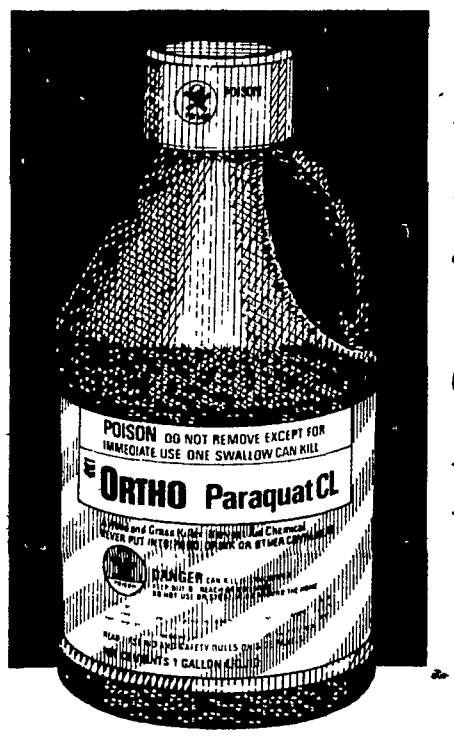
The shape and size of the container indicate the type of arrangement best suited to it. Oval or round shapes are best for circular designs, while tall containers look best with vertical lines.

Many inexpensive containers can be found around the home or made from unusual objects. Consider kitchen utensils such as chopping boards, wooden cutlery boxes, butter bowls, earthenware jars, crocks, kettles and jars.

All types of baskets, pitchers, canisters, black iron pots and many kinds of pottery containers are also good for holding arrangements. Most metals such as brass, pewter, iron, aluminum and bronze also make attractive containers.

Also, think about where the arrangement will be placed and the type of plant material that will be used when choosing containers.





It's time to plant a cover crop right now.

A fall cover crop makes so much sense. First, you can prevent excessive erosion problems. Second, you conserve valuable soil moisture. And third, you have the option of planting No-Tillage next spring. You simply burn off the fall cover crop with ORTHO Paraquat CL herbicide and plant right into the stubble. For best results, apply Paraquat with ORTHO X-77 Spreader. Why not come in for a chat.

News - Nutrition

From Pa.'s Dairy Princesses

By Peggy Staub
Pa. Dairy Princess
from Cumberland Co.

Milk as one of our agricultural products, demands a lot of attention when we handle it. To preserve milk in its' wholesome natural state, practice the three C's of milk care. Dairy farmers and consumers will find it important to follow these three rules of thumb. First, to insure the quality of milk, keep the temperature around 40 degrees F. Constant cold temperatures keep milk flavor fresh. Secondly, rotate your supply of milk and use the earliest milk first. Circulation of milk enables milk to be current. Finally, keep milk covered so it does not absorb food odors and flavors inside the refrigerator. This also helps to keep milk clean from food particles. Follow these guidelines and milk will be fresher for you.

When food shopping, remember to plan your shopping route and pick up milk and dairy products just before entering the check-out area, so upon arriving home your purchases will still be cold and fresh. An important item to consider is to do your errands first and return home promptly after food shopping to refrigerate your milk and dairy products. These tips will make you a better shopper.

With milk and dairy products you get "a lot for a little". In 1975 dairy products (except butter) supplied three-fourths of the calcium in the American diet; 34.7 per cent of the phosphorus; 39.8 per cent of the riboflavin; 22 per cent of the protein; 21.1 per cent of the magnesium; and 19.8 per cent of the Vitamin B. All of this was supplied, while at the same time, only 11.4 per cent of the calories were furnished. So milk is a nutritional and economical food for today's active people - "Milk is a Natural."

Store mature onions at room temperature, or cooler, in loosely woven or open-mesh containers. Stored this way, they will keep several months. They sprout and decay at high temperatures and in high humidity.

Disaster assistance boosted

WASHINGON, D.C. - Acting Secretary of Agriculture John A. Knebel has announced revised rules that will allow farmers and ranchers to borrow more money at low emergency interest rates to cover losses caused by natural disasters.

The changes offer farmers and ranchers additional assistance through Farmers Home Administration emergency loans.

Farm emergency loans are made to cover the actual loss and they are repaid at an interest rate of five per cent. Additional credit needed to restore production to pre-disaster level is extended at higher rates prevailing in the private market for comparable credit. Losses normally are determined by measuring actual production on a disaster-damaged farm against average yield of that farm.

The new provisions include:

1. A farm's production of crops or livestock will be figured as the average of its four high years out of the five years immediately preceding the disaster. This allows a farmer to throw out the worst year of the past five (often a disaster year). Up to now, all five years were used in computing the average production.

2. A farmer may use the county's Crop Reporting Service average for four out of the five years immediately preceding the disaster in establishing his expected annual production of a crop not sold for cash. This allows a farmer to establish a norm for feed production even if he has not kept records on his farm because he used his feed crop to feed his own livestock. Also, a farmer who keeps his own record may base his production average on that record, if the average shown would exceed that for the county as a whole.

3. For any year within the five preceding a disaster that the farmer lacks crop or livestock production records, he may substitute the figure for the lowest production year for which he does have records. If he has no record for any of the five years, he may use the county's Crop Reporting Service average.

In any substitution, the farmer must certify that records for his own farm are not available.

4. Farmers who have applications pending or have received loans covering disaster losses that occurred during the 1976 crop year may have their losses reconsidered under the new provisions announced today. Requests for such recalculation should be made at the county Farmers Home Administration office.

Loans are made through county offices of the Farmers Home Administration, usually located in county seat towns. Office locations are listed in telephone directories under U.S. Government.

Agway grants $27,000

SYRACUSE, N. Y. - Agway Inc. awarded $27,000 in grants-in-aid to northeastern universities at a college dairy conference held here October 19-20.

It sponsors the conference each year to bring university researchers together with industrial and agricultural experts to discuss current trends and research findings in the dairy business.

Keynote speaker at the conference was E. C. Meyer, managing editor of "Horard's Dairyman." He discussed the importance of the university in communicating and responding to the needs of the dairy industry.

Agway and university personnel made presentations to seventy-two attending researchers and educators.

Following the business meeting on Wednesday, many of the conference participants visited the Agway farm research center in Tully, New York where several dairy research projects are in progress.

Change in farm policy direction and implementation called for

SYRACUSE, N.Y. - John C. York, General Manager of the 8000 dairy farmer-member Eastern Milk Producers Cooperative, has urged that everyone engaged in agriculture must immediately get a commitment from all candidates running for political office to support a new agricultural policy implemented on a regional basis. York has called for such a program.

In issuing the request from Eastern's headquarters here, York stressed that the program should be one which will return to agricultural producers their costs of production plus a reasonable profit. He charged that farmers are the last to see their income rise and the first to see it decline - the first to see their costs of production climb and the last to see them fall. Such a whipsaw squeeze, he noted, has been the history of agriculture and it must now be changed.

"Agricultural producers are entitled to at least that amount of income afforded other segments of our economy, whether it be labor or industry," York commented. Currently, he said, Class I (fluid) milk prices have dropped in the New York - New Jersey Federal Milk Marketing Order from $11.39 per hundred pounds in October to $10.86 in November and estimated $10.60 in December. The same relationship holds true in the other Orders throughout the Northeast.

Normally, these prices are rising at this time of year, York noted. He said that this price turn-around is occuring in the face of predicted signs of inflation and climbing farm costs.

The Co-op leader said farmers should not be encouraged to over-produce, but should be encouraged to produce to fit the needs of the market. Over-production, he said, creates more disorder, causes farm prices to fall, and eventually is costly to farmers themselves. "No other industry carries on such a foolish program, and the government should be required to prevent agricultural producers from undermining their own industry," York charged.

Best estimates available conclude that 1977 milk prices are likely to be less than average prices in 1976, he noted. On the other hand, he said, inflation goes on and costs of production continue to spiral. A new direction in our national pricing policy for agriculture, York stressed.

Eastern's general manager then suggested what should be done, saying "The first order of business would be to require the Congress of United States to amend the Agricultural Agreement Act setting a new farm pricing policy predicted on a formula that would reflect cost of production and a reasonable profit. This would once and for all eliminate the confusion and the unfortunate interpretations that are being made that the Agricultural Agreement Act provides a minimum price to farmers. The Act should be made crystal clear that the price should reflect, first of all, the cost of production and a reasonable profit to be adjusted by supply and demand conditions. Such a new pricing policy could then be implemented within the various milk marketing orders throughout the country. It would be a reasonable price, a fair price, and a price that would sustain the dairy industry to the interest of the total economy of the country."

"It is not too late yet, said York. The challenge is before every agricultural leader." Let us not allow our politicians to escape or become elected with no commitment to a sound pricing policy basis for agriculture. That price should be no less than what other segments of our economy are assured, he concluded.

Society 9

Berks. County Society of Farm Women, Group 9 held their October meeting at the home of Mrs. Pat Haas with nine members and one guest present.

Christmas presents for the Hamburg State School will be purchased by Mrs. Sue Hendricks and Pat Haas before the November meeting.

Plans were also made for the group's annual Christmas party to be held Saturday, December 11, at Sunnybrook, Pottstown.

Group 9 will sponsor a hoagie sale on Saturday, October 23. Hoagies will be made at the U.C.C. Church, Amityville.

Poultry restrictions urged

New York, N.Y. - The threat of exotic Newcastle disease, which could be introduced into the U.S. by imported poultry, birds or products, was the main topic of concern to the Advisory Committee on Poultry Health of the U.S. Department of Agriculture (USDA).

The 16-member committee, representing consumers, the pet bird industry and all facets of the poultry industry, took a strong stand about possible movement of foreign poultry diseases into the United States and urged USDA to take stronger measures to insure the safety of domestic poultry, pet and game birds.

The committee met Oct. 5, at the Hyattsville, Md., offices of USDA's Animal and Plant Health Inspection Service (APHIS). To protect American birds, the committee recommended that USDA discontinue allowing individuals to bring in caged pet birds without the birds going through a USDA supervised or operated quarantine station to make sure that they are healthy.

The committee also recommended that USDA continue the inspection of all travelers and their baggage coming from Puerto Rico until steps can be taken to eradicate exotic Newcastle disease from that Island.

Turning to domestic poultry health problems, the Committee urged USDA to request funds to adequately operate its programs to control mycoplasmosis and disease investigations of turkey and chicken flocks.

Committee members asked that Customs Service officials be invited to the next Committee meeting to report on actions being taken to stop the smuggling of cage birds into the United States.

Subcommittees were formed to study specific problems. These problems will be acted upon by the full committee at its next meeting, scheduled for April 1977. This was the first meeting of the Committee, so about half the time was devoted to acquainting committee members with actions and regulations used by USDA to protect the $6 billion poultry industry from foreign and domestic poultry diseases.

Many rich cheeses will not crumble when cutting if you heat your knife in boiling water.

Meat gravy too salty? Drop a piece of raw potato in it for a few minutes before serving.

HERE'S THE CORN VORIS VIGOR-PROVEN

V-2672 - 125 Day Maturity
NEW big eared, rugged single cross where the summers are hot and long. Lots of disease resistance.

V2642 - 119 Day Maturity
A Champion. Short-stalked, upright leaf, with a really high yield and potential. Moderately high population

V2562 - 113 Day Maturity
Tall, stiff stalk, excellent standability, good disease resistance but most of all an outstanding yielder.

V2442 - 103 Day Maturity
Best adapted to combine harvest, very healthy hybrid but fast drying. Excellent standability compared to other hybrids in its maturity class. Top yielder.

V2402 - 102 Day Maturity
Large, long ears tolerates high population very well, will sucker under excellent early growing conditions

V2382 - 99 Day Maturity
95 day hybrid of excellent dependability, very stiff stalk, large ears Excellent seeding vigor.

Pesticide law modified

WASHINGTON, D.C. - The Environmental Protection Agency has provided farmers and ranchers with a simple way to combat insects and other pests not listed on the labels of EPA-approved products without violating Federal pesticides law.

Under the 1972 Federal pesticides law, it is illegal to use a pest control product "in a manner inconsistent with its labeling." Strictly interpreted, this could mean that if a pest - be it bug, rodent or weed - is not named for treatment in the labeling of an EPA-registered product, a person could run the risk of violating the law by using the product against the pest.

But EPA Assistant Administrator for Enforcement Stanely W. Legro said, "Congress intended that EPA exercise certain discretion in permitting pesticide applications that are in no way harmful and bring about beneficial effects.

"We recognize that sudden, unusual pest outbreaks can occur on the farm and elsewhere for which no EPA-approved pesticide may be available. We've put into effect a new policy to deal with this situation. It allows for the use of EPA-registered products to control unanticipated pests, after checks with knowledgeable experts on questions of effectiveness and environmental impact.

"The policy should be a great help to persons in the business of raising crops and livestock. Properly followed, it minimizes the possibility of any environmental harm."

The policy is entitled "Use of Registered Pesticides for the Control of Pests Not Named on the Label in Agriculture and Other Non-Structural Pest Control." It applies to farmers, ranchers, persons who apply pesticides in raising trees, flowers and other ornamentals, and pesticide applicators for rights-of-way areas such as roadsides, electric powerlines, pipelines, and railways.

People in these occupations troubled by a rapid and unexpected pest infestation should follow these steps under the new policy:

- Seek the recommendation of a "knowledgeable expert" regarding which EPA-accepted pesticide will control the pest. This expert may be the farmer or user himself, or any other person who meets the educational or practical experience standards prescribed in the policy.
- Use only a pesticide that is EPA-registered for application on the crop or site that needs treatment.

Legro emphasized that in using a pesticide against an unnamed pest, all other label directions must be followed.

Milk powwow set

WASHINGTON, D.C. - Dairy farmers and consumers will join with the U. S. Department of Agriculture this December to sponsor a two-day conference on milk marketing.

The conference is scheduled for December 14 and 15 at the Washington Hilton Hotel, here.

Sponsoring the conference are the U. S. Department of Agriculture, the National Milk Producers Federation and the Community Nutrition Institute.

While separate conferences have been held within the past year, the upcoming conference is the first joint effort by dairymen, consumers and the USDA to discuss the issues.

Major papers on the economic forces and institutions in milk marketing will be presented and discussed. In addition, the conference will discuss alternative economic systems for milk pricing and will consider the role of dairy cooperatives, milk processors and food retailers in milk marketing.

Registration for the two-day conference is $75. A limited number of scholarships will be available. For more information, contact: Conference on Milk Marketing, 1910 K Street, N.W., Suite 700, Washington, D.C.

New Holland Sales Stables

Grand champion cow of fall show brings $7300

John McKittrick, noted dairy judge from Columbus, Ohio, gives his reasons for placing one animal over another.

By JOANNE SPAHR

NEW HOLLAND, Pa. - Melvin Kolb and Marvin Eshleman, Lancaster, exhibited the grand champion dairy cow at the New Holland Sales Stables' annual Fall Show held here on Wednesday morning.

"Cleave View Emmy P C R" had also taken first place in the fresh cow class before being selected as the grand champion of show.

A four-year-old classified "Good Plus," she is the daughter of Pickland Citation R and Cleave View Emma N F. Her dam is classified "Very Good" and produced 17257 pounds of milk and 647 pounds of butterfat in one lactation period.

In a repeat performance of the previous year, H. D. Matz, Ephrata, exhibited the reserve grand champion animal which had previously been second in the fresh cow class.

John McKittrick, noted dairy judge from Columbus, Ohio, praised the Lancaster County dairymen for exhibiting top quality cows.

"Without slighting San Francisco one bit," he said, "I'd say that there are more good Holsteins here than I'll see at the Cow Palance." McKittrick was scheduled to fly to San Francisco the following day to judge animals there.

More results from the show are as follows.

Mixed Breed

1. Mike Risser, Palmyra; 2. Melvin Kolb and Marvin Eshleman, Lancaster; 3. Melvin Kolb and Marvin Eshleman; 4. Melvin Kolb and Marvin Eshleman, 5. Mike Risser.

Holstein - Fresh Heifer

1. H. D. Matz, Ephrata; 2. Melvin Kolb and Marvin Eshleman, 3. H.D. Matz, 4. Melvin Kolb and Marvin Eshleman, 5. H. D. Matz

Holstein - Bred Heifer

1. Melvin Kolb and Marvin Eshleman, 2. Melvin Kolb and Marvin Eshleman, 3. John J. Stoltzfus, Elverson; 4. Raymond Getz, Lebanon; 5. Carl Hostetter, Annville.

Holstein - Dry Cow

1. Melvin Kolb and Marvin Eshleman, 2. Melvin Kolb and Marvin Eshleman, 3. Glenn Fite, Quarryville; 4. H. D. Matz, 5. Melvin Kolb and Marvin Eshleman.

Holstein - Fresh Cow

1. Melvin Kolb and Marvin Eshleman, 2. H. D. Matz. 3. Melvin Kolb and Marvin Eshleman, 4. H. D. Matz and Kolb and Eshleman, 5. Melvin Kolb and Marvin Eshleman.

The sale which immediately followed the show had a total of 334 cows, and ran as late as 9:30 p.m. Compared to last year, the prices for this sale were higher and the animals were of better quality. There were also a large number of out-of-state buyers.

The top 10 animals for the sale averaged $4890, the top 20 averaged $3750, and the top 100 averaged, $1657.55.

The grand champion brought $7300 and was purchased by Alfred Albright, Landenburg. The reserve champion brought $4200 and was purchased by Mowery Frey, Jr., Lancaster.

In the fresh cow class, the third place animal brought $3550 and was purchased by William Kepler, Wisconsin. The fourth place animal was purchased by Mowery Frey, Jr., for $4100, and the fifth place animal was purchased by J. Douglas Martin for $4000.

In the dry cow class $6100

The satisfaction that comes from doing a good job of farming

It's a great feeling to know that you are the master of your farmlands . . . that when you treat your soil right, it will treat you right. Liming is one of the most important factors in keeping your soil in the highest productive range. A good pasture with a pH of 6.5 or higher, for example, will make 300 to 400 lbs. of beef per acre and produce up to $100 gross income per acre. This means with the help of lime, profits from pastures can compare favorably with feed or grain crops.

Maulfair elected president of Young Farmers' Association

LEBANON, Pa. - Paul Maulfair was recently named president of the Northern Lebanon Young Farmers' Association at their monthly meeting. Other officers elected were: Vice President, Leroy Geesaman; Secretary, Jeff Werner; Treasurer, Harold Sweinhart; Public Relations Director, Shawn Hernley.

The main speaker for the evening was Clair Gerberich from the Soil Conservation Service. He spoke on initiating farm conservation plans for those farmers who do not have a schedule made up. These plans must comply with the soil conservation law which will be in effect next year. He also stated that a soil conservation meeting will be held on Nov. 1 at 7:30 p.m. in the Northern Lebanon Vo-Ag room. The meeting will be open to the public.

This month was also the month of the yearly hay, silage, and haylage contest. Dennis Hoke, assistant county agent for Lebanon County, served as the judge. After much deliberation, Hoke made the following decision: Alfalfa Hay - 1. Clarence Mull; 2. Ken Mull; 3. Ed Funck; 4. Jeff Funck; 5. Paul Maulfair; 6. Tom Shuey; 7. David Hostetter; 8. Jeff Werner; 9. Lewis Werner; 10. Harold Sweinhart, and 11. Wesley Harding.

Mixed Hay - LeRoy Geesamen; 2. Lewis Werner; 3. Tom Hostetter; 4. Paul Maulfair; 5. Ed Funck.

Silage - 1. Sven Bomberger; 2. Clarence Mull; 3. Ken Mull; 4. Tom Shuey; 5. Ed Funck; 6. Wilmer Weaver; 7. Lewis Werner.

Haylage - 1. Tom Shuey; 2. Dave Hostetter; 3. Wilmer Weaver; 4. Lewis Werner; 5. Jeff Werner.

The next meeting will be held Nov. 8th, 7:30 p.m. in the Northern Lebanon Vo-Ag Class-room. Don Ace, extension dairy specialist from Penn State will be the guest speaker.

Grand

(Continued from Page 58)

was the price received for the first place animal. She was purchased by Knight Farms, New Hampshire. Four-thousand-eight-hundred dollars was the price of the second place animal also purchased by Knight Farms. The third place animal went for $5700 and was purchased by Mowrey Frey. Walter Risser, Palmyra, bought the fourth place cow for $1050, and also the fifth place animal for $975.

In the two-year-old fresh heifer class, first place brought $1350 from Christ L. Stoltzfus; second brought $2900 from Mowrey Frey, Jr.; third brought $1500 from Jacob Dienner, Gordonville; fourth brought $1450 from Michael Woodring, N.H.; and fifth brought $1025 from Harry Weier, Deerfield, Wisconsin.

The first place animal in the dry heifer class brought $2200 and was purchased by Walter Hess, New York; second brought $1250 and was purchased by Bright Meadows Farm, N.H.; third brought $950 and was purchased by John Wheelre Honeybrook; fourth brought $925 and was purchased by Christ L. Stoltzfus, Honeybrook; and fifth by A. Ross Wiley for $700.

In the mixed breeds, first place brought $4200, purchased by Harry Weier; second place brought $925 brought by Eli Lapp; third brought $1500 by Walter Risser; fourth brought $950 by Eli Esh; and fifth brought $850 by Walter Risser.

'Rules of the road' guide published by C. of C.

HARRISBURG, Pa. - A summary of the major changes made by the General Assembly to the state's Motor Vehicle Code has been neatly packaged and published by the Pennsylvania Chamber of Commerce as a wallet-sized "Pocket Guide."

The Guide contains brief descriptions of the major changes in the Code as they affect the average driver. It lists those changes which are now in force, as well as those which will become effective at future dates.

"Old vs. New" comparisons are included for various offenses under the point system. Information on amnesty for suspended drivers, driving records availability, abandoned vehicle disposition, fines for moving violations, etc. is also included.

The changes in store for drivers' licenses - including data on "junior" licenses, medical information, and a classified operator's system are also detailed.

Additional information on the "Pocket Guide" is available from John S. Shirvinsky, Pennsylvania Chamber of Commerce, 222 North Third Street, Harrisburg, Pa. 17120.

LIFE on the farm

By Dieter Krieg, Editor

© Dieter Krieg 1976

"Why don't those engineers who design these things ever think about us having to fix 'em!" I muttered to myself, shaking my head and getting angry.

My arm was just about getting numb as I kept trying to get a large nut loose in a rather tight spot within a whole mess of shafts and cogs on our corn picker. Neither wrench nor hammer was doing much for me. Most of my problem was a simple lack of leverage. "All those guys do back at the factory is design 'em, slap 'em together, and forget 'em. I'd like to get the bird-brain who engineered this to work on this mess," I said, with my only audience being a few ears of corn which were still in the machine.

I halted my efforts for a moment and stared out of the open end of the hay barn. The day was just as gray as my mood. A slight breeze, loaded down with tiny droplets of moisture, was sweeping across the fields, leaving everything it touched with a blanket of water. Farther away, the corn field looked as though it had already been through a corn picker - but it hadn't. The storm a few days ago tore the stalks to shreds and what remained was a raggedy, pityful sight. It wasn't all that long ago when the stalks reached majestically towards the sky and large ears were displayed with pride.

The change in the field from one week to another was hard to believe - it was so awful - unless you had seen such damage before.

I had, and I stared at the gray and wet day gloomily.

The moisture-laden air rolled through the large, opened door and kissed my face. That's all that was refreshing about the day.

A tall blade of grass in the fence row brushed against the electric fence. Brzzzzzt! it went and the sparks were clearly visible under these dimly lit conditions "Another job to tend to," I thought to myself, even though the cows wouldn't really be able to mess the corn field up much more if they did get out. But who wants to chase after cows through a corn field - standing tall or battered to the ground.

Observing what was going on outside wasn't making me feel any better. The broken-down corn picker still needed my attention Back to work!

The first order of business was getting the 50-foot extension cord and a light to illuminate this poorly-lit working area

Now, with the light in place, I wasn't having much better luck than before It was giving me some light alright, but depending on which way I positioned myself, it also caused a glare which was blinding There just isn't much room to work anywhere on a corn picker!

I took another firm grip on the wrench and applied as much torque to it as I could. The wrench slipped and clattered its way down through the maze of steel and iron. My knuckles crashed into a grease fitting. With two fingers already having been pinched, and now a set of bleeding knuckles, I was developing a swell temper.

I nursed my hand briefly and wished I could just run this stupid machine off some cliff and hook up to a new one.

"Now where did I put that hammer," I wondered out loud. "It's got to be here somewhere. I brushed my boots through accumulation of hay debris on the floor. Nothing. Blood trickled slowly from my injured hand. I cleaned it up some more with a handkerchief, grease and all.

The hammer hung suspended from an edge of sheet metal. Right in front of my nose, of course! I grabbed it eagerly, as I wanted to "get even" with this contraption. I tapped the nut relentlessly and emptied the can of penetrating oil in it. I was going to get that dumb thing no matter what.

Before "going in for the kill," I studied the situation closely. There had to be an easier way. Perhaps I could fit a piece of pipe onto the end of the wrench for more leverage.

But there wasn't enough room for that

It was my move - and with nothing better to work with than I had all along.

I gritted my teeth and placed my wrench carefully. The handkerchief was wrapped around my knuckles for protection in case the wrench slipped again. The opposing muscle in my arm was also "put on alert" to respond instantly with a reversal if the tool let loose.

And let loose it did! But with the nut coming along with it! Victory!

But this moment of glory was short-lived.

What I was really wanting to get to was the cog in back of the nut, and that turned out to be solidly "frozen" to the shaft.

Nothing I attempted to do would loosen it

Disgusted, I walked out to get the tractor The electric fence was still buzzing the wet weeds My boots slipped slightly on the clay which was slick as wet soap.

The tractor sometimes hesitated to start on a wet day like this. "Big John's" pistons and flywheel spun jerkily around and around, coughing now and then, and moaning a bit as though they didn't feel like working today. Then a spark ignited the engine to life and the windows in the shed trembled along with the tractor.

Shifting into sixth, I pushed the hand clutch forward and headed for the hay barn.

I hitched up quickly and was glad to get the ice-cold pin through the drawbar. Next stop would be the Woodbine Garage, just down the road.

"Big John" went thundering down the track as I simultaneously pulled the earmuffs down from my hat. This wet air was cooler than I had thought.

It turned out that the garageman was gone for the day. So I slapped the tractor into reverse, then back into sixth, and raced to Meek's Garage, just another mile further.

As is understandable, my corn picker couldn't be attended to immediately, but I didn't have to wait more than a few minutes. I felt good about that after having wasted so much time already.

The mechanic struck a match and held it to the nozzle of his acetylene torch. It popped on and the blue flame shot forth piercingly Aiming the tool at the blasted cog, he had it off in no time flat Then he cleaned the shaft nicely to prepare it for a new one Now it wouldn't be long until I'd have it fixed. Or would it?

Arriving home again, I took the old worn-out cog and drove to the dealer with it.

"Got one of these?" I asked, while explaining whereabouts it came from.

The dealer examined the part from behind his glasses and reached for the equipment manual. Leafing through it, he found its number. Then he checked through his files to see if he had one.

"Nope - I'll have to order it for you," the dealer announced matter-of-factly. "I should have it for you by Wednesday."

"That's okay, I can't pick corn in this weather anyway," I said, bringing an end to a miserable episode of life on the farm. Besides, I have to clip the grass and weeds from underneath the electric fence.

VOTE FOR

JERRY FORD

ON

NOVEMBER

2nd

Gerald R. Ford

We think the Ford Administration has been good for agriculture in the United States. A vote for Jerry Ford will guarantee a continuation of his policies . . . the right to produce what we want and the right of a decent life for farm families.

PLEASE VOTE . . . EVERY VOTE COUNTS!

Birdwatchers treated with waterfowl migrations

UNIVERSITY PARK, Pa. - Southbound flights of waterfowl - such as wild swans, ducks, and geese - should reach their peak over Pennsylvania about now, according to Merrill Wood, author of "Birds of Pennsylvania" and retired zoologist at The Pennsylvania State University.

He reports that more swans than geese seem to migrate through Pennsylvania in the Fall. This southward migration of waterfowl ends in November. He adds this is also the month to watch for the beneficial hawks soaring south over mountain ridges, taking advantage of updraft air currents.

The number of land bird species migrating south drops off in October from peak migration in September, Wood says. Then winter birds begin to arrive in October. He considers October a good time for bird watchers to get the winter feeding station in operation.

Wood describes the migratory habits of 30 species of waterfowl, and 378 total species normally reported in the Commonwealth, in "Birds of Pennsylvania," a guidebook published by the Agricultural Experiment Station at Penn State.

A calendar of Pennsylvania birdlife tells what may be seen in each month. The calendar lists the beginning of the fall and spring migrations. For each species, the guidebook includes abundance, seasonal occurrence, habits and status changes, and general breeding and wintering ranges.

Agricultural leaders request DER to hear farmers too

HARRISBURG - The Agricultural Advisory Committee to the Department of Environmental Resources wants the General Assembly to create regional review boards to hear appeals of farmers who disagree with the Department over enforcement of erosion and sedimentation control regulations.

The Committee said such review boards should be comprised of three persons appointed by the Governor and confirmed by the Senate. Two of the three would be appointed from lists supplied by chartered farm organizations and the third would be from a Conservation District list.

Aaron Stauffer, Ephrata, of the Pennsylvania Association of Conservation District Directors said the review boards should be independent of DER to seek a resolution when the farmer or landowner does not agree with application of the erosion and sedimentation regulations by the Department.

Committee members expressed their concern over recent news coverage of increased levels of radioactivity and the effect this had on some agricultural interests. Members expressed the hope that should such situations arise in the future DER will give due consideration to the effects of its news releases and statements on any agricultural products involved.

The Advisory Committee was told by one of its working groups that proposed regulations will be submitted by the Department to the Environmental Quality Board in November to implement a manual on manure management for environmental protection which is to be printed soon.

Christopher Allen of the Pennsylvania Farmer's Association said the manual has been edited and a revised draft should be in the hands of Committee members shortly for final review.

The manual offers a "best practices" approach to manure management. The Environmenntal Quality Board will be asked to exempt from some DER permit requirements those landowners who elect to follow the manual's recommendations.

Gary Triplett of the DER Bureau of Air Quality and Noise Control presented the Advisory Committee with a suggested change in air quality, regulations which would state that any agricultural source operating in compliance with guidelines adopted by the Department would be considered in compliance with specified sections of the regulations which have been creating some problems for farmers.

The Committee approved a motion calling on the Department not to submit the Environmental Master Plan to the Environmental Quality Board for final action until the Advisory Committee has had sufficient time to review the latest draft.

Questions over the land disposal of sewage sludge will be referred to a working group to pull together data from other sources and start work in 1977 on a committee study and recommendations.

The Advisory Committee asked Afton Schadel, chief of the DER Division of Soil Resources and Erosion Control, to approach agricultural economic specialists at The Pennsylvania State University regarding the need for research into economic considerations of conservation practices. A committee work group will develop an agricultural practices manual identifying erosion and sedimentation controls, cropping systems, equipment, facilities and land use management presently in use.

Precautionary measure during the farmers' promotion at Park City in Lancaster last week.

1976 JUDGING SCHEDULE — GENERAL LIVESTOCK and HORSES

BEEF CATTLE

SUNDAY, NOVEMBER 7

Time	Class	Place
12 30 p m	—Hereford Breeding Cattle	Beef Arena
	—Polled Hereford Breeding Cattle	Beef Arena
7 00 p m	—Eastern Limousin Breeders Association Sale	Small Arena

MONDAY, NOVEMBER 8

9 00 a m	—Feeder Calves	Feeder Calf Area
10 30 a m	—Junior Beef Breeding (4-H & FFA)	Beef Arena
11 30 a m	—Junior Steers (4-H & FFA)	Beef Arena
3 00 p m	—Open Class Steers	Beef Arena
4 30 p m	—Champion Steer	Beef Arena
6 30 p m	—Feeder Calf Sale	Feeder Calf Area

TUESDAY, NOVEMBER 9

8 30 p m	—Charolais Breeding Cattle	Beef Arena
	—Shorthorn Breeding Cattle	Beef Arena
12 30 p m	—Angus Breeding Cattle	Beef Arena
4 30 p m	—Pennsylvania Cattlemens Assn Annual Meeting	Host Inn
7 00 p m	—Pennsylvania Livestock Association Annual Meeting & Awards Banquet	Host Inn

WEDNESDAY, NOVEMBER 10

8 00 a m	—Intercollegiate and Junior Livestock Judging Contest	Beef Arena
12 00 noon	—Cattle Released	

SHEEP

SATURDAY, NOVEMBER 6

Time	Class	Place
8 30 a m	—Hampshire Breeding Classes	Sheep Arena
	—Shropshire Breeding Classes	Sheep Arena
12 00 noon	—Suffolk Breeding Classes	Sheep Arena
	—Truckload 15 Market Lambs	Sheep Arena
12 15 p m	—Open Market Lamb Classes	Sheep Arena
6 00 p m	—Pennsylvania Lamb & Wool Queen	Sheep Arena
7 00 p m	—Yearling Bred Ewe Sale - Suffolk, Hampshire Shropshire	Sheep Arena

SUNDAY, NOVEMBER 7

12 00 noon	—Southdown Breeding Classes	Sheep Arena
	—Carcass Wethers on Foot	Sheep Arena
2 00 p m	—Junior Market Lambs	Small Arena
4 00 p m	—Release Time for Junior Animals	
5 00 p m	—Ladies Lead Class	Beef Arena
6 30 p m	—Pennsylvania Junior Sheep Shearing Contest	Beef Arena

MONDAY, NOVEMBER 8

8 30 a m	—Oxford Breeding Classes	Sheep Arena
	—Cheviot Breeding Classes	Sheep Arena
1 00 p m	—Dorset Breeding Classes	Sheep Arena
7 00 p m	—Eastern Seaboard Sheep Council Annual Meeting	Cross Gates Inn

TUESDAY, NOVEMBER 9

8 30 a m	—Columbia Breeding Classes	Sheep Arena
10 30 a m	—Corriedale Breeding Classes	Sheep Arena
	—Merino Breeding Classes	Sheep Arena
	—Rambouillet Breeding Classes	Sheep Arena
7 00 p m	—Pennsylvania Livestock Association Annual Meeting & Awards Banquet	Host Inn

WEDNESDAY, NOVEMBER 10

8 00 a m	—Junior and Intercollegiate Judging Contests	Sheep Arena
12 00 noon	—Sheep Released	

SWINE

SUNDAY, NOVEMBER 7

Time	Class	Place
11 00 a m	—Duroc Barrows On-Foot	Small Arena
12 30 p m	—Live Hog Evaluation Contest	Small Arena
1 30 p m	—Junior Barrows	Small Arena
2 30 p m	—Open Barrows On-Foot Crossbred and Purebreds (of other breeds) Truckloads of 6 Market Hogs	Small Arena

MONDAY, NOVEMBER 8

8 00 a m	—Open Barrows On-Foot, continued —Hampshire —Chester White —Spotted Swing —Berkshire —Poland China —Yorkshire	Small Arena
2 00 p m	—Breeding Swine Classes —Duroc —Yorkshire	Small Arena
5 00 p m	—Barrow load out time	

TUESDAY, NOVEMBER 9

8 00 a m	—Breeding Swine Classes, continued —Berkshire —Chester White —Hampshire —Poland China —Spotted Swine	Small Arena
7 00 p m	—Pennsylvania Livestock Association Annual Meeting & Awards Banquet	Host Inn

WEDNESDAY, NOVEMBER 10

8 00 a m	—Junior and Intercollegiate Judging Contests	Small Arena
12 00 noon	—Swine Released	

HORSES

SATURDAY, NOVEMBER 6

Time	Class	Place
7 30 a m	—Northeast Regional Horse Judging Contest	Large Arena
9 00 a m	—NE Regional 4-H Horse Bowl	Cross Gates Inn
1 00 p m	—Paint Horse Halter Classes	Large Arena
	—Paint Horse Performance Classes	Large Arena
	(One hour after completion of Halter Classes)	

SUNDAY, NOVEMBER 7

12 00 noon	—Quarter Horse Halter Classes	Large Arena
	—Quarter Horse Performance Classes	Large Arena
	(30 minutes after completion of Halter Classes)	

MONDAY, NOVEMBER 8

9 30 a m	—Arabian Halter Classes	Large Arena
	—Arabian Performance Classes	Large Arena
	(One hour after completion of Halter Classes)	

TUESDAY, NOVEMBER 9

9 30 a m	—Appaloosa Halter Classes	Large Arena
	—Appaloosa Performance Classes	Large Arena
	(One hour after completion of Halter Classes)	

WEDNESDAY, NOVEMBER 10

1 00 p m	—State 4-H Horse Production Classes	Small Arena

THURSDAY, NOVEMBER 11

8 30 a m	—Pennsylvania State 4-H Horse Show	Large Arena
7 00 p m	—Pennsylvania State 4-H Horse Show	Large Arena

FRIDAY, NOVEMBER 12

8 30 a m	—Pennsylvania State 4-H Horse Show	Large Arena
7 00 p m	—Pennsylvania State 4-H Horse Show	Large Arena

Keystone International Expo begins next week

HARRISBURG, Pa. - The Keystone International Livestock Exposition, one of the nation's great international shows, will celebrate its 20th anniversary this fall when the doors open November 6, at the Farm Show Complex in Harrisburg.

While other famous livestock expositions are folding due to lack of financial support, the Keystone International continues to prosper, under the sponsorship of the Pennsylvania Department of Agriculture, the Pennsylvania Livestock Association and the Pennsylvania Farm Products Show Commission.

At least half the states and Canada are expected to have entries of the world's finest beef cattle, sheep, swine and saddle horses in this year's Keystone International. Last year, a record 3965 head were entered in the exposition.

A week of judging in general livestock and horse classes will be complemented by several special events aimed at enhancing the visitors' knowledge of the livestock industry. The "exotic breed" displays, featuring Limousin, Longhorn, Red Angus, Simmental, and Santa Gertrudis cattle, demonstrate the search for improvement in the industry.

The eastern Limousin Breeders Association will hold a sale of breeding stock on Sunday evening, November 7.

The growing interest in horses will be reflected in several events for horse lovers, including 4-H and Intercollegiate Horse Judging, the Northeast Regional 4-H Horse Bowl, a Paint Horse Show, and the Pennsylvania State 4-H Horse Show.

Recognizing that our future is in the hands of our farm youth, the Keystone International provides junior categories in competition and judging.

The 20th Annual Keystone International Livestock Exposition will run from November 6-12, with the best in livestock. A detailed schedule follows.

Angus record program detailed

ST. JOSEPH, Mo. - Angus breeders reported 103,402 weaning and yearling weights to the American Angus Association during the 1976 fiscal year, the second largest number in history and just 1.8 per cent behind last year's record, reports Lloyd D. Miller, executive secretary.

Weaning weight numbers at 75,456 head were up slightly and yearling weights processed on the A.H.I.R. program totaled 27,964, down some seven per cent from last year. The active year in A.H.I.R. records pushed the total number of weaning and yearling weights collected by the Association since 1959 to 761,454.

More important, despite drought conditions around the country, the weight records indicated a slight increase in growth rate of Angus measured in A.H.I.R. The top 25 per cent of all Angus bulls measured on A.H.I.R. averaged 542 pounds at weaning for non-creep fed calves and 571 pounds for calves that were reportedly creep fed. The top 25 per cent of all bulls measured at 12 months of age averaged 1,001 pounds, up six pounds from a year earlier. Those measured at 15 months averaged 1,077 pounds and those measured at 18 months averaged 1,194 pounds. These last two figures represent only a small percentage of the bulls on A.H.I.R., as most weights are taken and adjusted to 365 days of age.

The top 25 per cent of the non-creep heifer calves weaned off at 485 pounds. The top 25 per cent of the creep fed heifer calves averaged 503 pounds. Like the bulls, the majority of yearling records on heifers are taken at 365 days of age. The top 25 per cent of the heifers at this age averaged 739 pounds. The top 25 per cent of heifers at 15 months of age averaged 804 pounds and the top 25 per cent at 18 months of age averaged 873 pounds.

The figures show that the top heifer calves of the breed were large enough to cycle early and breed as early as a year of age, and calve unassisted at two years of age or earlier. The top bulls had the size, scale and maturity to be used for limited breeding at a year of age.

The spread in weight and gaining ability between the top 25 per cent of the cattle measured on A.H.I.R. and the bottom 25 per cent illustrate graphically the value of a records program, both to the producer who wants to cull out the poor producers from his herd, and to the buyer who wants to select bulls or replacement females from the top end of a registered breeders herd.

The bottom 25 per cent of the 365-day bull weights was only 701 pounds, some 294 pounds below the top 25 per cent. The bottom 25 per cent of 18 month bull weights was 774 pounds, some 420 pounds below the top 25 per cent which weighed 1,194 pounds.

In weaning weights, which greatly determine mothering ability, there was a 121 pound difference between the top and bottom 25 per cent of the heifers. The difference in yearling weight of heifers was 202 pounds from a low of 537 pounds to 739 pounds for the high 25 per cent. Considering today's feeder calf prices this difference in weights is the difference between profit and loss in the cattle business, and is extremely important in the breeding and selection process.

NCFC prints new directory

WASHINGTON, D.C., - The National Council of Farmer Cooperatives has announced publication of the fourth edition of its Directory of Farmer Cooperatives.

First published in 1968, the directory contains a state-by-state listing of some 400 of the largest farmer-owned marketing, purchasing, and service organizations in the U.S. The directory includes cooperatives with annual sales volumes ranging from just over $1 million to nearly $2 billion.

Designations for each cooperative include: type of service performed, chief products handled, and name of chief executive officer. The directory indicates which cooperatives are members of the NCFC, and lists 30 state associations of cooperatives which are affiliated with the NCFC.

Copies of the directory are available at $10.00 each from Public Relations Department, National Council of Farmer Cooperatives, 1129 20th Street, N.W. Washington, D.C. 20036.

Cumberland Co. names top 4-H boy, girl

CARLISLE, Pa. - Cumberland County 4-H Clubs announced the selection of several of its members to receive recognition for their 4-H work. Beth Hemminger, Centerville, and Tim Wentz, Carlisle, were chosen 1976 Outstanding 4-H Girl and Boy of Cumberland County. They were presented a trophy sponsored by the Carlisle Kiwanis Club at the 4-H Achievement Night Banquet held in the beginning of October.

Beth Hemminger, the daughter of Mr. and Mrs. Floyd Hemminger, has been a 4-H member for nine years. She has taken 4-H Projects in clothing, dairy, cooking, recreation, vegetable flower gardening, forestry, wildlife, health and photography. Beth has been a teen leader five years, 4-H Keystone winner in clothing in 1976 (top 10 in state) and a member of the state 4-H flower judging team in 1975-76.

Beth Hemminger and Tim Wentz received trophies from the Carlisle Kiwanis Club for 1976 Outstanding 4-H Girl and Boy of Cumberland County.

Tim Wentz, a five year 4-H member, is the son of Mr. and Mrs. Alan Wentz. He has taken 4-H projects in horse, woodworking, field crops, veterinary science, bicycle, dog care, recreation and wildlife. He has been a teen leader four years.

He was chosen 4-H Keystone Winner in Woodworking in 1976 (top 10 in state) and was a member of the state 4-H horse judging team in 1975.

Cherry crop nearly halved

HARRISBURG, Pa. - The 1976 tart cherry crop in Pennsylvania totaled 3800 tons, a decline of 40 per cent from the 6,300 ton total production in 1975, according to the Pennsylvania Crop Reporting Service.

The small crop is primarily the result of spring freeze damage and continued poor pollination weather.

An estimated 87 per cent of the 1976 crop, 3300 tons, was used for processing. The remaining 500 tons were sold in fresh markets or utilized on the farm.

The total United States production of tart cherries for 1976 was 73,200 tons. This represents a 50 per cent decrease from the 145,250 ton total production of 1975.

This year's crop was utilized with 300 tons for fresh market and 69,200 tons being processed.

The average price per ton received by U.S. growers was $501, compared to $206 per ton in 1975. The value of this year's crop, at $36 million exceeds the 1975 value of utilized production by $11 million.

Pennsylvania's 1976 sweet cherry production totaled 460 tons, a decrease of almost 47 per cent or 400 tons from the 1975 crop, according to the Pennsylvania Crop Reporting Service. Production in the three Great Lakes States - Michigan, New York and Pennsylvania - was 12,560 tons, down 51 per cent from 1975.

United States cherry production totaled a record 164,210 tons, up eight per cent from last year and four per cent above the previous record set in 1973.

The 160,980 tons utilized were valued at $61.3 million, down from the $62.5 million of a year ago. The average price, at $381 per ton, decreased from the $411 received per ton in 1975.

Tax course offered

UNIVERSITY PARK - The annual Farm Income Tax and Social Security Short Course for 1976 will be held from December 6 to 10 on the main campus of the Pennsylvania State University.

The 1976 Farm Income Tax and Social Security Short Course has been completely revised to include tax developments as they pertain to child care, self-employed retirement, and the annual employer's return.

Members of the Internal Revenue Service and Social Security Administration will join University staff in discussing filing requirements, reporting depreciation, treatment of other income, completing the 1040, Social Security, prorating expenses, filing corrected returns, net operating loss, capital gains and losses, investment tax credit, changes in income averaging, special tax matters, involuntary conversion, balance sheet, Pennsylvania corporation tax, preparing for an informal audit, and how to be a good tax practioner. Special emphasis will be placed on Public Law 94-12 (Retirement Plans HR-10 and IRA) and itemized and standard deducations.

The registration fee is $40 for Pennsylvanians and $45 for non-Pennsylvanians. Please do not pay in advance; fee is payable at registration time on December 6, 1976.

Advance application is desirable since facilities may limit the number accepted for the course.

Application blanks and a daily schedule can be secured from the Director of Short Courses, 306 Agricultural Administration Bldg., The Pennsylvania State University, University Park, Pa. 16802 or from your local county agent.

What's New

Controlled Atmosphere System For Apple Storage

MALVERN, Pa. - A new generation of complete systems or individual units for controlling atmosphere in apple storage rooms is now available east of the Mississippi from Matthey Bishop's Catalyst Systems and Equipment Division, here.

This new generation of equipment is more efficient and capable of handling considerably more capacity. It can also be utilized in existing facilities with minimum, if any, modification.

Matthey Bishop already is known to the apple industry as a manufacturer of catalysts for externally generated atmosphere system. Under a recent agreement, the company now is licensed to manufacture and sell controlled atmosphere (CA) systems designed by the specialists in the field, Controlled Atmosphere, of Okanogan, Wash.

Ford Tractor Co. sees bright future

TROY, Mich. - The North American market for agricultural tractors and equipment will continue to show signs of strength and growth through 1977 as global demand for food and fibers reaches toward record levels, Louis R. Ross, vice president and general manager, Ford Tractor Operations, has forecasted.

In reviewing the current year and and looking ahead to the market in 1977, Mr. Ross said:

"Despite record crop yields in most parts of North America this year, farmers are expected to plant heavily next year in anticipation of sustained demand for farm products.

"Widespread crop failures in Europe, disruption of traditional agricultural product purchase patterns, and increased demand from overseas markets for North American meats and grains will fuel a potentially profitable year for North American agribusiness.

"Total prices received by farmers presently are running about eight to 10 per cent higher than those received in 1975. Realized net farm income is predicted to increase by 10 to 15 per cent in 1976 and continue to increase another five to 10 per cent in 1977.

York Holstein Association holds annual banquet

By JOYCE BUPP
York Co. Reporter

YORK, Pa. - Avalong Dairy Restaurant, York, was the site of last Friday night's annual banquet held by the York County Holstein Association. About 160 members and guests attended the dinner meeting.

Youth awards were presented to a number of Junior Association members during the evening program. Paul Knight, son of Mr. and Mrs. George Knight, Airville, R2, was named Outstanding Senior Holstein Boy for the county. The award was given based on his Holstein activities and show participation throughout the past year. As county winner, Paul now becomes eligible to compete for the state title, which will be announced at the State Holstein Convention in November. Peter King, son of Mr. and Mrs. Paul King, Delta, R2, was selected the Outstanding Junior Boy.

Recognition is given to high-producing Holstein cows owned by the youth members in a county production contest. This year's winning four-year-old animal was "Stump Acres My Jet King Jet Star," owned by Sherrilynne Stump, daughter of Mr. and Mrs. Joseph Stump, York R6. In 305 days, the cow produced 26,710 pounds of milk, with 1037 lbs. of butterfat. The Jet Star cow last year brought Sherrilynne a state production award.

Two brothers won the three-year and two-year-old production trophies. Gary Thoman's "MacWill Star Becky" took the three-year-old award with a 303-day lactation record of 13,655 pounds of milk, 558 pounds of fat. "MacWill Victor Penny," owned by Mark McWilliams, had the top two-year-old animal entry of 15,551 pounds of milk and 537 pounds of fat in 305 days. The young men are the sons of Mr. and Mrs. Dennis McWilliams, Seven Valleys, R2.

The Junior Association sponsors a yearly showing and fitting day each summer to teach methods of preparing cattle for show. Older, more experienced youth are paired with younger members. Each team is given an untrained calf and allowed a period of time to clip and fit the calf, and train it to lead. A "show" is then held with the animals, and winning teams are named. Trophies for the champion fitters team were awarded to Patty Greek and Christine Wolf. The reserve fitters awards went to Tina Rutter and Peter King. Champion showman was Patty Greek, and reserve showman was awarded to Dana Doll.

Robert Morris, fieldman, brought greetings from the state Holstein Association. He spoke briefly on the upcoming classification program in eastern Pennsylvania, scheduled for December. Because this area has broken national participation records in the classification program, herd owners were urged to apply immediately.

A registration moratorium has been announced by the National Association. Under regular registration laws, animals may not be registered after they are two years old. During the moratorium, beginning November 1, cattle over two years may be registered for a fee of $25 and the standard registry application.

The National Association has now adopted a Grade Identification Program. Applications are available for interested dairymen. Morris noted that in order to identify the grades, the sire must be identified and registered.

In another major change beginning January 1, 1977, the National Association will no longer require breeding certificates to accompany registry applications.

Morris urged the assembled dairymen to continue promoting milk and dairy products. He related that a new synthetic milk has been introduced in the St. Louis marketing area, selling for 52 cents a gallon. "This is no time to relax our promotion efforts," he concluded.

County Vice President, E. Wayne Beshore, had just returned from a trip to the Middle East and briefly related some of his impressions. He recalled seeing, "primitive farming on rocky hillsides - there were shepherds with flocks of sheep and goats. But we also saw 'kibbutz' farms with highly productive acres and ultra modern machinery." They even had helicopters doing spraying work. Beshore commented that they had seen Holstein cattle in Jordon, Greece and Israel, adding that Pennsylvania had been instrumental in sending cattle to some of the Middle East areas.

Three new directors were elected to serve three-year terms on the Board. Chosen were Jed Beshore, New Cumberland, R1, Ellis Crowl, Airville, R2, and Tom Boyer, 110 BieseckerRoad, York.

Entertainment for the program was provided by the New Jerusalem Singers, a gospel music group of six musicians from The Brethren In Christ Church, Hanover. Centerpieces, provided by Spangler and Sprenkle, Inc., York, were awarded as door prizes.

Pomona Grange holds meeting

Lancaster County Pomona Grange No. 71 met last month at Fulton Grange Hall, Oakryn.

Worthy Master Jesse Wood was in charge of the meeting.

Brother Thomas Galbreath has seventh degree applications for those interested in going to Atlantic City, N. J.

New Officers were elected: Chaplin, Brother Joseph Hess; Executive Commissioner; Brother Owen Groff, Sr.; Finance Commissioner Brother David Brinton.

Grange approved a resolution on Agriculture Districts.

Worthy Lecturer, Dorothy Stauffer, had the program for the evening about Bells. A display of bells were shown by members.

Next meeting will be a dinner meeting at Robert Fulton Inn on January 15, 1977 at 7:00 p. m.

At Root's Every Tuesday Night Dealer Inquiries Invited

Ironically, a meeting to discuss the future of the family farm in Lancaster County was attended by 23 students from as far away as Alaska and Hawaii. Only a couple of farmers from the area attended the meeting, held Wednesday night at the Hinkletown Alternative School in northeastern Lancaster County. The students attending are with the Trailsides Country School - an institution which spends the entire school year travelling and participating in actual learning and working experiences. During their stay in the Garden Spot they are helping on a farm. Their curriculum centers strongly on environmental studies and learning through experiences. It's seven days a week and from 8 a.m. until around midnight, says Susan McGoldrick, center.

Out-of-staters attend meeting on how to save the family farm

By DIETER KRIEG

HINKLETOWN, Pa. - A meeting was held near this northern Lancaster County town on Wednesday night to discuss ways to save the family farm, and it drew a crowd of approximately 30 people, of which 23 were students from various parts of the United States. Farmers from the area were just about outnumbered by the four members on the panel who led the discussions.

It was pointed out quite early during the meeting that the latest federal census shows that Lancaster County farmland is going out of production at a rate of 500 acres per month. Nearly 600 farms have been turned into developments, shopping centers, highways, etc., during the past five years.

Those present at the meeting were also warned that a land-use plan was forthcoming, whether farmers took an opportunity to have their say or not. Legislation to bring land-use under control is expected to be finalized within the next year.

Approximately 30,000 acres of Lancaster County farmland were lost between the years 1969 and 1974. Since 1954 the County has lost over 100,000 acres of farmland. Although the rate of development has slowed down in recent years, many farmers and farm leaders are expressing concern over losing any top acreage.

While agricultural land has been turned over to other uses, real estate prices of all land has skyrocketed. The federal census shows, for example, that the average farm in 1954 was 63 acres in size and valued at $26,713. Today the average farm has 84 acres and commands an average price of around $2000 per acre. It was noted that farmland in the New Holland area was selling for $5000 and more per acre.

With the economic trends and pressures in mind, organizers of this meeting had hoped to inform the agricultural community about what might possibly be done to lessen the impact of it all. "We have to find out ways to preserve our farmland," commented one panel member.

"There are no answers as of now. After attending a land-use meeting last night, I am still confused," the Lancaster Countian reported. But he was also quick to add that something would be done in the future and urged farmers to take an active part in the planning.

A survey of Lancaster County people was cited as showing that land-use was rated overwhelmingly as the "most critical problem" in the area. Support to have agricultural lands preserved is also high. Concern over this issue was cited as being 10 times as high as other problems mentioned in the survey.

The panelists also noted that Lancaster County is facing a reassessment program, and when completed, it would update figures which went into effect 14 years ago. Those statistics were based on calculations made in 1960 and 1961.

"To reassess Lancaster County annually would cost $1.25 million per year," was given as the reason for tax figures not having been updated since the early '60's.

When tax figures are revised, they supposedly will not necessarily bring higher taxes to farmers, it was pointed out. And if the tax burden is increased, it won't be more than five per cent during the first year. The County is not under Clean and Green legislation yet, but is expected to be once the new assessment comes out.

Figures used presently value Lancaster County farmland at between $150 and $300 per acre. That even applies to new developments, since the entire tax base is to have a uniform structure. New housing, etc., is therefore assessed at rates calculated 15 years ago.

The Clean and Green Act can supposedly push the farmer "into the life of the land." When an individual signs up, he must go in with all of his land. If he has two adjoining farms, both come under Clean and Green if he chooses to sign up. It wouldn't be mandatory to join the program, but taxes could easily be very burdensome if a farmer doesn't.

Road frontage assessments, which are currently in effect, are likely to be a thing of the past for the farmer if present considerations are improvised into a land-use bill. Billboards would also be outlawed on certain parcels of land.

It was asked during the meeting why so many localities within the County openly invite industry while at the same time showing reservations about losing their farmlands? "And why applaud it when it comes?" added another. "And why such a low turnout to a meeting like this," queried an out-of-state student.

The panel cited the work ethnic of Lancaster County people as being an attraction for industry. The low turnout was attributed to lack of conventional transportation.

The pride Lancaster Countians have in their properties is most evident to visitors and this became a topic of conversation for the meeting. Yet a number of farmers have moved to other counties.

Dr. Robert Herr, principal of the Hinkletown Alternative School, where the meeting was held, commented that he knows of one large family in the area which sold their 30-acre farm and moved to Centre County. The family was able to buy a 300-acre property there and have enough money left over to fix buildings and premises as they wished. "It takes a lot of pride to stay on a 30-acre farm with a large family," Herr concluded.

High winds throttle the atmosphere

By DIETER KRIEG

EDITOR'S NOTE: This is the 11th article in a continuing series on the forces which shape our weather, how we are affected by it, and what is done to forecast and-or alter its patterns.

When one realizes that parcels of air in the upper atmosphere can travel around the Earth in ten to twelve days, a person can understand why the weather can change so abruptly sometimes. It also explains why there is a credibility gap sometimes between what the weather report says this morning and what actually happens after lunch. Hence, the farmer is indeed "at the mercy of the weather," as was pointed out in the last installment of this series two weeks ago.

These high-flying parcels of air are doubly tricky to keep track of because of their speed and height. They're far above the paths of aircraft, and out of range to be observed from ground or sea based stations. Balloons are considered to be the most effective method for sensing and sending back data. Even then, it's a very small effort, because so much of the world is covered by water, and all of it is enveloped by air.

While the upper atmosphere is largely still an unknown quantity to nearly all of us on the ground, weather scientists say that the activities as much as 20 miles above our heads have a profound effect on what sort of weather pattern exists on the ground.

The atmosphere, as was pointed out in early episodes of this continuing story, is a continuously active brew of 5.6 million billion tons of air - or approximately 1.5 million tons for every person on the planet. Powered by the sun to the tune of 240 trillion horsepower per day, the atmosphere sucks up a million billion tons of sea water daily.

Sitting underneath this usually calm and benign brew is mankind.

Some rough figuring tells us that the air in the upper atmosphere is capable of traveling more than 2000 miles per day - or approximately 100 miles an hour. It's understandable then that what Mr. Weatherman forecasts for the middle of next week for Pennsylvania could easily be blown away by upper air parcels which were over the Pacific Ocean just two days ago. And, as has been pointed out before, meteorologists themselves refer to ocean covered portions of the globe as "data sparse areas." Several satellites have done much to improve man's weather eye, but the overall situation still leaves much to be desired, as meteorologists will readily admit. The wind, and what it carries, is still as untamed and free as ever.

Winds, which result due to variations in temperature, density, and pressure of neighboring portions of the atmosphere, are, of course, the vehicles by which weather systems move from one area to another. They drive the clouds of rain or throttle a blizzard or send heat waves.

Southeastern Pennsylvania - particularly Lancaster County - has a most enviable productivity record. Frequently mentioned are its soils, which lend themselves to high production. The people in the area are also praised for their will and ability to work.

Generally forgotten is the area's favorable climate.

Without it we could not produce like we do. Imagine, for example, having this area be in the path of strong winds for much of the year. Just three weeks ago many of us experienced or saw what can happen to a corn field when the wind really lets loose.

For the record, the highest wind speed ever recorded on Earth was 231 miles an hour. Mount Washington in New Hampshire holds that honor. They don't grow any corn up there. Even trees have a tough time surviving.

To be continued next week.

Lime deficiency cited

COLLEGE PARK, Md. - Since 1970, farmers and homeowners in Maryland have been apparently losing headway in the battle to keep the pH factor from retreating too far from the optimum balance of near-neutrality.

So says Dr. V. Allan Bandel, Extension agronomist at the University of Maryland, here. Bandel cites records of the state soil testing laboratory for the past 18 years to make his point.

These records show that in 1959, some 65 per cent of the soil samples tested at the College Park laboratory had a pH of less than 6.0 - indicating a dire need for lime.

By 1970, only 37 per cent of the samples evidenced a need for lime. But by 1975, this figure had jumped back up to 47 percent. About 58½ per cent - slightly more than half - of the total number of soil samples in this latter year came from urban and suburban homeowners.

These figures indicate that soil acidity is tending to increase both on farmland and in towns and cities throughout the state, Dr. Bandel commented. They help to explain the increased frequency of stunted cornfields and lawns with yellowing and reddened leaves or blades - almost sure signs of lime deficiency.

Let's keep Lancaster County Number One

NOAH W. WENGER

Lancaster is the Number One agricultural county of Pennsylvania, and a leader in the nation. Lancaster is also the Number One Republican county of Pennsylvania. Coincidence? We believe otherwise.

We - the Lancaster County Ag Republicans - believe the principles of independence, industry, reverence, and commonsense economy native to the Lancaster farmer are the same principles which govern the Republican Party, locally and nationally. As Republicans and farm folks, we are proud to support the entire Republican ticket at the November 2 election.

We are especially pleased that one of us, Noah W. Wenger, a working farmer, is candidate for the General Assembly in the 99th Legislative District.

Our President, Gerald Ford, a decent man who knows his job and does it well, has been known as a friend of the farmer throughout his career in Congress and the White House.

He chose as his running-mate Bob Dole, Republican leader of the Senate Agricultural Committee. John Heinz - the antithesis of the Philadelphia machine politician whom he opposes for U. S. Senate - will represent us well in Washington. So will Bob Walker, our candidate for Congress from the 16th Congressional District, who has been a helpful friend to so many of you for years as aide to Congressman Ed Eshleman.

PRESIDENT GERALD FORD

So with the entire ticket, including Senator Richard Snyder in the 13th Senatorial District, and all the candidates listed below. We urge all farmers to vote for them. Let's keep Lancaster County Number One.

This time vote straight . . . straight REPUBLICAN

Land use policies presented to York Countians

By JOYCE BUPP
York Co. Reporter

YORK, Pa. - Farmers were in the majority at an introductory land use program presented October 20, at the York County 4-H Center at Bair. About 75 farmers turned out to hear the presentations of interim state policies, with the remaining 25 in attendance being interested local government officials.

This first meeting was held to introduce the newly-compiled booklet of policies from the Governor's Office of State Planning and Development to the grass roots audience. It laid the ground-work for groups from the farming community, urban interests and individuals to now feed back testimony on the tentative program and request changes in it.

County Agent John Smith moderated the meeting, which began with a film depicting the complexity of land use planning in the state. Set primarily in Lancaster County, the film outlined the unique blend of problems caused by Pennsylvania's position as the second largest industrial state in the nation, as well as its having the largest rural population of any state.

High on the list of suggested policies on Agricultural and Rural Development is a target plan by which a Statewide system of map delineated Agri-zones would be established. In the Agri-zones located within SMSA (Standard Metropolitan Statistical Areas) counties, the preservation of agricultural land would be made through public purchase of development easements, from the land owners. Financing would possibly come through penalties and back taxes from violations of the Pennsylvania Farmland Assessment Program (Act 319). The transfer of development rights to control growth is also being considered.

Ralph McGregor, a dairy farmer from East Berlin R1, spoke briefly to the group as an invited representative of the county's farming interests. McGregor has been active in the land use planning areas; and he has served as chairman of the York County Farmer's Association's Land Use Committee, as well as being a member of PFA's state committee.

"No one can take an isolated position based on their own interests, including farmers," said McGregor. "We must look at the problem as worldwide citizens." Looking into the future, he predicted, "We may not always have supermarket shelves so overflowing. Who is to say that food will not be what gold once was, or what oil is today?" McGregor reminded his listeners of what American agriculture has done for our balance of payments, saying "It has changed the Yankee dollar from red to black." He pointed out that from 1959 to 1969, the state lost 115 acres to farming daily. "At that rate, York County would be out of the farming business in about a month," he added. The dairyman concluded, "Land purchase prices will have to be stabilized according to the returns on what we produce. A 'nice' way of life does not pay the mortgage."

A second meeting has been scheduled for November 22, 7:30 pm, at the York County Vocational Technical School. The opportunity will be given at this meeting for all interested groups and individuals to express their views on the interim plan and to recommend changes. The policy booklet, as well as a number of other pieces of land use literature, is available to all county residents from the Extension Office at the Court House.

Testimony for the upcoming meeting will be coordinated in a schedule by the Extension Service. Any individual or group who wants to be heard should contact John Smith, County Extension Office, at the York County Court House, and have their name listed on the roster. Deadline for registering is November 19.

While the first meeting was not designed to hear statements from the audience, a few did ask for the opportunity to comment. Dale Hempfing, a schoolteacher who farms 51 acres in Codorus Township, urged the farmers present to become involved. "They're not going to tear down cities for you to plant corn," he said. "In fact, they'll take your remaining ground for the cities and schools of the future."

Some of the agriculture representatives attending also hold positions in local governments. Earl Miller, Dover R3, is a member of Conewago Township's Planning Commission, and its Zoning Board as well. The northern York County farmer believes, "Government is getting too big, too costly and too far away from the local people. The more that local residents can do in their own areas, the less it will cost. And the farther the government gets from the problems, the less it understands them. One set of standards for the entire state does not work for every small area."

The interim policy now printed is well on its way to becoming adopted. In October of 1977, a statewide meeting is planned to finalize changes based on the testimony and recommendations being offered at the upcoming county meetings. The completed program will then be drawn up as legislation to be enacted into law.

GRANGE NEWS

'Too much government'

SHARON, Pa. - A call to restore "thrift in government" was sounded Monday by J. Luther Snyder, master of the Pennsylvania State Grange at the opening of the organization's 104th annual convention here.

He told delegates that for 11 consecutive years, from 1920 through 1930, the federal government operated in the black, with a substantial surplus of income over expenditures reported each year.

"In those eleven years," Snyder said at the opening session Monday afternoon, "the public debt was reduced from 25.4 billion dollars to 16.1 billion dollars. Since 1931, however, there have been surpluses in only six years and the federal debt has grown at an alarming rate."

He pointed out that early this October the federal debt had reached 630 billion dollars, with interest alone costing taxpayers 40 billion dollars a year." The interest charges, he added, are slightly more than the total federal budget in 1950.

Snyder suggested a three point thrift plan for bringing federal expenditures into line. They are: (1) Buy only when we know we can pay; (2) Spend no more than we know we can afford; and (3) Avoid overspending in the belief that others will eventually have to pay.

The Grange master also warned the group that "we are suffering from too much government, too many laws, and too many rules and regulations." He noted that the State Legislature, during the present session that opened in January 1975 and 152 bills introduced that, if enacted, would have created 121 new departments, bureaus, commissions and other agencies.

In a speech prepared for delivery Monday afternoon, State Senator Patrick J. Stapleton, Indiana County, urged Granges to continue their "involvement in the affairs of your state and nation."

He cited a resolution adopted by the York-Adams County Pomona Grange and which will be considered later in the state session that calls for clearing and simplifying the language of legislation. "Here is just a small example of you - the people - seeing something that should be corrected and doing something about it."

Kerstetter encourages family farm, commends Grangers for actions

SHARON, Pa. - State Agriculture Secretary Raymond J. Kerstetter Tuesday warned delegates to the 104th annual convention of the Pennsylvania State Grange that rapid increases in property taxes are endangering farm economy in Pennsylvania, as well as in the rest of the nation.

He estimated that property taxes on farmland near suburban developments is accounting "for almost half the production costs of farmers."

Kerstetter commended the Grange for its support of important legislation, especially the recently enacted "Clean and Green" amendment, that helped ease the tax burden of farmers.

"Every effort must be made," he added, "to encourage the independent family farmer, and to broaden the development of our rural resources."

The FFA Club of West Middlesex High School, Edward Martsolf advisor, were guests of the State Grange for Kerstetter's address.

More than 1,000 Grangers had registered at the convention by Tuesday morning.

James R. Ross, master of the Ohio State Grange and representative of the National Grange, told the group that America, as it begins its third century, must set "its goals as well as its dreams on where we want to go and what we want to be."

Ross urged his listeners to "base your decisions on facts rather than emotions, and challenged them with the question, "are we willing to accept our responsibilities as well as all the opportunities this great country has to offer?"

"We live in the greatest country in the world," he declared, "but decisions must be made now in order to solve our problems and remain the real hope, not only of our own people, but those of the free world."

Square dance team tops talent show

SHARON, Pa. - A square dance team from Millers Run, Washington County, won best-of-show honors in the Pennsylvania State Grange's talent contest finals Monday night (Oct. 25) before a near capacity audience in the auditorium of Sharon Senior High School, here.

Members of the team are Kathy Engel, Robyn Eckelberger, Linda Johnston, Karen Morgan, Craig Wallace, Nick Weaver, Kevin Patsch and Don Morgan, all of Millers Run. They are eligible to compete for national honors in the National Grange competition at Atlantic City next month.

Runner-up for best-of-show honors was Mark Shankweiler; second, Ryan Ditmer, Port Royal R2; third. Michael Lenox, Cambridge Spring R3; fourth, Robert A. Bagshaw, Hollidaysburg R2, Harold C. Ruth, Altoona, and Milton L. Lambert, Altoona RD 1.

Other Acts - first, Florence Allsworth, Bealsville second, Sara Deen, Port Royal R1; third, Mark and David Shankweiler, Sue and Sally Moyer, Keith Grim and Joanne Schneck, of Schnecksville.

Quartets - first, Miriam Sowers, Millerstown R1; Mary Kline and Harriett Walker, Newport R1, and Andrea C. Cameron, Millerstown R2, with Douglas Bonsall, Millerstown R1, the accompanist; second, Dorothy Umbenhauer, Leesport RD1; Stella Snyder and Lillian Mengel, Bernville, and Verna Spengler, Strausstown R1, with Clark Snyder, Bernville, the accompanist.

The Millers Run Square dance team was first in that category, with a team from Fleetwood second.

Salt price goes up

CHICAGO, Ill. - Morton Salt Company, a division of Morton-Norwich, has announced a price increase of from eight to twelve per cent on rock and evaporated salt products effective December 10, 1976.

The amount of increase will be higher for evaporated products, including table salt, than for rock salt grades. Bulk rock salt will be increased about $1.50 per ton. Bulk evaporated salt will be increased $3.00 per ton at most Morton Salt plants and up to $4.00 per ton at Hutchinson, Kansas. Packaged rock salt items will be increased about $3.50 per ton, while packaged evaporated salt products will be increased about $6.00 per ton except for Kansas, where the increase will be approximately $8.00 per ton.

Hearing set

NEW YORK, N.Y - A public hearing to consider changing pricing and pooling provisions, and provide for an advertising and promotion plan, for the New England federal milk marketing order will be held in Framingham, Mass., Nov. 15, the U.S. Department of Agriculture announced. The hearing will begin at 1:30 p.m., in the Sheraton-Tara Hotel (Exit 12 West at Route 9 on the Massachusetts Turnpike.)

Highlights of nat'l. Grange convention announced

ATLANTIC CITY, N.J. - David L. Hume, administrator of the Foreign Agricultural Service (FAS), will be the guest speaker Fri., Nov. 11 at the Rural America Luncheon sponsored by the National Grange in Atlantic City, New Jersey. The luncheon will be held at the Sheraton-Deauville Hotel where the Grange is holding its 110th annual session, Nov. 8-15.

Hume was appointed administrator in 1973 after serving as U.S. agricultural attache in London, England and Tokyo, Japan. The FAS is responsible for developing foreign agricultural trade for U.S. producers and processors and for representing American agricultural interests in international negotiations.

Hume is a graduate of South Dakota State University and has a master's degree in animal husbandry and agricultural economics from North Dakota State University. He has been with the U.S. Department of Agriculture since 1955.

William Steel, National Grange Youth Director, has announced that youth representatives from other organizations will be attending the 110th annual session of the National Grange.

Among those participating in Youth Activities Days, Nov. 10-14 will be Susan Davidoff, Miss Deaf America, Silver Spring, Md.; Peter Wendell, State FFA reporter, Marlboro, N.J., Laurie Whittstruck, 4-H reporter to the Nation, Lincoln, Neb.; Paula Weurtemburger, Miss Rural Electrification, Richmond, Ind.; and Cherie Godin, National FHA-HERO treasurer, Randolph, Vermont.

Singers, dancers and musicians will compete in both the National Grange Family Musical Contest and Talent Finals on Fri., Nov. 12. Contestants will be representing their respective state Granges.

Kermit Richardson of Barre, Vt. and Lecturer of the National Grange will emcee both programs which are also open to the public. Cash prizes will be awarded to national winners selected by a professional panel of judges.

Ralph J. O'Day, Seaford, Dela. farmer and Master of the Delaware State Grange will be the chairman of the 1976 agriculture committee at the 110th annual session of the National Grange.

O'Day's committee will prepare a preliminary report from resolutions submitted from 37 state Granges. Among the topics expected to be covered in the report are provisions in a new farm bill for loan levels, target price levels, grain reserve program and a disaster payment program. Other resolutions to be discussed will cover farm labor, export and import controls, Farmers Home Administration loan programs, private forest management and private and public land use programs.

Other members of the committee include Kenneth Rhein, Wisc., Francis Guthrie, Colo., Lloyd Massey, N.C., James Ross, Ohio, Jack Silvers, Wash., Russell Stauffer, Ill. and James Ingwersen, Kansas.

Art, photography, junior arts and crafts, needlework and quilts will be on display.

The art, photography and junior arts and crafts exhibits will be open to the public, Mon., Nov. 8 through Sat., Nov. 13. Each item is the first place state Grange winner in the National Grange's art and photography contests. National judging will be held Mon., Nov. 8. Also on display will be arts and crafts made by Junior Grange members, ages 5 to 14.

Women's exhibits including needlework and quilts will be open Wed., Nov. 10 through Sat., Nov. 13. On display will be first place state Grange winners in both the National Grange needlework contest and quilt contest. Needlework items will include afghans, tablecloths, place mats, baby sets, doilies and many items in embroidery, knitting and crocheting.

Canada requiring new swine tests

NEW YORK, N.Y. - Canadian animal health officials are now requiring breeding swine from the United States to be free of pseudorabies before they can be imported into Canada, the U.S. Department of Agriculture has announced.

Officials of USDA's Animal and Plant Health Inspection Service said the new Canadian animal health requirement is apparently in response to the rising incidence among swine of pseudorabies, a contagious virus infection also known as Aujeszky's disease or "mad itch." It is called pseudorabies because certain symptoms resemble those of rabies.

APHIS officials said that livestock export health certificates must now show that breeding swine destined for Canada have passed a negative serum neutralization test for pseudorabies and must originate from herds that have been free of the disease for the past 12 months.

In the past, pseudorabies was considered primarily a disease of cattle, although it was known also to infect swine, sheep, cats, dogs, and certain species of wildlife. In recent years, however, it has been found more frequently in swine, where it is generally fatal to young pigs. Symptoms include a high fever, nausea, listlessness, loss of coordination, and convulsions. The disease does not affect humans.

The new Canadian ruling is not anticipated to affect U.S. livestock exports significantly. Swine exports to Canada are currectly at an extremely low level, primarily because of quarantine requirements imposed by Canada to detect swine infected with hog cholera.

Population shifts affect demand for commodities

America's eating habits leave all sorts of tell-tale clues.

And, from these clues, analysts have noted that shifts in the population mix during the last decade have had some interesting effects on what Americans have been eating, and will probably affect future eating habits, too.

Lowering birth rates, the coming of age of the post-World War 11 babies, and shrinking household sizes during 1965 and 1975 were largely responsible for an increase in U. S. per capita food consumption. The most dramatic effect came from the drop in preteen children, low consumers of most foods except milk, and the sharp increase in numbers of teenagers and young adults, high consumers of most foods.

Also, since 1965, more and more Americans have been living alone or in two-person households. Three factors have been responsible; lower birth rates, a higher divorce rate, and an increasing tendency for young adults to leave their parents' homes and set up their own households. And, these smaller households have helped to boost per capita food consumption, because statistics show that persons in small households tend to eat more apiece than those living in larger ones (because there are fewer high-consuming children and because more food may be wasted.)

Projections into 1990, though, show a leveling off in the rise in per capita food consumption. By then, there will be a smaller proportion of teenagers and young adults and a higher proportion of older adults, particularly women, as they continue to outlast men.

The projections, of course, don't take into account such factors as available food supplies or prices, but assume certain constant trends. That is, children will continue to consume more milk but less other foods than adults; men and boys, on the average, will continue to eat more than women and girls; and senior citizens will eat still less than younger adults.

The food mix has undergone various changes, too, as demand has increased for some foods and waned for others during the past decade. And, the average market basket of 1990 will be even different from today, based on shifts.

Dairy Products

Most of the three per cent decline in consumption of this food group during 1965-75 can be explained by population shifts - mainly a declining proportion of children and the resulting drop in milk drinking. This dropoff was partially offset, however, by the boost in ice cream and cheese consumption.

The greater numbers of teenage boys were responsible for the ice cream figures, but the jump in cheese consumption (35 per cent) is more than demographic changes alone can account for. Only about 98 per cent of the increase can be attributed to more older men and women in the populace; the rest may be an increased popularity of foods containing cheese, such as pizza, and a greater sophistication in taste for cheese as well as access to a greater variety of cheeses.

Fluid milk consumption is likely to continue its downhill trend, as the teenage population shrinks, older adults increase in numbers, and the birth rate remains stable or decreases. (This is despite the slight increase in milk drinking caused from decreasing household size.) Increases in ice cream and cheese intake will probably slow some, too. By 1990, therefore, population shifts alone could be responsible for a 2 per cent decline in overall dairy product consumption.

Meat and poultry

In the last decade, increases in the proportion of high-consuming small households had a greater effect on poultry consumption than age or population; for red meat, the reverse is true.

Red meat intake was boosted by the high numbers of teenagers, particularly boys, and the increased proportion of adults - again, particularly male. For poultry, though, age has less of an impact (except that very young children obviously don't east as much as older people).

Based on an increasing share of smaller households in the future, both red meat and poultry consumption will continue to increase, although at a slower rate than in the past decade. Too, the dropoff in the share of young men will hold back red meat consumption some.

Eggs

Demographically speaking, eggs are a phenomenon. According solely to population shifts, consumption should have increased in the past decade, and furthermore, continue to increase right on to 1990. But this isn't the case.

In 1965, the high egg consumers were men of all ages. However, during the past 10 years, this group - the prime target of cholesterol concern- has apparently cut down on egg eating, whether out of concern for their health or weight, or simply because of "eating breakfast on the run."

Potatoes, vegetables, and fruit

Although population shifts boosted potato consumption during the past decade, they are likely to have an opposite effect by 1990. Reason is: the greater share of older women, traditionally low potato consumer, and the increasing numbers of small households. Contrary to the usual trend, potatoes are one of the few foods eaten less by single-person households than larger ones.

However, persons living alone do eat more other vegetables and fruits than do other persons. Therefore, a continuing increase in fruit and vegetable consumption is projected, although at a slower rate.

Flour, cereal, and baked goods

During the past decade, per capita consumption of flour and cereal products has fallen off. Future population trends indicate a slight increase in consumption, followed by a net decline by 1990.

The effect, though , will vary by product and will hinge somewhat on the declining share of young men and teenage boys. As the proportions of these consumers decrease, cereal and bread consumption should slack off, but for other baked goods, more high-consuming smaller households should offset the effect.

Sugar and sweeteners

Sugar consumption per person rose during the last decade, with the swelling numbers of teenagers and young adults. And given the projection that young people will account for a smaller share of the population by 1990, per capita sugar and sweetener consumption should be on the decline.

This projection makes an assumption, though, that only time can tell. That is, that the taste for soft drinks developed by the teenagers of 1965 and later will dull with age (or be replaced by low-calorie beverages). But it is too early to tell if this will be the case, or if the penchant for soft drinks will remain with them throughout the years.

VOTE - BILL GREEN FOR U.S. SENATE

No United States Senator from Pennsylvania has served on the Senate Agriculture Committee since 1904. Our rural population, the largest of any state in the nation, has been badly neglected by this lack of representation for the past 72 years.

If Bill Green is elected, he will seek a seat on that important committee to see that our farmers and rural population get the services they need and a stron g voice on matters that effect their future.

In 1973, after President Nixon had impounded rural water and sewer funds, Bill Green voted to override the impoundment. Only three Pennsylvania Congressmen voted to sustain Nixon's illegal impoundment. One of these was Green's Republican opponent for the Senate.

In 1975, when Congress considered a bill to encourage direct marketing - from farmers to consumers - Bill Green joined the majority in support of that measure. Only 95 Congressmen voted no, including the Republican candidate for Senate.

Bill Green has achieved an outstanding agriculture and environmental record in his 12 years in the House of Representatives. He averaged a 96 per cent voting rating while his opponent received only an average 70 per cent.

Wagners are new owners of White Oak Mill

By JOANNE SPAHR

WHITE OAK, Pa. - After 28 years of belonging to the same partnership, the White Oak Mill, here, has changed hands. The new owners are John and Mark Wagner, brothers, both of Manheim R1.

Prior to purchasing the business, John, 30, was employed for five years as a feed salesman for Stevens Feed Mill, Stevens, Pa. Mark, 23, had worked for Harry C. Rohrer and Sons, Columbia Avenue, Lancaster.

By Combining their separate talents, the brothers hope to have a successful future.

"Mark knows the books and I know the feed business and the customer's viewpoint, so together we complement each other," says John.

Coming to the business with the expertise and knowledge of five years in the field, John's key concept is "service."

"To me, service is the main ingredient to selling feed," he says. "It's important to be out among your customers, helping them when necessary, for instance if their cows get sick."

So, John and Mark are going to change the operation a slight bit. Instead of just two men working full time, there will now be three. Mark will work on the books, John will sell supplies, and they have hired a truck driver to deliver the feed.

"Mark Graybill and Lester Bomberger (former owners) have built up a good name and reputation, and we hope to keep it up and add to it," explains John.

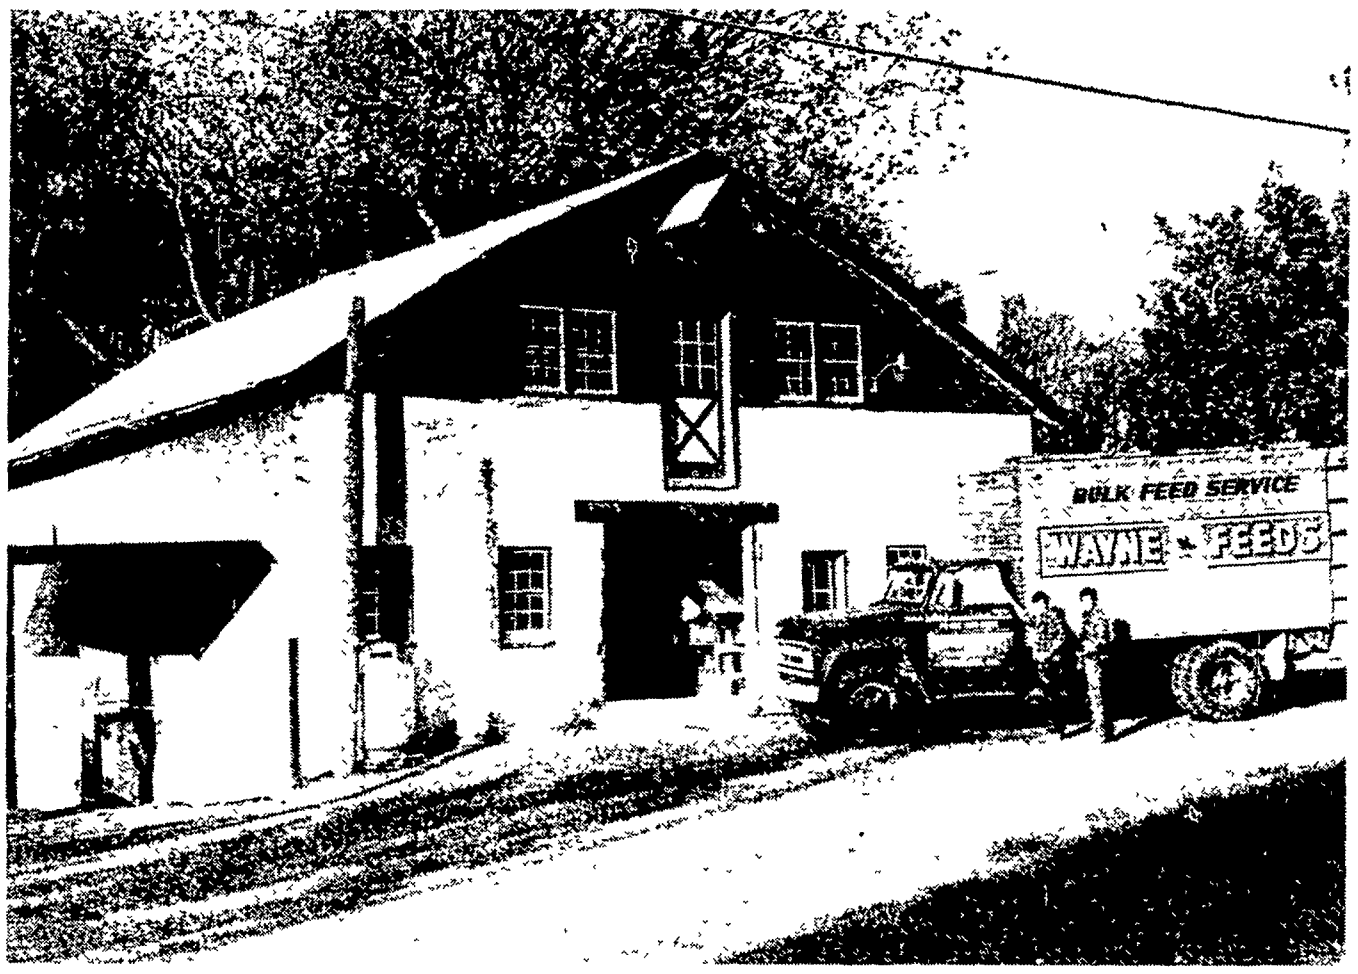
The Wagners also have plans to modernize the mill. They will be adding extensive storage facilities and new milling equipment. This renovating will begin shortly and extend over a period of a year or two.

They handle dairy, beef, and hog feeds, and are Wayne dealers. Their business also includes mixing their own feed, handling as much bulk as possible, and carrying a complete line of animal health aids.

For John, who is a father of four children, owning the mill is an exciting proposition, since he has "always been fascinated" by the quaint setting at the mill and the mill itself.

Its history goes back to 1945 when the original building burned down. That building had been on the opposite side of the road from the present mill. After the former mill burned down, William Greenly, owner of the business, rented the present White Oak Mill from Harold Maybee. In 1947 Greenly died, and Mark Graybill and Lester Bomberger, who had worked for Greenly for 18 years, took over the business, although they still rented the building from Maybee. Then, in 1951, Graybill and Bomberger purchased the mill for themselves. And, now, after 46 years in the feed business, the partners are retiring.

John and Mark took over the business on October 15 and gradually got to know the customers through the former owners who they employed for several weeks. Beginning the month of November, the Wagners will be on their own. Store hours are from 7 a.m. to 5 p.m. on weekdays and 7 a.m. to 12 p.m. on Saturdays.



White Oak Mill is situated in a quaint area near the Chiques creek. Beginning shortly, the Wagner brothers will be remodeling the inside of the mill by adding more storage facilities and new milling equipment.

Mark and John Wagner (left to right) are the new owners of the White Oak Mill.

Regional Farm Credit bank appoints new president

BALTIMORE, MD. - The board of directors of the Farm Credit Banks of Baltimore has named Gene L. Swackhamer to succeed the retiring Eugene G. Fouse as president of the Baltimore Federal Land Bank and Federal Intermediate Credit Bank.

Swackhamer will assume his new post on January 1, 1977.

He currently is serving as Deputy Governor of the Office of Finance and Research for the Farm Credit Administration in Washington, D.C., where he supervises that agency's activities in the areas of finance and research for the cooperatively owned Farm Credit System.

Swackhamer joined the Farm Credit Administration in 1970 after working for six years as a research officer and agricultural economist with the Federal Reserve Bank of Kansas City.

A native of Frankfort, Indiana, Swackhamer earned a B.S. degree in agriculture from Purdue University, an M.S. from Cornell University and a Ph.D. from Purdue where he was an assistant professor of agricultural economics.

Fouse, whose Farm Credit career spans some forty years, is a native of Martinsburg, Pa. He joined the organization in 1936 as a field representative after earning a B.S. degree in agricultural economics from Penn State University. From 1942 through 1950, he was affiliated with the Hollidaysburg Production Credit Association. In 1950, Fouse came to the Baltimore Bank as senior credit examiner where he progressed through the organization and was named President in 1970.

As a part of the Farm Credit System, the Farm Credit Banks of Baltimore are primary lenders for the agricultural industry in the Baltimore Farm Credit District, one of twelve such districts serving the U.S. and Puerto Rico. These banks, the Federal Land Bank of Baltimore, the Federal Intermediate Credit Bank of Baltimore and the Baltimore Bank for Cooperatives are currently lending in excess of 1.3 billion dollars to farmers, their cooperatives and rural homeowners in Maryland, Delaware, Pennsylvania, Virginia, West Virginia and Puerto Rico.

ACA takes poll of farm issues on 'Farm Line'

WASHINGTON, D.C. - By an overwhelming margin farmers say prices and trade embargoes are the biggest farm issues in this election.

A bi-partisan panel representing President Ford and Jimmy Carter found these results this month in a special "Decision '76 Farm Line" sponsored by the Agriculture Council of America.

The program gave people anywhere in the continental U.S. a chance to call toll-free to express their views on key farm issues to a panel headed by Dick Lyng, director of the Farmers for Ford Committee and Bobby Smith, chairman of the National Carter-Mondale Food and Agriculture Committee. ACA operates the monthly Farm Line so farmers can talk directly with national-level decision-makers. The Council doubled the length of yesterday's program to eight hours but still reported a substantial back-up of callers who couldn't get through.

Among the estimated 800 who did talk directly with one of the 28 panelists in Washington, 396 responded to a special questionnaire designed to define the major farm issues.

Farm prices were listed as the number one issue by 220 in this group, and embargoes were listed as number one by 73. A high percentage of those listed prices first cited embargoes as second in importance.

Seventy-six per cent of those polled said there is "above average" interest this year among farm voters. Thirteen per cent said there is "average interest" and 11 per cent said "below average". Fifty-three per cent said they felt that compared to other election issues, farm issues are getting "less attention" at the national level, but 34 per cent said they are getting "more attention" while only 13 per cent said "about the same".

Each person was asked to rank several issues as either "very important", "important" or "not so important". The response was as follows: Cooperative bargaining power - very important, 57 per cent; important, 25 per cent; not so important, 18 per cent; financing - very important, 46 per cent, important 30 per cent, not so important, 24 per cent; grain reserves - very important, 32 per cent, important, 39 per cent, not so important, 29 per cent; import quotas - very important, 57 per cent, important, 29 per cent, not so important, 14 per cent; OSHA-EPA-type regulation - very important, 41 per cent, important, 24 per cent, not so important, 35 per cent; support prices - very important, 64 per cent, important, 22 per cent, not so important, 14 per cent; trade embargoes - very important, 68 per cent, important, 21 per cent, not so important, 11 per cent.

One typical comment was voiced by Carol Field of Dalhart, Tex.: "Please stop embargoes. Stop letting labor dominate us. There is no reason to use grain as a tool."

Bryan Stevenson of Hartley, Iowa, said the U.S. "should limit agricultural sales only in war or in other national emergencies. I oppose embargoes and think it's time we trust the free market economy."

Jim Snead of Meade, Kan. noted "The price of bread is not down even though the price of wheat is way down. We need to be able to cover our costs."

The Agriculture Council of America, founded in 1973, is made up of individual farmers, farm and commodity organizations, and companies between farmers and urban consumers.

Brucellosis updated

NEW YORK, N.Y. - The U. S. Department of Agriculture updated its list of slaughter establishments and stockyards specifically approved for cattle requiring special handling because of brucellosis, effective Oct. 14.

Officials of USDA's Animal and Plant Health Inspection Service (APHIS) said the list includes 335 non-federal slaughter establishments in 14 states, and 1,276 stockyards in 40 states.

Of these, some 256 slaughter establishments and 870 of the stockyards are specifically approved to handle brucellosis-infected or exposed cattle and those from quarantined areas. The remainder (79) of the slaughter establishments are only approved to handle cattle from herds of "unknown status." The remainder (406) of the stockyards are only approved to handle such categories of cattle as those from herds "not known to be affected with brucellosis," "qualified" herds, and herds of "unknown status."

Additional information concerning the list is available from state or federal animal health officials.

Housing disputed

WASHINGTON, D.C. - The president of the 500,000-member National Association of Realtors this week challenged Jimmy Carter over the apparent misuse of statistics in a TV commercial suggesting that "homeownership in American is falling."

Philip C. Smaby said that the Carter commercial suggests the slump in homeownership occurred during the last eight years.

This statement is in double error, Smaby said. Not only has the percentage of American families owning homes grown in the last eight years, but it has grown faster that the rate of population growth, he said.

This misuse of statistics in a campaign commercial, he said, has caused great concern among the nation's realtors who he said have always felt that homeownership by more American families is an important national goal which must be affirmatively pursued and encouraged.

In a telegram sent to Carter's headquarters in Atlanta, Georgia, Smaby also said the realtors were "discouraged to note among your promises for tax reform, a proposal to eliminate mortgage interest payments as deductions from our Federal income taxes" which Smaby said is essential to promoting home ownership for more Americans.

Country fair in city

DETROIT, Mich. - If you can't keep them down on the farm, bring the farm to the city and you'll draw record crowds.

Even in the auto capital of the world, farm folks and suburbanites turn out in record numbers for the Michigan State Fair which is held in Detroit, the nation's largest city to hold a state fair.

This year's 11-day fair was "the best in history, a real barnburner," said Lester M. Lund, general manager of the annual event at the State Fairgrounds.

More than a half-million people set a record attendance at the Fair which is held well within Detroit's city limits.

Despite the typical urban problems of big cities, Lund said that after the first couple of days, "when people saw that the Fairgrounds was the safest place in Michigan, they turned out in droves."

This year's turnout for the Fair was 535,910 compared with 354,432 last year and 488,017 the year before. But the State Fair was also the most profitable in its 127-year history, produced the largest gate revenue (except in 1971 when it ran an extra six days), netted the largest total revenue except for the '71 Fair, had the largest number of floats in the opening parade and the largest number of entries in the competitions.

"The Michigan State Fair has turned around," said Lund. "It's a family fair. It's better than ever. You can ask a half-million people."

Virginville 4-H meets

VIRGINVILLE, Pa. - The Virginville 4-H Club met on October 19 at the Virginville Grange Hall. President Scott Miller called the meeting to order. Jan Adam led the club pledge.

Activities planned at the meeting were bowling and a hayride.

Before the meeting was adjourned, the group had a contest on drawing off cows for registration.

Berks farmers grill area candidates

By JUDY MITCHELL
Berks County Reporter

LEESPORT, Pa. - Fourteen candidates seeking public office in the November 2nd elections responded to the Berks County Farmers Association's invitation to appear at a Measure the Candidate night held at the Ag Center On Oct. 22.

The candidates present at the Friday night question and answer session were: Gus Yatron (D), congressional candidate in the 6th District; Michael A. O'Pake (D) and Mervin A. Heller, Jr. (R), 11th Senatorial District; Nicholas Moehlmann (R), 102nd Legislative District; Harold R. Brown (D) and H. John Stahl (R), 126th District; Thomas R. Caltagirone (D) and George A. Dillman (R), 127th District; James J. Gallen (R), 128th District; G. Roderick Snyder (D) and John S. Davies (R), 129th District; and Lester K. Fryer (D), 130th District. Appearing for Richard A. Hartman (D) of the 128th legislative district was Sam Schlough, and Eugene Richard for Ernest W. Werstler Jr., 130th district.

Charlie Mohn, PFA assistant executive secretary, from Hershey, Pa., presided over the meeting during which the candidates were firmly limited to an equal time alloted each for introductory comments, answers to questions from the floor, and summary remarks. Mohn invited the audience to submit their questions for the candidates, while cautioning them that only those of a general nature would be accepted.

Gus Yatron was the only congressional candidate present to respond to questions pertaining to national issues, the first of which was: Would you favor a transfer of the food stamp program to the HEW and why? Yatron commented that "there have been abuses;" and although he stated he was not sure where it should go, added that "it needs policing so people who need them get them."

As to what he would suggest to increase wheat prices, the congressman recommended higher price supports "so the farmer can make a fair profit on his returns, whether it's wheat or whatever it may be." He reaffirmed that position later when asked why Congress sustained the President's veto on the 80 to 85 per cent rise of parity and quarterly adjustments on dairy price supports. "I cannot answer why they did it," Yatron stated. "It should have been increased to 85 per cent - the farmer needs higher price supports."

On the matter of a national health plan, Yatron indicated that he was in favor of such a plan advancing, "I think the wealthiest nation in the world should certainly be the healthiest nation, and I think it (the enactment of a national health plan) is on its way."

One of the primary state issues of concern to the agricultural group was the matter of land use. Although there seemed to be little difference among the candidates present as to their preference for keeping land control on the local level, there were some variations in their assessments of the problem and possible solutions.

The question of land use as presented to the candidates was a twofold one: What is the best way to preserve land in agriculture? New York State is in the process of setting up districts; do you think this is the way to go?

Gallen was the first to address himself to the question, stating he was in favor of "keeping land use control as close to the county level as possible." Gallen added that he would "even hate to see it go to the regional level" considering what happened when an attempt was made to pass legislation at the state level for what was "ostensibly a flood control measure, but really would have given complete control to DER over all our land."

Dillman stated that "the State of Pennsylvania already has too much control," adding that land control "should stay at the county level with present zoning laws staying in effect."

Heller also did not want "the state to tell the county how the land should be developed," maintaining that the primary responsibility should remain with the municipality with county supervision and direction.

Speaking on behalf of Werstler, Richard followed with the opinion that "the key to the operation is not the land use bill" but getting "agricultural products up to a place where farmers can afford to be competitive; then, he added, "you won't have the problem."

Moehlmann pointed out that in his opinion, preserving agricultural land presents a "multiple problem" involving land use control, taxation, and market economics. The legislator claimed to having "a conflict within myself on the question" in that he personally believes "that land control should reside as close to home as possible," but at the same time recognizes that we now have local control and "it is not working" to preserve agricultural land.

Citing his record as a councilman in Reading, Brown expressed his objection to over-development. "We have to control it at the county level," he stated. "It is much easier that way, and it is better for the people to express their opinions that way."

Speaking for Hartman, Slough stated that "this control should be at the local level," but expanded that local planning commissions "should have zoning ordinances set up in such a way that you can control it on that level; then it should go to the county level for approval; and from there it should go to the house members so that we have a little backbone to lean on."

According to Fryer, the issue is "a big battle between land developers and agriculture, and whenever the dollar symbol is involved, it is a bitter struggle." Public hearings, he said, have indicated that farmers feel they are not receiving a fair hearing on the county level. "We have to make a decision on this," he added, indicating that the agricultural committee will do this at the next legislative session, and that plans have already been made to study the New York State approach.

Stahl pointed out that land use control is "a thorny problem" in that "the needs of the total community of Pennsylvania have to be served." He added that "each area - has different problems and to put something into law which affects everyone is going to be difficult." For that reason he furthered that "at the present time, I do believe that the county land use control with local input is the best measure I see so far."

O'Pake expressed his opinion that "we have to give Clean and Green - a chance to work." Pointing out that the law is "still new" O'Pake mentioned that one problem has already been recognized and "I think we have that worked out." He referred to proposed legislation he expects to pass in November which will ease the inheritance tax burden for sons and daughters of farmers who wish to continue farming the land. "If we want to really preserve farm land, O'Pake said, "we've got to make sure that the (children) of the farmer can maintain it as farm land."

Davies expressed his preference for land control remaining at the county level, but pointed out that "regional cooperation" is necessary in the case of dams and power plants slated for construction because of the effect such projects can have on surrounding farm land. He also recommended providing financing for young farmers to get into farming before the inheritance tax becomes a factor.

(G. Roderick Snyder (D), candidate in the 129th district was not present at the time the land use question was advanced.)

Other questions presented to the legislative candidates were in reference to rising electric company rates and raising the earned income tax as a possible means of lowering property taxes used to support public schools.

DHIA meeting set

BERNVILLE, Pa. - The Berks County Dairy Association will hold their annual banquet meeting at the Bernville Grange on November 5. Guest speaker at the Friday night affair will be Donna Yousey, New York State dairy princess program director. Dairy Association members from all counties are invited to attend the banquet and share in what Miss Yousey has to offer from her experience in the dairy promotion project. For reservations call Donald Duncan at 215-693-5213, or Rodger Wagner at 215-689-5496.

Sheep industry rights decline

DENVER, Colo. - A continued decline in sheep numbers could cause that industry to be owned more by the processors than by the primary producers.

This warning was issued recently by Richard D. Biglin, executive director of the American Sheep Producers Council, before that organization's semi-annual Board of Directors' meeting held here.

Biglin, who heads the sheep industry's promotional arm representing over 120,000 producers nationwide, was speaking in reference to the national effort to increase lamb and wool production titled "Blueprint for Expansion."

"A growing industry, regardless of how small, presents a much better appearance to everyone outside the industry," said Biglin.

"The counterpart of a reasonable supply is a smaller, highly specialized, almost delicatessen-type of product," he added.

The national "Blueprint" program has received unanimous approval by all segments of the sheep industry while state and local areas are also developing specific programs designed to increase production.

Sheep production declined seven per cent last year while a further decline is predicted again for 1976.

Dr. A. Dewey Bond, vice-president of the American Meat Institute, Washington, D.C., told the group of sheepmen, "This further decline in lamb slaughter may reflect added interest in sheep production by holding back replacement stock rather than marketing their lambs."

Members of the ASPC staff also reviewed promotional programs for the past year and received suggested budget figures for the 1977-78 lamb and wool programs.

Eat all you can

BIRD-IN-HAND, Pa. - The Paradise Rotary Club is sponsoring a Pancake and Sausage Breakfast to be held Saturday, November 6 at the Bird-in-Hand Fire Hall, from 5:30 - 11:00 am. The breakfast is the "all you can eat" type and tickets are $2 for adults and $1.25 for children.

Early Containers

Today's steel drums and wooden barrels are the modern descendants of the ceramic jars and amphorae used for transporting goods more than 4,000 years ago Early merchants found that cylindrical shipping containers combined the maximum strength of the circle with easier mobility, since the filled pots could be tilted and rolled on or off a ship
